## Foreign Troops in America

**By Nathan Leal - June 2007**

In this dream, I was in my home town - Loveland, Colorado.

A terrorist event had just occurred somewhere else in the U.S.

Because of the attack, all of America was under Martial Law.

There was a command given to all citizens that everyone had to report to their neighborhood public school.

The purpose of going to the school was some sort of mandatory registration, (part of their war on terror.)

When I arrived at the registration area with my wife, there was a long line with hundreds of people in line.

Along the length of the line were soldiers maintaining order. They were shoving people and giving commands.

I joined the line waiting to get into the building.

As the line slowly moved, I eventually got close enough to several of the soldiers.

They began to ask me questions but I could not understand them because one of them was speaking Russian and the other on was speaking German.

Conclusion: Martial Law is coming to America in our future with foreign troops.

Date when this will occur unknown.

## War with Iran?

**By Nathan Leal - June, 2007**

My Dream about Iran. This dream was short but very vivid.

I had this dream in June of 2007

In my dream, I was watching CNN News on my TV. The female newperson was making an announcement about Iran.

She said, "Well folks today is the 21st and Iran has just reached their deadline and they have not complied. Therefore, the U.S. is now going to take 'IT' to the next level."

I don't know what "IT" meant, but by the tone of the news anchor, it sounded serious!

**Conclusion: If this dream was about war with Iran, the date of the 21st is a significant date.** I do not know the month. I guess that we will just have to wait and see.

"For we only know in part and prophesy in part."

**Update** - Was this event fulfilled? Iran took the nuclear situation to the "next" level on the 21st of August, 2010

(Reuters) - **Iran began fueling its first nuclear power plant on Saturday, August 21, 2010**

""Despite all the pressures, sanctions and hardships imposed by Western nations, we are now witnessing the start-up of the largest symbol of Iran's peaceful nuclear activities," Salehi told a news conference afterwards." [Link to the article](#)

**Iran begins loading fuel at its Bushehr nuclear reactor Saturday 21 August 2010**

The operation to load fuel into Iran's first nuclear reactor station has begun amid nationwide celebration. [Link to the article](#)

Is this event fulfilled? At this point, I do not think so. The "next level" is going to be something substantial.

## A Volcanic Eruption in the Pacific Northwest

**By Nathan Leal - March 15, 2008**

In this night vision, I was floating above the city of Portland, Oregon

I was over the south part of Portland looking to the North - North/east. A mountain in front of me began to erupt. I am not

sure if it was Mt. Hood or one of the other mountains that are north of Portland.

When the mountain began to erupt, it was not an ash eruption but instead red hot lava was spewing into the air and flowing down the northeast side of the mountain.

Everyone in Portland could see the lava pouring out.

## **WARNING – Judgment Has Begun!**

**By Nathan Leal - April 18, 2008**

To those that would have the eyes to see and the ears to hear, it has become so!

The judgment that was at the door has walked through the threshold.

The patience of the Lord God Almighty has diminished and grown weary.

The sins of the land have poisoned the waters of America and are overflowing the banks. The waters and the rivers of America are full of the blood of the murdered unborn. They are full of iniquity, adultery and fornication. They are full of the abomination of Sodom.

The waters are polluted! The waters are polluted! The waters are polluted! They are foul!

Therefore, this watchman declares and cries out over the land that the judgment of the Lord Jehovah has begun!

Because people of apostasy did not desire the truth nor the Living Water of the Word of God prepare to see the poisoning of the water of the land!

Because the ears of the sleeping have been closed to the cries of the prophets, prepare to hear the cries of the people as God allows them to be stripped of their earthly idols and possessions.

Because the people of apostasy did not desire the True Bread of Life, prepare to see the bread of man become more precious than gold. Famine will reach the shores of America. Idle hands will be replaced with hands searching for food \*.

Because the people of apostasy placed material goods, cars and wealth over holiness, prepare to see these people living in their cars.

The land weary and full of iniquity will soon answer the cry from Heaven with: famine, earthquakes, and the tempest of deadly storms!

Therefore, let the people of God seek shelter in the heart of God with repentance, tears and reverence.

Let the people of God seek the wisdom of God for instruction to weather the days ahead.

This Watchman has declared it.

Let it be so, Amen!

### **Update – The poisoning of the water is in fulfillment**

The Gulf Spill is a VERY pivotal part of the present judgment over America.

But it is only the beginning of this event. And it is just not going to be limited to the Gulf. The poisoning of the water is also going to occur to the FRESH water of America.

This has also begun. The fresh water poisoning has also begun with the radiation from Fukushima. But again....the poisoning is

not complete. More water of America is going to be poisoned! This is the unfortunate part of judgment...it actually happens!

Since the prophetic warning came out years ago, there have been mockers and scoffers that have attacked this prophecy and attributed it to delusion. Nevertheless, reality is the witness to the truth!

**Folks, please know that the Gulf of Mexico is POISONED!!  
Do not eat seafood from there!!**

This is a divine event taking place before our eyes! If you are still in doubt, feel free to try eating some of this fresh seafood from there.

### **Mutated Shrimp with No eyeballs!**

### **Fish with tumors:**

### **Mutant fish...nice eyeballs!**

### **Shrimp with tumors growing out of their heads!**

From a recent report:

### **The ‘Horribly Mutated’ Seafood In The Gulf Of Mexico** Saturday, March 16, 2013 9:34

Among the disturbing mutations: Shrimp with tumors on their heads; fish that lack eyes or are missing flaps over their gills; fish with oozing sores; crabs with holes in their shells; crabs that are missing claws and spikes, or are encased in soft shells instead of hard ones.

Keath Ladner, a third generation seafood processor in Hancock County, Mississippi, is also disturbed by what he is seeing. “I’ve seen the brown shrimp catch drop by two-thirds, and so far the white shrimp have been wiped out,” Ladner told Al Jazeera. “The shrimp are immune compromised. We are finding shrimp with tumors on their heads, and are seeing this every day.”

While on a shrimp boat in Mobile Bay with Sidney Schwartz, the

fourth-generation fisherman said that he had seen shrimp with defects on their gills, and “their shells missing around their gills and head.”

“We’ve fished here all our lives and have never seen anything like this,” he added. Ladner has also seen crates of blue crabs, all of which were lacking at least one of their claws.

Darla Rooks, a lifelong fisherperson from Port Sulfur, Louisiana, told Al Jazeera she is finding crabs “with holes in their shells, shells with all the points burned off so all the spikes on their shells and claws are gone, misshapen shells, and crabs that are dying from within ... they are still alive, but you open them up and they smell like they’ve been dead for a week”.

Rooks is also finding eyeless shrimp, shrimp with abnormal growths, female shrimp with their babies still attached to them, and shrimp with oiled gills. “We also seeing eyeless fish, and fish lacking even eye-sockets, and fish with lesions, fish without covers over their gills, and others with large pink masses hanging off their eyes and gills.”

[Link to the article](#)

Ladies and gentlemen, America is under judgment! Those who cannot tell what time it is resemble the mutated shrimp in the images above....they do not have the EYES to see!

## **A Super Hurricane Dream**

**By Nathan Leal - April 30, 2008**

In my dream I saw very detailed numbers, places and events, the following are the details:

I was reading a newspaper, the USA Today.

I believe that the day was a Tuesday. The article was talking about the big Super Hurricane that was developing above Australia near Indonesia. The article even mentioned that the Commentators on Monday Night Football were talking about the Super Hurricane.

It was called a Super-Hurricane because of the intensity and pressure of this storm.

The Hurricane will start with the letter, "A."

It will begin forming along or just below the Equator. The USA

Today article mentioned that hurricanes DO NOT form along the Equator. So that is what made this storm so unique.

The barometric pressure of this storm was "23". The article said that, “In the history of hurricanes this had never happened.”

Based on the pressure of this storm they called this Hurricane a category "9", in the USA Today article, the storm had already reached Category "8" strength. But they were expecting it to reach category "9" levels when it made landfall over northern Australia.

They were expecting massive devastation in Australia

Conclusion: A Super Hurricane will make landfall over northern Australia as a category "9" with pressure of 23. The wind power of such a storm has to be apocalyptic.

Date when this will occur - Unknown.

## **Flood to the Midwest? - (Fulfilled)**

**By Nathan Leal - May 29, 2008**

This dream was very short but vivid.

In my dream I was up high above the land. I was above the Rockies of the United States and looking forward toward the north.

Suddenly, I saw a torrent of muddy water flowing in the distance. Towards the northeast of where I was. It was like a very wide river. The water was a very murky brown, overtaking the land.

I heard the voice of the Lord say,

***"The headwaters are overflowing. The banks have been breached."***

Muddy water will spill into the land. The overtaken land was along this river and nothing could survive the power of the river. The water was very dirty.

I was not sure, but I think that this was happening in the Midwest of the United States.

I am also not sure what caused the flooding. I did not see a lot of rain. That struck me as odd.

The dream was over.

Conclusion: A Major Flood will occur. While I am not completely sure, I think the location is in the Midwest. But this one will be different. I am not sure why? A Flood but no rain to cause it! At times we only prophesy in part. Therefore, I do not have all of the details.

**Update: June 6, 2008** - I have been wondering if the reason that I did not see much rain in the flooded area is because the flooding source may be happening upstream hence the word that I heard from the Lord "The Headwaters" and as a result flood downstream. I guess that we shall see.

**Update June 8, 2008** - Well it is starting to be all over the news that the Mid West is now experiencing record flooding. But I still have to say this, what I saw was a torrent. So I hope that we don't

see any dam or levee failures. Which could be devastating!

Brethren pray for the people in the Midwest!

**Update June 10, 2008** - I have seen some of the images on the news. The sun is in the sky, but now the rivers are rising. An image I saw resembled what I saw in my dream. No rain but flooding. Is this "IT" though? I still do not know. Nevertheless we ARE seeing record flooding in the MIDWEST, listen to this news report talk about, "BANKS Overflowing" - [Watch video](#)

**Update June 11, 2008** - Well brethren, The Lord has revealed to me that this flood event was my dream. There is going to be more flooding downstream. In addition to that, we are going to be seeing this flood effect the price of food in the fall harvest. Prepare! See the related news story - [Read Story](#) - [Watch video](#)

**Update June 13, 2008** - This is becoming historical brethren, they need our prayers.

Fulfillment in progress! Note first sentence of this story! "The Cedar River poured over its banks..." [Read Story](#)

Brethren prepare for high food costs, garden NOW, acquire food NOW!!

Date when this will occur - Unknown.

## **An Event in Houston - Terrorist Attack, Industrial Accident or Catastrophe?**

**By Nathan Leal - June 3, 2008** (posted August 26, 2008)

I had this dream several months ago but I have not published it until now!

I do know what this dream means and I really did not want to reveal it because I have family in Houston. I do not want to scare them.

I also have faithful supporters that live in the Houston area and I do not want to scare them either.

So for almost 3 months I have kept this dream to myself.

But God has rebuked me. If I am a watchman, I am not to hoard a warning to myself. So brethren, I repent of not revealing this dream sooner.

I do not want to raise fear or unnecessary alarm. I do not know what caused the destruction in the following dream. I will just tell you what I saw.

I was in Houston inside of a building and I was looking out of a window.

Suddenly, there was a solid black cloud about 50 feet above the ground and it was several hundred feet tall and about 50 feet wide. It went by the window from left to right.

I am not sure if it was a tornado because it seemed to be more like a moving column of very black smoke. As it went pass the window, I saw that there was a tall and fat pine tree being carried in the smoke column.

The pine tree was totally black with soot all over it. It had no branches and it resembled a telephone pole. But it was not a telephone pole because I saw that there was still bark on the tree. It was a dirty, sooty black.

The cloud and the tree were traveling past the window at about 30 to 40 MPH.

After it went by, I got into my car to leave the building. I made a right turn and drove into the street. At the first intersection I made another right turn and after I drove a few blocks, the scenery suddenly changed.

It was like the scene of an apocalyptic movie.

The road was suddenly full of emergency equipment. Fire trucks, ambulances and hundreds of emergency workers. There were also young boy scouts helping out in the efforts.

Along the opposite side of the street were hundreds of people just staring at the destruction!

The scene was very eerie.

The vehicles were parked along the street of what was once, a large housing subdivision. But the houses were all gone. As far as I could see, there were no longer any houses left standing.

The entire neighborhood was gone: no houses, no cars, no bodies!

The only thing that was visible were the remnants of tall trees without their branches. The trees were solid black with soot all over them. They were all snapped off at about the 30 foot level.

The ground was also very black and sooty. It was not ash but more of like the black soot from a chimney.

I saw a child about 5 or 6 years old standing across the street just staring at the destruction. She was very sad. I went over to her and leaned over to talk to her but she would not answer. She seemed to be in shock. So I gave her a balloon and got back into my car to leave.

I drove further down the street about a half a mile until I came to an obstruction that cars could not get pass. The street was totally covered with a thick mud that was made out of the black soot. It was about 1 to 2 feet thick. There was no way to get past this muddy soot. It began to rain.

The dream was over.

**Conclusion:** This dream is a mystery to me because I do not know what could cause such destruction. At first it would seem that maybe a tornado did the damage, but that would not explain the black soot all over everything.

I do not want to speculate that it was done by a nuclear weapon, a conventional weapon or an industrial explosion. Or a combination of several of these things.

I do not know if the destroyed neighborhood was one of many. I do not know if it was accidental or on purpose!

Could a refinery explosion destroy a neighborhood? Could a terrorist attack at a refinery do this?

I have wondered about this dream for several months now. I feel that God wishes me now to publish it.

I hope that this dream will never happen.

Note\* - To the people in Houston that may be reading this. Or to those with loved ones in the Houston area. If this dream is prophetic, there is no way to know when it will happen. So, my advice to you would be to make it a matter of prayer to the Lord our God Jehovah and ask Him to protect you and your family if and when this event occurs. He can do it brethren!

Again brethren, I hope that this dream will never happen!

Lord have mercy on us.

## Was Hurricane Ike the Fulfillment of My Houston Dream?

By Nathan Leal - September 30, 2008

On August 26, 2008, I published a prophetic dream that I had about a catastrophic event in Houston.

It was a very gloomy dream where I saw images of destruction in a neighborhood.

In the past few weeks, I have been getting emails from a lot of readers who tell me that some of Hurricane Ike's damage resembles some of the things that I described in my dream. Some of you have asked if Hurricane Ike was the fulfillment of my dream.

My answer to that question would be, "I do not know!"

However, I would like to say that some of the destruction that occurred in some of the outlying coastal areas do fit the dream very closely.

An area along the Texas coast called, "The Bolivar Peninsula" and "Crystal Beach" suffered almost apocalyptic damage where the actual shoreline and parts of neighborhoods were swallowed up by the Gulf of Mexico.

Here are some images of the damage and also some excerpts from my prophetic dream.

Words from dream begin:

I was in Houston inside of a building and I was looking out of a window. Suddenly, there was a solid black cloud about 50 feet above the ground and it was several hundred feet tall and about 50 feet wide. It went by the window from left to right.

I am not sure if it was a tornado because it seemed to be more like a moving column of very black smoke. *As it went pass the window, I saw that there was a tall and fat pine tree being carried in the smoke column.*

*The pine tree was totally black with soot all over it. It had no branches and it resembled a telephone pole.* But it was not a telephone pole because I saw that there was still bark on the tree. It was a dirty, sooty black.

was very eerie...

...I made a right turn and drove into the street. At the first intersection I made another right turn and after I drove a few blocks, the scenery suddenly changed. It was like the scene of an apocalyptic movie....The scene

*... A large housing subdivision... the houses were all gone. As far as I could see, there were no longer any houses left standing.*

*The entire neighborhood was gone: no houses, no cars, no bodies!*

The only thing that was visible were the remnants of tall trees without their branches. The trees were solid black with soot all over them.

They were all snapped off at about the 30 foot level.

I drove further down the street about a half a mile until I came to an obstruction that cars could not get past. The street was totally covered with a thick mud that was made out of the black soot. It was about 1 to 2 feet thick. There was no way to get past this muddy soot.

It began to rain.

The dream was over.

Brethren, I do not know if the destruction that I just showed from Hurricane Ike was my dream.

In a way, I hope that it was, because I do not want more destruction to come to Houston.

Unfortunately, the sad part of this story is that many people chose to not evacuate from their coastal homes. Hundreds of homes were swept off of their foundations and carried out to sea by the storm.

At last count, there are hundreds of people that lived in these houses are still missing. Officials are starting to believe that the unthinkable has happened and that hundreds of these people who did not evacuate might have been carried out to sea and drowned.

There is great sadness in the Houston area.

The time of sorrows has visited our families and friends in that area.

Please hold up these people in your prayers, brethren.

## A Message to the Pastors of the Land

**By Nathan Leal – June 8, 2008**

*Note – Pastors, if these words apply then let them apply, if they do not, then pray for your brethren!*

To the shepherds across the land, I ask.

Pastors, do you love our Lord?

Your people starve! There is a famine in your church.

The portions to your flock, why so small!

They wither into dead carcasses. They grow weak.

Pastor, do you see them? Or are you too busy?

Busy choosing your next sermon...

...from the internet. Your sermons; bought for a pittance.

The dry boned people give you their portion.

They bring their offerings, expecting from you the oracles of God. And at the table, they wait... to have their empty plates filled.

They wait in vain!

Do you hide yourself away and go on a journey; a journey to the throne room of God?

Do you enter the heavenly places and petition the Master?

Do you clutch the horns of the altar and cry, "I need a word for my people!"

Do you seek the manna, His secrets, His mysteries...

....His treasures of darkness?

Your people; the flock of God! Are they precious to you?

Do you seek out the lost ones, and weep with the sad ones?

Their stains!

They do not know! They do not know how to be ashamed,  
because you have not taught them!

They do not know! They do not know how to sigh and cry over  
the sins of this land, because you have not shown them!

Show them!

Each new day brings shame to your name, for these things are  
being remembered; Remembered with a writers ink horn,  
inscribed into the Chronicles of the Things of God.

Repent Pastors! The Lord cries out!

The door is closing. Repent!

## **A Cry to the People of the Land**

**By Nathan Leal – June 9, 2008**

Many voices are in the land. They cry out, "Peace and success!"

The people love these words. They eat them, they devour them.

They say, "Give us more words, words that shine and glisten!"

But the Elijah's are rising, declaring, proclaiming. From heaven's  
mountain, they are shouting, "To all the people far and wide, your  
faith is in words that lie and deceive!"

For your coveting eyes have blinded you, your idols mark you.  
Your hardness has shamed you.

Open your ears and hear the Word of the Lord. He has declared  
it! He has compassion but the people are a haughty people. They  
say that all is well, many blessings are ours!

But His cup is near to overflowing; His compassion is now in the  
words of his messengers. His prophets are rising; they have  
awakened, across the land.

The Lord's army with words that will burn, they will cut, they

will offend.

When His servants rise up, the people will scoff. They will mock.

But the compassion of the Lord will send His servants throughout  
this land. Many will listen, few will turn.

The Elijah's of God, The Elijah's of God!

Send them forth Lord. With the power from heaven, let them be  
strong and smite down the haughty and bring hope to the weary.

Let them be strong! They are olive trees for God, empowered in  
His strength. They are rising. The fury of God is in their eyes, the  
fire of God is in the Bosom. The Word of God is in their mouths.

The multitudes will laugh but a portion will groan and turn back  
to His love.

The judgment is set. The land groans.

Let the people repent!

Amen

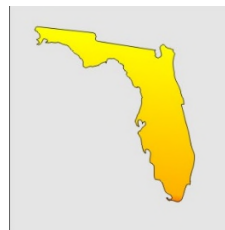

## **Coming Flood to Florida? - Florida in the Bucket**

**By Nathan Leal - June 23, 2008**

This dream was very short but vivid.

In my dream I saw the state of Florida appear suddenly in front  
of me.

I saw a cut out of the state. It was hovering in the air but in glowed  
a little, like the shape was made out of Plexiglas and lit from  
behind. It was yellow - orange in color.

Suddenly, the shape of Florida dropped straight down into a  
bucket of water that was below it. The bucket was full of water  
so the bottom of Florida was under water.

Immediately a giant wet sponge started to wipe the whole state from side to side with water. The sponge started at the top and wiped east to west.

But then the sponge was dropped and a piece of steel wool started wiping starting from East to West at the top of the state.

Suddenly, I heard a voice say, "Stop! Only wipe with the wet sponge but do not use steel to cleanse because it will scratch everything."

So the wet sponge appeared back and started to wipe Florida again with water.

The dream was over.

**Conclusion:** An obvious part of this dream was the mercy of God. God only allows things to chastise but not destroy. That is why He said, "Do not use steel to cleanse."

Now, if this dream means that Florida will suffer a storm. It looks like the flooding will be in the southern part of the state. So Southern Florida, be warned.

The Northern parts will receive an amount of water also, but not as bad as the south.

Now it is possible that this dream may mean something else. In the event that God reveals a different truth to this situation, I will update this page.

Date that this dream will happen - Unknown

**UPDATE August 20, 2008 - This dream has happened in Florida**

This dream now makes sense. Tropical Storm Fay is dropping record rain amounts 30 inches in some areas. Fay is also doing a very "weird" maneuver. She is going back and forth across Florida. This storm is dropping a lot of rain but has "LOW" wind, which explains the dream having the "Steel Wool" (the wind) not to be used.

The sponge = much rain

Sponge going back and forth = Fay is going back and forth across Florida

Steel Wool = high winds are not happening

News Links: - [Soggy storm Fay moves over Florida for 3rd time](#)

News Links: - [Fay Moving Across State, More Flooding Expected](#)

## The End Time Beast is Rising Now?

**By Nathan Leal – October 8, 2008** (posted October 11, 2008)

I had a very disturbing prophetic dream on October 8, 2008

In this dream, I was driving on a dirt logging road in the forest. This particular dirt logging road was in a mountainous region. One side of the road went up onto a mountainside. The other side of the road had a drop-off with a river running alongside the road. The drop off to the river was about 50 feet below.

As I was proceeding along the road there suddenly appeared on the surface of the road - Bear Footprints.

I stopped and looked at the bear footprints. The footprints continued along the road. I wondered how far ahead the bear was because now I was following his path.

As I continued along the road I looked down at the river and I noticed something very odd. The river level had slightly risen but it was not moving. It was not moving at all. The water was a very dark muddy brown. The water was not clear like it should have been.

I said to myself in the dream, "Why isn't the water moving?"

I then looked down the road, when a bridge suddenly appeared along the road in front of me.

The bridge was not very long, maybe 100 feet.

The odd thing about the bridge was that it had three distinct humps on it like a roller coaster. Each hump went up maybe 10 to 15 feet. I drove toward the bridge and drove over the humps which were easy to go over.

I was then on the other side of the bridge and back on the dirt road where the bear tracks were continuing.

The dream was over.

Interpretation:

The book of Revelation describes the End Time Beast in Chapter 13.

This final End Time Beast will be the final earthly government that man will have to endure before Jesus returns.

It will be cruel, vile and controlled by the murderous entity, Satan himself and his demonic cohorts.

Revelation 13:1 and 2 says:

*“And I stood upon the sand of the sea, and saw a beast rise up out of the sea, having seven heads and ten horns, and upon his horns ten crowns, and upon his heads the name of blasphemy.*

*And the beast which I saw was like unto a leopard, and his feet were as [the feet] of a bear, and his mouth as the mouth of a lion: and the dragon gave him his power, and his seat, and great authority.”*

Based on the previous description, we know that the end time beast will have the feet of a “Bear”

In my previous articles, I have biblically shared that the End Time Beast will occupy the entire world and will be known as the New World Order (NWO). The NWO will divide the world into ten economic regions modeled after the European Union.

America will belong to the region called the North American Union. (Please read my other articles on my website for more information).

In seeking God about my night vision, I would like to share what I believe the interpretation to be. Now, I do want to say, that as humans we do have the handicap of only “knowing in part” as the scriptures tell us.

So looking through a glass darkly, this is the interpretation:

The "Bear" footprints that I saw on the road meant that the end time beast has NOW appeared upon the world scene and is presently laying down its footprints!

This means that the foundation of the Beast is at this very moment coming to life! Its infrastructure is being laid down in the present world.

The three humps that I saw, mean that in our future, three events are going to take place that are a part of the Beast’s roadmap to creation.

Three events brethren! I do not know what these events are going to be.

They could be: (Now this list is just speculation) but...

1. War
2. Terrorists Attacks
3. Financial Armageddon

4. A New Financial System
5. A New type of Currency
6. New political alignments
7. etc.

Friends, I do not know. But we may be about to witness these things in the coming days or months.

Regarding the river, the river that I saw in the dream was brown, murky and not moving but it was rising.

In many places in scripture, the Holy Spirit is described as the river of Living Water. The church needs this living water for life. In my vision there was no life in the river. I believe that the rising river represented today’s apostate church and its spiritually dead condition.

Today’s Apostate church no longer has the life of God’s Spirit. But in spite of its dead condition it is still growing. The mega churches are full of dead carcasses.

Today’s mega-churches have dead preachers, giving dead sermons, to dead people.

There are no cries for repentance from today’s ministers.

And I find it amazing, that even in the midst of today’s financial meltdown...still they do not repent!

Brethren, because of the compassion of God, his servants are still crying out this message of warning.

I have been hoping that we still have more time before the final chapters of Revelation begin. But lately, it seems that world events are on the fast track to the New World Order and a new money system.

The hour is late my friends and it may even be later that we think!

Again, I would challenge everyone reading this that the time is NOW to get your spiritual houses in order.

#### **Updated 1-08-10**

Regarding the three humps. I have said that the three humps mean three coming events.

But recently (last two weeks) a thought occurred to me: what if that interpretation of the humps is wrong.

What if the three humps actually mean three years to the NWO arrival!

If this is true,... then three years from the time of the dream Oct. 8, 2008 gets us to Oct. 8, 2011

I recently posted this thought in the forum. And someone brought this to mind.

The date of my dream occurred on Oct. 8, 2008.

What else happened on this date? Oct. 8, 2008 was Yom Kippur!

Also three years from that date is Oct. 8, 2011 which is also Yom Kippur!

What does this mean? At this moment I am still seeking the Lord about this.

## Police State Coming and New World Order Rising?

**By Nathan Leal - October 29, 2008**

### **Dream Begins:**

I was in my van driving along a road with my wife.

We began to cross a two lane bridge. (One lane each direction) The bridge was about a mile long.

As we entered the bridge, instantly there appeared on my lane of traffic about 100 to 200 policemen (it was a lot) in a long row that followed the bridge.

They were along the entire bridge spaced apart only about 5 - 10 feet.

They were dressed in black Riot gear. The black vests, the padded suit, helmet with goggles, etc.

In their hands, they all had a shovel. Each of them was sprinkling a pile of wet asphalt in their small area where they were standing. Their little piles were about 2 to 3 feet wide and a few inches tall.

My wife suddenly screamed to me that I just passed the speed limit sign that said 19.

I tried to slow down but the van would not slow down to 19. I was maybe traveling about 25 to 30.

As I passed each policeman, they would look up at me but they kept pouring the asphalt.

I finally got to the end of the mile long bridge. At the end was a lady cop, waving and pointing at me to pull over. Right past her on the right was a temporary shack that the police had set up with a turn out.

I turned out and stopped at the shack and walked up to the window.

The lady cop in the window looked at my car and then her computer printed out a photo snapshot of the front of my car to show that I had been speeding.

I thought that my ticket was going to be real high and then the lady said, "That will be 21!"

"Twenty-one," I thought! So I looked in my wallet and took out some money, my wife also took money out of her purse.

We paid the lady twenty-one (21)

The weird thing was that I never heard, "Twenty-one dollars" just twenty-one.

So in conclusion, 19 and 21 were two numbers in this dream. I don't know what this means. But even right now, this dream is very vivid in my memory.

**Interpretation:** This dream has many elements in it. I have been pondering and praying about this one. At the moment I do not have all of the meaning for this dream, but here are a few things that others have suggested from my forum: [Read](#)

1.  $19 + 21 = 1921$ : This is the year that many Communist and Fascist governments started in the world.
2. The date of the 19th or the 21st may have an event coming.
3. The bridge to the coming police state is under construction. We are in transition.
4. Construction for the new world order is happening before our eyes.

**Update - December 19, 2008:** In order for the North American Union and Police State to be born and be viable, it needs a "literal" infrastructure to be built. An infrastructure of a road network. This is necessary for the transfer of military equipment and the relocation of people.

Obama has recently announced that he will save the economy with a road building works program.

Is this what the dream meant? Will Obama be the catalyst to bring the NAU to fruition? Time will tell.

## "A Prophetic Dream with a Date?"

By Nathan Leal - January 15, 2009 (posted April 20, 2009)

I had this dream several months ago about January 15, 2009.

Dream begins:

I was watching the weatherman on the TV news.

He said, " okay, folks, here is what is happening..."

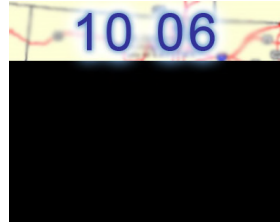

Immediately, a map of the state of Colorado appeared on the TV screen.

Within one second most of the state got covered up by a black shape. It was like someone placed a big piece of black paper over most of the map. The only part still exposed was the northern part from about Loveland - north. Loveland is about 10 miles south of Fort Collins.

Within another second, the map got a little blurry and the numbers: 10 06 appeared over my city.

The dream was over.

At this point, I do not know what this dream means.

I do not know if it is a date. And if it is, is it Oct.6 or is it June 10!! Or something else?

Also for the record, if this is a future event, Northcomm is located in Colorado Springs. This is Homeland Security's command center for the new domestic army.

## Liberty Will Be Decapitated!

By Nathan Leal – Feb. 2, 2009

Greetings Brethren,

Over the last several days, I have had a burden that is increasing in my spirit. When I go to pray, the burden turns into travailing.

Last night as I was seeking God, for a moment in the spirit, He allowed me to taste of what is coming to our land. The only thing that I can describe is severe anguish and heartache.

As I continued in prayer and waiting on Him for answers, He revealed to me that sorrow and distress approaching America. When I asked Him for details, all that He would tell me was that

His remnant needs to prepare to minister to one another and to comfort one another. *The distress that is coming is going to test all of us in ways that we never imagined.*

As I went to sleep I had a night vision.

### Dream Begins:

I found myself standing in a large field and suddenly the Statue of Liberty appeared in front of me. She was on a small hill maybe 50 to 75 feet high. She

was not on Ellis Island. She was about 500 feet away from me. I looked at her, when suddenly her head fell off. It fell to the ground in front of her and bounced down the hill toward me. It stopped at my feet.

The dream was over. I woke up and pondered it. I asked myself what could this mean? I wondered, "Does this mean America will be decapitated?"

I fell back to sleep. I had the same dream again. Everything repeated itself like the first dream but this time, I saw a giant hand coming out of the clouds with a large sword. The sword was almost as tall as the statue. It was the hand of God. The hand reared back the sword and sliced it across the neck of the Statue. Thus, chopping off the head!

Once again the head fell forward and hit the ground in front of her body. It bounced down the hill and stopped at my feet.

Then I heard the words, "*Liberty will be decapitated!*"

The second dream was over.

Brethren, I do not know what could cause such an event. And I do not know when it will happen. But the Spirit of God is leading me to share this with all of you.

*The number one thing that must be stressed is that the NWO will NOT be stopped. This is the plan of God. I know that there are well meaning people out there that think that a revolt can prevent it. Brethren, the NWO is unfortunately, in the plan of God. It will be used as a vessel of dishonor to purge the bride of Christ. These things must be*

Many people do not realize the amount of sorrow and anguish and tears that are coming. When it arrives, the distress will be so burdensome that many people will feel abandoned and alone, and worse, they may not be able to endure.

I cannot stress how important it is that we all began to seek God

in a way that we have never done before. Many people call themselves Christians and even part of the remnant, but their prayer life is very lacking.

In the days ahead, our source of strength will only be from our relationship with Jesus. Please brethren, began to strengthen your relationship **NOW!**

I believe that the Lord is trying to warn us that a shift in events is around the corner. And in His compassion, He is giving us time to get stronger before these things arrive.

Please do what you need to do to prepare for this.

### **Statue of Liberty Drunk?**

**By Nathan Leal - February 26, 2009**

This vision occurred last Thursday night on Feb. 26, 2009 as I slept.

It happened between Thursday night and Friday morning. I did not know if I should post it because I already have had a liberty dream. But anyway here it is:

I had another vision of the lady.

This time it was different.

I saw her from the waste up. She had a white cup in her right

hand. She was not holding the torch.

She took a sip of the cup and was very wobbly and visibly drunk. Whatever was in the cup was making her drunk!

My wife appeared to me in the dream and said the words: **"P" died today!!** I have no idea what this means.

I also do not know why liberty was drunk!

Nathan

I have no idea what that meant.

### **There SHALL be Drought in the Land!**

**A Word of Fallow Ground Judgment!**

**By Nathan Leal - March 18, 2009**

Behold, men's hearts have not followed Him. Men's hearts have not feared Him.

They are parched in the wasteland of their idols and deception.

Neither do they thirst for Him, the River of Life.

Neither do they desire to bathe by the brook of His cleansing fountain.

The soil of their hearts is dry and fallow.

And still, the holy messengers cry out, "Come to the river and drink!

But the people would not have it!

For they desired their own cup. The drink of their toils. Their sip of the earth.

Therefore, their land shall become a desert. Their plantings shall dry up as dust. Their land shall be sick. It shall harvest death. Their visitation shall be a drought from above.

The sun shall give her portion and their cattle shall starve to flesh and bone.

They rejected Him, the Champion of their soul, therefore their champions of the land, their herds shall be destroyed.

Until their cries come to heaven, it shall be done.

Until the people turn back, it shall be done.

Their herds shall groan because the sleeping ones do not cry out to heaven.

Where are those that seek? Where are those that thirst?

Where are the voices and the cries of His people? Behold, they are in the place of His shelter.

But the others shall have no remedy.

### A note about this word.

Brethren, I have been seeking God about this matter over the last several months. I have been asking Him if He has been judging the land with drought already.

Last night He answered me with this word, that it is indeed already underway in parts of the country. And it is going to get worse....VERY MUCH WORSE!!

Cattle will be butchered to save ranches. This will cause an influx of beef but after the glut in the market, there will be no cattle left. This will affect the prices of meat in the future.

Please do what you need to do now to prepare for this situation.

These events are not global warming or coincidence or cycles, they are the judgment of God!

## America's Coming Super Depression - A Warning to America and to the World!

By Nathan Leal - November 29, 2009

Hello friends, over the last several months I have been wrestling with a prophetic warning that I received from God. In this letter, I am going to share these things with you.

This warning from God is not one to be taken lightly. Based on its contents, every one that is reading this prophetic alert needs to prepare themselves and their families for very hard events that are approaching. The warning of God always begins with a trumpet sound. And by the leading of the Holy Spirit, I am sounding an alarm.

A very loud alarm!

If you reside within the borders of the United States, what is coming, concerns you and your family. If you reside outside of the borders, you will also feel the residual effects of what is coming. So likewise, take notice!

A quick summary of this warning includes the following: In our future, America is going to face the incredible torrent of a Dollar crisis. How bad will it be? Bad enough to forever change the landscape of the United States! What is coming will not be a mere correction in the markets, but instead, will be at the level of *currency extinction*!

### The Super Depression

It is not easy to share these things. But as Americans, we are all facing a tsunami of economic destruction! The US Dollar is going to collapse! As a result, life in America is going to change. The once strong middle class of the USA is going to be slaughtered and replaced with a new type of lifestyle. The rest of the world calls this lifestyle; *Third world living*!

The historians that chronicle the approaching crisis in America will have to fumble to find the right words; **The Greatest Depression - The Dark Years of America - The Super Depression, etc.**

America, the once mighty fortress of commerce and strength has lost her luster to the world. And in the next few years, this will become very evident to her apathetic citizens.

When the financial super storm arrives, the administration will no

longer be able to lie to the public and say, "**All is well and recovery has begun!**"

It will be difficult for the media, to successfully tell the general public that *things are okay*, when the people are starving and eating out of garbage dumpsters!

### A Prophetic Dream - The Dollar's Demise

In a recent [Audio](#), released October 16, 2009, I shared this warning including some prophetic dreams that revealed the details of what is coming. I would like to share those things again in this message that you are now reading.

It all started, approximately 7 months ago, in early 2009. Back then, I had a prophetic dream that I kept to myself because I did not understand it. I consulted other Christians about it. But they did not understand it either. Some of them said that the dream could not be correct because the timing of it did not match popular predictions.

The dream was very short but this is what occurred;

#### The Dream begins:

I was speaking to a financial expert who told me that in Mid-August of 2010, wheels would be put into motion to abandon the US dollar and after this happened, everything was going to *change*!

End of dream.

For seven months, I wondered about this dream. One of the main reasons, was because many people were saying that in the fall of 2009, the dollar would crash. So, I kept the dream to myself because it went against the popular warnings that many of you had read during the spring and summer of 2009.

But still, I kept praying and seeking God about it. And finally, God answered my prayers. Approximately August 15, 2009, I had another prophetic dream.

#### Second Dream begins:

In this dream, I found myself at a shopping mall. I was hungry,

so I decided to go to the food court to eat. When I arrived there, all of the food court restaurants were closed and out of business except for one. It had a sign; it was called "School Cafeteria."

Many people were in line to eat at this School Cafeteria Restaurant. I remember saying to myself, "Well this will be good. School food is cheap!" I assumed that the meal would be about two dollars!

The restaurant did resemble a school cafeteria. The ladies serving the food were school cafeteria workers. As I ordered my food, there was only one choice for a meal. It was a slab of processed chicken with some mashed potatoes and a few green beans. I took the plate of food to the cashier. Then she said, "That will be \$30!"

"Thirty dollars!" I protested!

"I'm not going to pay that!" I said!

I left the food and walked away. I exited the shopping mall and decided to go eat somewhere else. As I left the mall, a restaurant appeared in front of me. It was a Chinese restaurant. I walked toward it. There was a waiter standing outside of the restaurant showing everybody his menu. The waiter was Chinese.

I walked up to him and said, "I just want coffee. How much is a plain cup of coffee?"

The Chinese waiter smiled and pointed to his menu. As I looked at the menu it read, "Coffee - \$10."

Again, I was shocked and angry that it cost so much money. So I walked away.

The dream was over.

When I had this dream, I did not realize that it was a confirmation to my earlier dollar dream several months previous. So again, I kept it to myself. Then I had a third and final dream just several weeks ago at the beginning of October, 2009. But this dream helped me to finally understand what God was *trying to say*.

### **The third dream begins:**

Again, in the dream I was hungry, but this time, I was in the cafeteria of an actual school! I am not sure if it was a middle school or a high school.

As I got in the line to get some food, I asked the cashier if they were still open. She said, "Yes but in order to get a special price, you need to have five people in your group."

I noticed that all of the other people in line were adults. In fact, I did not see any children. The adults all looked like they had been working the whole day. I noticed a prostitute in the line and also a construction worker who was dirty. The prostitute looked dirty and middle aged.

I asked the cashier, "What is the special?"

She said, "Well, it is Thanksgiving dinner!"

I asked her, "How much is the dinner?"

She said, "It is five meals for ninety-nine dollars!"

I shouted, "Five for ninety-nine dollars! That is twenty dollars each!"

She said, "Yes! And if you want it for this price, you need five people in your group!"

Again, I protested.

The dream was over!

After I had the third dream, I began to realize that these three dreams actually went together. So, I began seeking God over many days and hours of prayer.

And finally God answered! This is the message that God revealed through the Holy Spirit (Note - I was told the following by the Holy Spirit approximately October 14, 2009)

He said:

*"In the days ahead, a secret meeting is going to take place somewhere in the world. The participants of this meeting will decide that they are going to abandon the US dollar. And the target date that they would decide to begin abandoning the dollar would be what you heard in the first dream, Mid-August of 2010!"*

The date or the location of the meeting was not revealed to me.

I also need to be very clear; my prophetic dream did not say that in Mid-August of 2010 the dollar would collapse. What it did say, was that in Mid-August of 2010, the wheels would be put into motion to begin abandoning the dollar. After that, everything was going to change!

### **Everything will Change!**

I find it interesting that in the dream, I heard the word "**Change!**" That was the moniker of the Obama administration: **Change!**

I believe that the "**Change**" that is coming is going to be very, very unpleasant and will result in a much different existence than what Americans are used to! I wonder if this coming "**change**" was part of their plan all along?

For the record, I do not know how long it will take for this "change" to work itself through the financial history of America.

I do not know if it will take one year, five years or 10 years.

God only revealed that in August of 2010 wheels would be put into motion.

Also, when these wheels are put into motion, I do not know if they will be announced to the news media. It is entirely possible that all of these events are going to take place behind the scenes. Therefore, it may be difficult to track them. God did not tell me if this news would be made public.

At the time of this writing, late November, 2009, it is possible that the meeting to abandon the dollar has already taken place. Or, it may still be coming. I do not know! (I am handicapped by limited prophetic information.)

Nevertheless, the remaining months of the dollar's health are sure to be bumpy as the dollar spirals downward.

Some things that I have wondered about are:

1. Will the US dollar lose much of its value before the wheels are "placed in motion" for abandonment in August of 2010?
2. Will the dollar's future performance be so horrible, that it will cause this decision to be made?
3. Was the Thanksgiving dinner that was being served in my third dream a clue to the timing of when these things will happen? Again, I don't know!

But the conclusion about this prophetic warning is this; the US Dollar's days are numbered!

### **Expensive Food**

During the coming super depression, one of the sources of food will be provided by government soup kitchens. Hence the school cafeteria feeding adults!

Another big player in the coming Dollar collapse will be China. That is why a Chinese restaurant was in my dream. So besides soup kitchens, another food source will be the smiling Chinese! But getting food from China will come with a hefty price! A price that many Americans will either be unwilling or unable to pay! Why? Because in the future, as the dollar loses its value and also its reserve currency status, things in America are going to become very, very expensive!

How expensive is it going to be? Were the prices of the meals in my dream an indicator of what is coming? Those meals saw increases of 500 to 1000%!

As I continued seeking God, I asked Him, "How bad is it going to be?"

And it was through several more hours of prayer and travailing that I actually saw the picture of what is coming to America. And what I heard was very, very disturbing!

### **Lamentations is Coming to America!**

Sharing these things is not easy because I do not know if I can justifiably describe the intense horror that lies ahead in our future.

As I was seeking God, the Holy Spirit whispered to me, "*Lamentations is coming to America!*"

When I pressed for an explanation, I was told that the things that are written in the Old Testament book of Lamentations would happen in America's future. The Holy Spirit told me to read the book of Lamentations. Also, He said when you see the word *Jerusalem* in Lamentations, substitute the word *America* as you read it! Not to rewrite the Scriptures, but instead to get a picture of how things are going to look in our future.

So I did! And I was overwhelmed with what I read.

When the prophet Jeremiah wrote the book of Lamentations, it became his diary of what he saw when Jerusalem was invaded.

As he wrote his report, he was overwhelmed with tears, heart ache, grief and sorrow! (Lamentations 1:16)

His words painted a picture of something that is only witnessed in nightmares!

He saw people that he knew and loved starving to death in the streets! (Lamentations 2:11)

He witnessed the death of children that just a few years earlier he held in his arms as swaddling babies! (Lamentations 2:22)

He witnessed the ear piercing screams of mothers holding their dying children who pined away from hunger! (Lamentations 2:12)

He saw the young men of the town who had been pierced through by the invaders! (Lamentations 2:21)

He witnessed an economy that was destroyed with failed money! Only people willing to trade their valuables were able to get bread! (Lamentations 1:11)

He saw all the wealth of the city looted by foreigners. (Lamentations 5:2)

He saw people who were once rich, reduced to begging in the streets! (Lamentations 3:17)

As Jeremiah witness all of these things, his strength and his health failed him. It was too much for him to bear! He tells us in Lamentations that the things he saw made his digestion system fail!" (Lamentations 2:11)

Lamentations, five chapters describing the judgment of God! And soon, these same events will visit the land of America!

From coast to coast, the fall of America's economy will be evident. Restaurants, stores, and shopping malls will become abandoned "see-through" buildings with broken windows and in disrepair. People who once stood in line for concert tickets will instead be standing in line for food!

## The Cup of Iniquity!

Why? Because America's cup of iniquity is full! God is holding the cup in His hand.... **and it is boiling!**

The voices of God's messengers have been warning for years that America needs to repent! But instead, America went the other way. In her arrogance, she has boasted that she does not need God or His commandments. And now America's leader has proclaimed that she is not a Christian nation!

Her judges have proclaimed that freedom to "do what thou wilt" is nobler than "Thine will be done!"

America is guilty! The blood of her innocent ones flows through

her sewers. They cry out from the ground and also from her cosmetics, facial creams, and vaccines! America has committed crimes against the laws of her forgotten God and also, against humanity!

And now it has been determined that she must pay!

Therefore, coming soon to America, the things written by Jeremiah in Lamentations! So my friends, do yourself a favor and read it!

Can it be stopped? It is already arriving!

The hardship that is coming to America is not a typical business cycle. It is going to be the largest **financial reboot** in the history of humanity! The United States dollar is going to lose its reserve currency status in the world.

When this happens, the citizens of America will learn the real meaning of poverty, a lifestyle that half of the world's population has already been experiencing for many years.

## Bitter or Better

The events that are coming are going to be bitter-sweet to the population. Some people will not be able to handle it, and they will fail in the future journey. Many will fall by the wayside through defeat or through self-destruction. The emotional heart ache and stress that the future is going to bring will be too much for some individuals. Spiritual endurance will be the key to survival!

What is coming is not a curse. It is a chastisement. And yes, it will also be painful!

Very painful!

But through the coming events of hardship, many of God's people are going to discover the true providence of God. Many in his remnant are also going to discover and realize that the best things in life are not things! Many people will actually discover their faith in God. They will realize that the path that lies ahead will be

an opportunity to minister to the weak as they themselves are also being purged.

The time to prepare for all of these things is now, my friends! The spiritual bank account needs to have some deposits...NOW!

Your bank account of prayer needs to have some deposits ....NOW!

Your knowledge of the Word of God needs to increase...NOW!

If by chance you are reading this and you happen to be famous or wealthy. Perhaps you're a celebrity in your field and have a lot of self-confidence. Please know this; the storm that is coming is not going to play favorites.

The only thing that will save you or any of us is humble repentance to the Lord God, your Creator! Jesus Christ!

So how do we prepare ourselves for what is approaching?

## Get Ready!

Step one - get your spiritual house in order. The only ones that will be able to weather what's coming will be those that have surrendered their lives to God in repentance and in humble favor in His sight.

I am not just talking about first-time believers! I am talking about everybody! We must all repent! The majority of people who call themselves Christians today are living an unfortunate two-faced lie; where they have a life that is full of closet sins. In the future, having these dark secrets will not work in one's favor to be protected by God.

I must also mention that this is an "equal family opportunity." Entire families under the same roof should be challenged to repent! So, Moms and Dads! Please have a meeting with your children and tell them what is coming! And then, either pray with them or start praying for them!!

After a session of repentance, begin preparing with practical means. The window of opportunity to prepare is closing before our very eyes. Start now by saving extra food because it's going to get very, very expensive!

If possible, pay off your car or buy a cheaper car that is free and clear. If job loss is in your future, you do not want to be worrying about a car payment.

If you have a savings or retirement fund, take the time to educate yourself on **preserving your wealth**. Notice, I did not say increasing your wealth! I said preserve your wealth! Why is that? Because when the dollar starts losing its value, people who have their money in savings accounts will see the buying power of their dollars diminish.

Hedge the value of your money now, by converting it to gold or silver bullion or other currency. You may need to get advice from

individuals who not only are qualified but who also understand that the dollar is going to crash. Please do not choose generic financial advisors who have no knowledge of what is coming. They will steer you wrong!

Educate yourself now on the science of preparation. Research this

topic on the Internet, read Christian forums. But by all means, get started now if you have not already.

There is much work to be done!

Find the mercy of God my friends. Do it now!

## **The Great City will Burn! A Coming Woe of Destruction**

**By Nathan Leal - June 16, 2010**

Brethren,

Yesterday on June 15, 2010, I was in a very long prayer session where I was seeking God over matters of the oil spill. I was asking about more details of the spill when He answered with other things; things that I did not expect!

And it was then, that the Holy Spirit gave me a very grim warning of future things to come. After He was finished, He told me to publish it.

It is written below.

According to this prophetic warning, in the future a city is going to be destroyed! I do not know the name of the city or when this will happen.

But when it does, I fear that it will destroy the last remaining remnants of America! Please also read the interpretive notes below. - Nathan

### **The Burden of the Great City - A Coming Woe of Destruction A Prophetic Word**

*Nathan Leal - June 15, 2010*

A fearsome woe is upon the land!  
His hand of judgment moves over the waters.  
The cup is full of mixture, mired with the deeds of man.

Behold, the cup is poured out! There is more to consider.

For in that day, before the eyes of the people, there shall be grief and sorrow.  
The carcasses of many shall be strewn upon the sands of polluted waters.

The hearts of many will fail in disbelief.  
Their eyes shall behold a horror!  
They will be stricken with sadness.  
They shall be in want of a better day.

Death will strike down the heart of the proud.

Prepare for a great woe.  
A mighty wind will descend from the sky.  
The clouds will dissolve before their eyes.

Anguish shall be upon the land.  
It shall be with strength and fervor.  
And none shall be at rest.

A burden shall arrive at the great city; a shaking will rock the ground.

The ferries and the ships shall reel to and fro.  
There will be shipwreck. The cargo will release and be lost.

Burning clouds shall cover the face of the land.  
They shall gasp as they behold the darkness; overshadowed with blackened smoke.

The dead shall be sifted from the living.  
The breadth of destruction shall be mighty and wide.

The great city shall melt like burning pitch and give birth to many fires.

A banner will proclaim this tale.  
A banner lifted high with no celebration or comfort.  
A banner shall replace their wants with soulful mourning.  
A banner without a victory: a banner proclaiming defeat!

The city shall be poisoned!  
Woe to this city, for great pain has arrived!  
Who will watch and who will be among the fallen?

The storm has begun.  
The winds shall arrive.  
The conquest approaches.

The great nation will fall to the ground.  
There shall be a great spoil.

The eve of destruction has passed.  
Her appointment is at hand.

Only a remnant shall endure.  
Only those that seek His face shall find comfort and mercy.

--- End of Prophecy ---

*Nathan Leal - June 15, 2010*

My thoughts:

As you can see, the prophetic words above illustrate that an event of catastrophic proportions is approaching. I believe that this event will occur in America.  
A clue to the location is that it is a coastal city. This is based on the residual damage reaching "*ferries and cargo ships.*"

I do not know if this will be a terrorist attack or through war. I also do not know if it will be caused by something else like natural forces or an accident!

According to this warning, there are going to be mass casualties. This means many people will die when it occurs!

I also believe that when this event happens, it is going to change everything! Life as we know will be a thing of the past.

The powers that be are hoping for a New World Order. A catastrophe of this magnitude would be used as their "Pearl

Harbor" event to bring their New World Order into fruition. This explains the words that say: *The conquest approaches!*

Indeed my friends, the conquest of America is approaching!

Please take this warning to prayer and get your house in order.

Please share this warning with others.

## Vision of Terrorist Attack in Seattle, Washington...with explosion in downtown Seattle

January 30, 2014

Dream Begins;

I was in a downtown area of an unknown large city. I saw a newspaper vending machine that sold the USA Today newspaper.

I decided to purchase a copy. I did so and held the paper in my hand.

One the lead stories was about Seattle, Washington. It had a full page photograph of the City of Seattle.

was a celebration of some sort.

As I was looking at the photograph, the photo turned into a movie. It was like I was watching a TV screen in the newspaper. The fireworks became live images of motion with sound. I could hear the loud boom of the fireworks. I watched many of them go off over the skyline of Seattle.

As I watched the display, there was sudden explosion. One of the buildings erupted into a ball of fire, smoke, ash and debris.

The plume rose as high as the tallest downtown building in the photograph. It looked similar to the explosion that we saw on 911 on the World Trade Towers. I am not sure if the building collapsed.

By Nathan Leal – October 12, 2010 (posted Feb. 2, 2014)

I had a dream about a terrorist attack on the City of Seattle. This dream occurred on the night of October 12, 2010. I have shared this dream on several radio programs including mine and also on Hagmann & Hagmann on

After the explosion, my vantage point changed to the sky where I was looking down on the damage. There was debris and ash scattered throughout the downtown area. There were also many crushed cars with ash all over them. I do not know when this event will occur. I also do not know the cause for the celebration. What I do know is that fireworks were involved and the explosion was unexpected.

I often wondered if the celebration was because of a holiday or some other event.

Conclusion – I do not know! Again, I had this dream over three years ago.

Several things about this event, the explosion that I saw did not flatten the entire downtown area. The damage seemed contained to one building. Therefore, I do not know the type of device that was used.

For those who might live in the Seattle area, it did not appear to be a nuke that went off. Not this time, at least. It appeared to be more of a conventional explosion.

I decided to once again share this dream because as most of you know, the Seahawks won the 2014 Superbowl and are now a Championship Team.

Their string of championship victories may now extend several years into the future. And being that they are now a higher caliber team, the possibility for future victories is now a reality.

For the record, I do not know when this event will happen. I am also am not saying that this event will be associated with their recent Superbowl victory. An event like this could occur after another championship victory in the future or be related to something else. The one thing that I do know is that it happened during a city celebration of some kind where fireworks were involved.

I want to encourage all of God's people to be praying for His covering and His protection, because as time progresses, we are going to be seeing these type of things take place in many places around the country.

If there are intercessors out there that can pray against this, I would like to encourage that you hold Seattle in your prayers. If this prophetic dream was a warning that an event like this can be

stopped, then we need to be praying that God would stop it from happening.

Perhaps He will be merciful.

May God bless you, protect you and keep you under His wing.

In His service, Nathan Leal

## **The Eagle and the Fox! *A Prophetic Dream***

**By Nathan Leal – October, 2010** (posted January 20, 2012)

**WARNING!** – American Pensions will be taken by the US Government!

(Date of Dream approx. Oct. 2010) I feel a strong need to publish this warning now.

In this dream, I was standing outside of my house. Suddenly a large bird flew into the chicken yard outside of our chicken coop and landed.

I was not close enough to tell what kind of bird that it was. At first, I thought that it was a turkey. So I walked towards it to get a better view. As I got closer, I could see that it was not a turkey, but it was a bald eagle.

This bald eagle was not healthy looking. It looked weak, skinny and was limping. It also looked VERY hungry.

The eagle limped towards the nesting boxes where our chickens lay their eggs. The nesting boxes were on the ground in this dream. This is a little odd because in reality our nesting boxes are not on the ground. (They are about three feet off of the ground.)

As the eagle arrived at the nesting boxes, it fell forward onto its stomach. While lying on the ground, it began to change color. It changed into an orange / brown colored eagle. Before my eyes, it turned into a golden eagle.

It then tried to crawl into the nesting box but it was too large. So it began to reach into the boxes with its wings. I noticed that its wings had sharp tips like a bat wing. With its wing, it broke the eggs inside of the box.

But it did not stop there, it dipped its wings into the egg yolk and licked the yoke off of its wing while it laid on the ground. It did this until it ate all of the eggs in the nesting boxes. After it was finished, it began to stand up.

When it stood up, its weak appearance was gone. It had become strong. Its back was towards me, but then it turned its head around and looked at me.

To my surprise, the eagle's head had turned into the head of a red fox. (Still on an eagle's body.) The fox was smiling with a suspicious looking grin. It was a grin that said, "I won!" The dream was over.

### **Interpretation**

I believe that much of this dream speaks for itself. The bald eagle represents the USA. Right now it is growing weak. Eventually, the US government will be so weak that it will eat the nest eggs

of the people. The "nest eggs" are the retirement and pension funds of American citizens.

**Conclusion:** I believe that eventually, your hard earned retirement fund is going to be taken away from you **WITHOUT YOUR PERMISSION!!**

The USA is also going to go through a metamorphosis. A political "shape shift" into a different kind of government. An oppressive government. A deceptive and tyrannical government.

This was why the bald eagle turned into a golden eagle.

It appears that the US Government has begun to morph! These changes may be taking place behind the scenes right now! And these changes appear to be similar to the changes that the people of 1930's Germany witnessed.....**BUT IGNORED!!!**

Likewise, most of the American public does not seem to have a clue. They are occupied and in a slumber.

As the change progresses, the American people will be lied to and eventually robbed of their pensions. Will the government give a reason when it happens? Maybe... Maybe not!

Perhaps Americans will be told that it is for a very good reason. Perhaps they will be offered the promise of future care or even a promise to be "paid back."

It could play out in a variety of ways but it will be with deception.

### **Be Vigilant!**

Folks, time is growing short. The US government is growing weaker as we speak. I believe that this robbery is in the making.

### **What Should You Do?**

If you have a pension or retirement fund, please seek God in prayer about what you need to do. There are options available.

Seek Godly council about the possibility of making changes with your retirement fund.

Maybe even taking the penalty and withdrawing your funds. And then hedging or preserving your funds in another venue; perhaps several diversified venues. But make the changes so that YOUR pension is outside the reach of the FOX guarding the hen house.

There are other options. And of course, other options also have risks. If you decide to convert some of your retirement funds to precious metals, please get counsel. If you do decide to invest in Precious Metals, i.e. – gold or silver. Be sure that they are physical precious metals in your possession and NOT paper precious metal investments or ETF's!

Having Precious Metals in your possession will require having a

wise place to store it. Also, make sure that the possession and storage is within your stewardship or control. Do not, place PM's in a safety deposit box. Banks can lock their doors denying you access or The FOX can have access to the boxes. Get council. Do research.

I know that this is a drastic thing to do but the coming future is going to include days where hard decisions will have to be made by the wise and vigilant people of God.

## **America's New Pearl Harbor – A Prophetic Warning**

**By Nathan Leal – August 4, 2011** (posted August 16, 2011)

**Please Note – I do not have a date for this prophetic dream! It could be months ahead or years ahead!**

I had this prophetic dream on the night of August 4, 2011.

As it began, I was standing in front of a bookshelf filled with many books. I reached for a book on one of the shelves and I pulled it out. I do not know why I chose this particular book but the title of the book began with the word, "Nuclear."

It had more words in the title but I do not remember them.

I randomly opened the book to thumb through it. As soon as the book it was opened, I was immediately transported to a different location.

I was suddenly high in the air, looking down on all of the Hawaiian Islands. I could see the Northwest Island of Kauai as well as the Southeast Big Island of Hawaii.

Within seconds, I saw a missile flying towards Hawaii. It was coming from my left or from the west which would be from the direction of Asia. It approached from very high in the sky and left a vapor trail behind it.

As it got nearer to Hawaii, it began to arch down and aim straight towards Honolulu. Honolulu is on the Island of Oahu. As it approached Honolulu, the word "Honolulu" appeared over the city of Honolulu in black letters.

The missile then exploded over Oahu, into a circular flash of white heat. The fireball totally covered the Island of Oahu and reached as far as Maui, to the south east.

Of the four largest Hawaiian Islands, the explosion flash covered Oahu and Maui.

Within a few seconds of the explosion, the number "1,100,000" appeared over the flash of light. The numerals were glowing yellow / orange in color.

I immediately knew that this number represented people.

While I was still viewing this vision, I argued with the number, because I thought that Hawaii did not have this many people. I began to say to myself, "Hawaii only has 600,000 to 800,000 people! This number cannot be correct! "

Suddenly, I was transported to a new location, where I was again in the air. This time I was looking down on the State of Washington. Again, I saw another missile coming from the West.

Brethren, I believe that this warning is from the Holy Spirit.

Again, please make this a matter serious prayer. Maybe even fasting to get God's direction.

I do not know exactly when this will happen. It could be soon or take longer, but please do not wait too long!

In His Service, Nathan Leal

It crossed most of Washington, and then headed straight towards Spokane.

As I saw it approach Spokane, I found myself arguing with the vision. I said, "I do not like this!" I said this because I live near Spokane in the state of Idaho.

I worried that there was going to be another flash of light from a nuclear explosion. But it never came.

In this vision, I was so bothered about the missile dropping on Spokane that I wanted to see the extent of the damage.

Suddenly, I was on a hilltop along the border of Idaho and Washington about 20 miles away from Spokane; my direction faced west towards Spokane.

As I looked, I searched for a mushroom cloud. I was not able to see one because my view was obscured by a different thick cloud that was hovering over the city.

This cloud was not a normal cloud; it almost resembled the dust storm clouds that we have seen in desert sand storms, where you see a wall of dust trapped inside of a moving wind.

But this was not a dust storm and the cloud was not moving at all. It just hovered.

The cloud resembled the texture that you would see in a thunder storm. The odd thing about this cloud was it was almost touching the ground and it rose to about 30,000 to 50,000 feet, the height that I have seen thunderstorms rise to.

The other odd thing about this cloud was that it was orange / gray in color. There were flashes of ball lightning within the cloud. The lightning continued to sporadically flash.

I kept wishing that this cloud would dissipate or move out of the way so that I could look into the city for damage but the cloud blocked my view.

But I did not quit looking, I continued searching for a mushroom cloud and as I continued to examine the city from afar, the bottom of the cloud began to rise a few hundred feet from the ground. This allowed me to see some of the buildings and the city seemed to be intact.

There did not appear to be structural damage from my vantage point. But I was limited in what I could see.

I was left wondering if the missile was a "dud" that failed to explode or if the missile payload was something other than a

nuclear bomb. I wondered if it was an EMP. I did not know what it was.

The dream was over.

Nathan Leal – August 16, 2011

## **"I Saw an American City Attacked! – Destruction from the Sky!"** *A Prophetic Dream*

**By Nathan Leal – February 19, 2013** (posted March 8, 2013)

In the beginning of 2013, I sought God about the matters at hand. I had been asking Him to show me the things to come.

On the night of February 19, 2013, the Lord answered my prayer and gave me a glimpse of things to come through a prophetic dream. After praying about it and seeking Him, He has given me the clearance to share it so that I can warn the people. *(Note - The Timing of the Following Dream is Unknown.)*

### **Dream Begins:**

I was in a building looking out of a window with other people that I did not know. When the dream first began, I did not know where I was. But as the dream progressed, images began to appear before me.

The sky became filled with very dark clouds of the evening. The clouds resembled those of an impending thunderstorm. They were dark and very thick. From time to time, lightning flashed within them.

Cascade Mountains east of Seattle.

After a few moments, the skyline of Seattle, Washington appeared before me. I could see all of the downtown buildings of the city and beyond. I also noticed that I was at a high vantage point. I was at a location in the foothills of the

This meant that I was looking west towards Seattle and the Pacific Ocean. I could see all of the downtown area, as well as the landscape to the south and the north. I could also see the waters of Puget Sound located beyond downtown Seattle.

Unexpectedly, chaos erupted! The sky became darker.

From the south of downtown, I saw a glowing fireball coming out of the sky. It approached at an angle in slow motion.

I could see that it was not aiming towards the downtown area, but was headed beyond the location south of downtown and across the waters of Puget Sound.

Suddenly, missiles from the ground began to launch towards the approaching threat. I saw five to six missiles go into the sky towards the attacking fireball.

As I watched them launch, I was not sure what kind of missiles they were but I wondered to myself "Patriot Missiles?" As they launched, the missiles also traveled in slow motion. But unfortunately, they missed and flew past the target! I remembered thinking, "Oh no! They missed!"

In the continuing chaos, a craft flew past me and also went towards the falling threat. The flying craft looked like some sort of drone or odd looking missile. It had narrow wings and was white and blue.

Suddenly, to the north of the downtown buildings, an explosion occurred in the sky. The blast was very high. It seemed to explode across the waters of the Puget Sound.

It appeared to occur several miles away from the city center. It did not explode into a mushroom cloud. Instead it exploded into a ball that became very bright and large. The ball remained a sphere as it expanded.

The explosion was so bright that I had to duck and look away.

After a moment of waiting, I again looked out of the window and saw the flash dissipating. As it started fading I said, "That was an EMP!"

I was wondering when the blast would reach me but it never did. I guess that as an observer in the dream. I was protected.

As I examined the post traumatic landscape, I was shocked by what I saw.

Every building before me in downtown Seattle had its windows blown out. Many were damaged but many were still standing. Pillars of smoke rose throughout, from the streets below. Dust was everywhere.

I became very sad. I do not know how many people were hurt in this event.

After I woke up, I was very disturbed. I needed to find answers. I went online to look at the Seattle landscape on Google maps. Based on what I saw in my dream, I was able to find my approximate location. I was also able to calculate an approximation of where the objects were headed and/or exploded.

When I examined the points of impact, this glimpse became very DISTURBING!

It appears that west of Seattle across the Puget Sound are several military bases and installations.

The area of the lower assault is the Bremerton Naval Base and Shipyard.

The image above is from Google where we can see that many of our ships are there.

Below is a "zoomed-in" close up of the area where I saw the anti-missiles try to respond but miss. I do not understand why they missed! I thought that we had an impregnable shield. (More on that

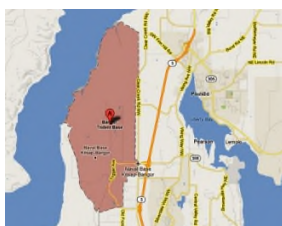

later.)

In my dream, in the other area North of Bremerton, I saw an explosion in the air.

The area in the image below was under the explosion! It turns out that it is also a military base, a substantial one!

From Wikipedia: It is called Naval Base Kitsap. It is a U.S. Navy base located on the Kitsap Peninsula in Washington State. It was created in 2004 by merging the former Naval Station Bremerton with Naval Submarine Base Bangor.

The Mission of Naval Base Kitsap is to serve as the home base for the Navy's fleet throughout West Puget Sound and to provide base operating services, including support for both surface ships and Fleet Ballistic.

In my dream the explosion in the air occurred over this base!!!

What Was It?

After I had this dream, I wondered if the flying objects were nuclear missiles or meteors.

I prayed and asked God for details and more information. At this moment in time, I do not have an answer.

Therefore, I am not sure what they were. I have many questions about this event.

If they were meteors, why would they attack two military bases? And could a meteor cause an EMP?

Was the first one a meteor? And was the second one that exploded in the air a "Tactical EMP Missile" of some sort?

I am still seeking God for answers. One thing I have learned about prophetic dreams. They are just glimpses, partial images. They are never a complete picture. We only *"know in part"* and *"prophesy in part."*

But folks, I do know this, God did tell me to share this dream. He wants all people to be warned that events are coming that will test men's hearts!

America will experience an attack. This dream event will be one of several cities that will experience these things.

For those of you that are wondering - "When?"

God Revealed that it will occur when people least expect it. Will it be soon? Or later? Will it happen within months or years from now? That part I do not know.

Why?

Over the past few months, I have been sharing many details about America's coming demise. The things that she is experiencing right now are a part of God's Divine Judgment.

America is NOT in a recovery! Her dismantling is still in motion. Thus far, most of her pain has been in the economic sector, but eventually, she will start to experience a new category of judgment. ....WAR!!!

As these things take place, God has also shown me in prophetic dreams that America will be attacked in a very ominous and destructive manner. This means that several American cities will see great destruction. American cities WILL BURN!

Ladies and Gentlemen, over the past few years, I have seen cities burning through prophetic glimpses! Sharing these things brings no pleasure!

It brings much pain!

In my early years, I never thought that America could ever get attacked! But this was before God showed me.

## **The Withering Hedge!**

America's Divine hedge of protection has been removed. Her walls of solitude and safety have crumbled. Her pillars of strength have fractured and toppled.

As a result, right now, America is in very dangerous territory. Without God protecting her, how can she remain safe and preserved?

The majority of today's Americans place no confidence in God. They do not see the point. So sadly, America will be left as a progressive thistle blowing in the wind.

The ungodly take pride in their leanings to the left. But folks, at what point will her dry stalk break? How far can she lean before she tumbles?

Her bones have become dry and fallow; a brittle soul in the wilderness. Will the world give her a drink? Or are they waiting to watch her die of thirst?

Grass always fades and America will soon learn the fate of her misleading self-reliance.

Folks, if you live within the borders of America and you do not know why the USA is sick, please seek to find an understanding of why she is going through this. The reason is NOT only a physical reason from the mind of logic and rational.

My last audio went into great detail about America's declining hedge of protection. The message includes a sermon of spiritual challenge.

I encourage all of you to listen to it. It explains through the scriptures what *the pillars* are. It is in two parts. Please share it with your loved ones that you are trying to warn. [Link - News from the Wall 13 page](#)

## **Finding Strength**

Ladies and gentlemen, in the coming days, we all need to be getting our hearts strengthened in God.

I have been seeking God about which direction to go in future messages. I have many things to share but I am also seeing that there are many people that are not where they need to be spiritually.

Unfortunately, most people do not know what to do when it comes to seeking God and getting close to Jesus.

Therefore, I am going to be producing several sermon messages

that will address how to come back to God. I know that there are many out there in internet land that are backslidden and struggling.

If this may be you, my heart goes out for you. Please do not give up. If you are not a subscriber to my audio messages, please do so, so that you can be notified when my sermons come out. [Subscribe to notifications](#)

I want all of you to know that even though we are living at the edge of coming "doom," there is still hope for you. God has a plan for you and He wants to get to know you better. It just takes your desire to see that happen.

For those of you who might live in the Seattle area, you may be wondering, "What to do?"

I asked God about that. He said, "Those that need to move away, are being shown what to do."

In other words, if you are asking Him, He will tell you what to do.

Unfortunately, God also told me that most people do not listen to His voice when it comes to these things. Again, I do not have the timing for this event. It could be years away.

As a reminder, both David Wilkerson and Dumitru Duduman saw America burning in prophetic visions. They saw these things MANY years ago! God's warning is always in advance; sometimes many years in advance. So will this attack happen soon? I do not know. Therefore, please follow the leading of the Holy Spirit for your personal relocation plans.

One thing to note about the explosion that I saw, it did not appear to be a regular nuclear event. It appeared to be an EMP. So here is the question. If you live in a city, can you ride out an EMP event? Only you can answer that question.

But the question cannot be addressed without wisdom and sobriety of heart. Neither can it be answered without God's counsel and Holy Spirit leading.

My friends, we need to all be staying vigilant in these uncertain times. Great events are approaching. The wise ones will stay sheltered in God and seek to know what to do.

One thing you should not do is try to deal with these things without God's involvement. To do this will result in walking in fear!

And folks, fear is a faith killer and a thief of God's peace! May God grant you your portion of peace in the midst of this storm!

## **A Warning of the Coming Civil War!**

**By Nathan Leal – April 7, 2013** (posted April 26, 2013)

*Updated Notes*

*Transcript Release - May 16, 2013 - from Audio Program*

*Released – April 26, 2013*

*(Note some portions of this transcript have been edited for clarity. It has also been updated)*

*The audio for this program can be found here: [Listen Page](#)*

Several weeks ago, on April 7, 2013, I had three prophetic dreams, all in the same night, one after the other. (*Actually, I had four of them, but the fourth one, I cannot share. Perhaps I will in the future.*)

*I recently shared these dreams on my News from the Wall Program # 14 (4-26-13) as well as on the Hagmann and Hagmann Show on May 2, 2013*

Please prayerfully consider what you are about to read because this warning is dire and it applies to all of us! (By the way, please know that I am not a pacifist. I believe very strongly in self-defense. The content of this warning article will explain why I am saying this.)

This is the first time in my life that I have ever had this many prophetic dreams at the same time. Having this many in one night reveals to me that God wants to bring a VERY strong warning to His people.

It reveals that time is running out. I am also very troubled that these things may be arriving sooner than most people are prepared to face.

In summary, the nation of America is headed towards a very hazardous future.

The purpose of this warning is to notify all of you that when these things arrive, America will be forever changed. The lifestyle of freedom that we all once knew will be over....permanently!

When these things come to pass, Americans will find themselves very confused, not knowing what to do. Many of them will react with the wrong choice and do the wrong things.

The end result will be...a slaughter! The country will find itself mired in a conflict against its own citizens!

Sadly, there will be partakers who will be misled into believing that it will be glorious to participate in what is coming.

But what is coming will NOT be like a romantic conflict of warfare that is found in a video game.

Nor will the coming frenzy will be glorious or virtuous...it will be a nightmare! It will be a bloodbath... and many will fall!

I know that this is a fervent introduction but time is short folks. Based on my recent glimpses, I must proclaim this warning with a resounding alarm.

### **The Three Dreams**

I am going to share all of the dreams first and then I am going to talk about what they mean.

In the first dream, I was standing in a downtown area of a city somewhere in the United States. I do not know what city it was, but the street had three lanes of traffic all moving in the same direction.

On each side of the street were buildings that were three to four

stories tall. Suddenly from behind me, four or five armored artillery vehicles passed me. They stopped abruptly in front of one of the buildings that were on my left side. The vehicles appeared to be the MRAP type vehicles similar to the ones the Homeland Security has purchased.

As they arrived and came to a halt, the agents in the vehicles exited all at the same time. They were dressed in black tactical gear and were either SWAT or Homeland Security agents. I did not get an exact count, but I estimate that there were about 15 to 20 of them.

It appeared that they were going to serve a warrant on one of the buildings that was to my left.

In my heart, I knew that the people who were being served were a Patriot type of group.

When the SWAT officers got out of their vehicles, suddenly from the rooftops of the buildings on both sides of the street, men rose up – there were about ten to fifteen men on both sides. They were armed and they aimed their weapons down on the officers below.

They quickly fired on the SWAT / DHS officers that were standing on the street. Within seconds, they shot all of the officers in a hail of bullets! Their lifeless bodies ended up motionless on the ground!

As this was happening, I began to scream and plead that they stop, but it was too late! I had just witnessed an ambush on all the officers.

I was overwhelmed with sorrow, shock and disbelief because I understood the magnitude of what had just happened.

I began to scream, “*What have you done? Why have you done this?*”

I knew that this meant that everything from this point on was going to change for America. I knew that because of this ambush, the rules were going to change for everyone in the country.

I knew that this meant that new laws were going to be written that would suffocate freedom.

I knew that this was going to cause these patriots to be labeled something that, at one time, they were not, but now they had relabeled themselves. They had just become enemies of the State.

This was going to change America forever.

Then the dream was over.

### **Second Dream**

Instantly a new dream started. In this second dream, I was inside of a building looking out through a window. It appeared to be a motel room. I was somewhere in the Southwest of the United States. I am very, very sure that this is where I was; the South, Southwest.

As I was looking out of the motel room, I could see that about fifty to seventy-five feet away from my window was a highway. It had four lanes, two in one direction and two in the other.

As I continued observing, I saw that some kind of parade was happening along the street. But it was no ordinary parade!

It was a march with of tens of thousands of individuals. They filled all four lanes of traffic. They were walking shoulder to shoulder in the same direction. Some of them were carrying American flags. Some were dressed in camouflage; some were wearing military type headbands. They looked like citizen soldiers.

They were all carrying weapons. It was a declared march. They were marching off to war! They were Patriots!

They consisted of all age groups. Some were young, some were old. Some were Vietnam veterans. But, they were all very passionate, they were resolute in their thinking, and nothing was going to change their mind.

When I saw them marching, I left the motel room and I walked towards the edge of the street. I shouted towards them with the same fervency that I had in the first dream. I screamed at the top of my lungs, *"Please don't do this!"*

I knew the implication of what they were doing with their march. I knew that it meant that the American Civil War was going to start if they continued.

I had the intuition and the knowledge, that when this war started, many of them were going to die.

I tried to cry out to them to please turn back. Two of the men in the march heard me and looked at me. They left the parade and started walking towards me.

One said, *"What's your problem buddy?"*

I said, *'Please do not do this!'*

He answered, *"What are you some kind of Pinko - Liberal? If you hate America... leave!"*

I retreated and went back to the motel room. I knew that I had to get out of there. I tried to figure out where I needed to go.

The dream was over.

### The Third Dream

Then a third dream started. In this third dream, I was in Texas. I was again inside of a building looking out of a window. *(I find it interesting that in many of my prophetic dreams, I am looking out of a window when God reveals the glimpse.)*

I was looking east. I saw the Houston Astrodome appear before me.

Then, I looked a little to the north of the Astrodome, and I saw Joel Osteen's Church.

It was empty. There were no people inside of it. The stage was empty.

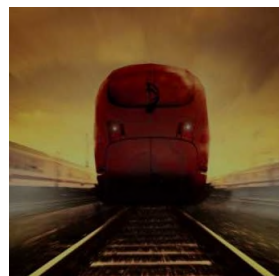

As I was looking at these two things, I noticed that I had two or three people in the room with me also looking out of the window. I am not sure who they were.

As I continued to look at Joel Osteen's church, I noticed that I had a pair of binoculars hanging around my neck. I picked them up and looked through them in the same direction.

But, when the binoculars came to my eyes, the scene changed. The Astrodome disappeared, the church disappeared.

Instead, a new view appeared before me. I saw a train that was in motion. It appeared right in front of me. It was coming towards me.

The binoculars made the train appear closer than it really was.

As I looked at the train, I asked the people in the room, *"Hey, do you guys see the train coming?"*

They said, *"What are you talking about? We don't see anything."* I pointed in front of me and said, *"It*

*is right there!"*

They said, *"Nathan, we do not see a train."*

The train had two red engines that were pulling a very long load. I watched it as it began to move faster. As it gained speed, I became concerned because it did not seem to be traveling safely.

It seemed to be going 80 to 100 miles per hour!

I said, *"You guys, do you see what's happening?"*

### Derailed

Then suddenly, as the train could no longer control its speed, it left the tracks. It began to derail.

Alongside the train was the regular highway. When the train derailed it bounced towards the highway and continued to move along the street. As it did, it scraped the pavement. The heavy steel of the train began to make violent sparks as it tore along the asphalt and concrete. There was a loud sound of screaming metal that punished my ears!

As I watched through the binoculars, I became overwhelmed with grief and sorrow.

I said to the people next to me, *"You guys! This is a catastrophe! The train is crashing!"*

I began to weep!

They said, "*Nathan, we don't see it. There is no train there. We don't know what you're talking about.*"

I lowered the binoculars and looked out the window. Sure enough, when I lowered the binoculars, there was nothing there. But then, when I put the binoculars back to my eyes, the scene continued.

I suddenly realized that the binoculars in my hand were a prophetic tool from God that allowed the viewing of glimpses of things that had not yet happened! I understood!

I continued to look at the vision. The train with two red engines continued in its violent crash. The engine and all of the railcars began to jack knife along the highway.

Suddenly the street under the train began to buckle and slither up and down in a wavy motion.

I cried and wept even more because I feared for the victims of this tragedy!

In an instant and unexpectedly, behind the train, there was an explosion.

It was massive. I saw a mushroom cloud! Through the smoke and fire, I could see a city burning.

Since I was looking through prophetic binoculars, I am not sure if I was still looking at the general vicinity of Houston, Texas. I am not sure where it was. But, a city behind the train burned. There were buildings burning. There was a fireball. It was a terrible catastrophe. I was overwhelmed at the spectacle.

Then the dream was over.

What do they mean?

I want to take a moment and talk about the meanings of these dreams. As I share my heart, I am going to also include the sobering truth about our situation. Friends, please consider what I am about to say.

The first dream involved a conflict when SWAT officers arrived at a location to serve a warrant. In this dream, I knew that in the eyes of the SWAT team, the citizens who were being served were some kind of Patriot Group.

I do not know who they were. I just saw what they did!

When the SWAT team arrived, a battle broke out. Actually, it was an ambush. The Patriot Group was ready for them and they reacted with offensive actions.

What does this mean?

As I have sought God about these dreams, He has prompted my spirit to warn everyone that this thing is coming.

I must also include this; if anyone who is a true Christian participates in anything of this nature, (i.e. ambushing a SWAT

team and killing them!) ...they are in ERROR!

Unfortunately, in the future, there will be individuals who will assemble to do this very thing! It is not going to matter that they think logically or rationally. They are going to do this.

Why? Because they will be motivated by the *complex* influence of "*patriotism*" mixed with several other factors.

By itself and when kept under control, patriotism is not evil. Patriotism can be noble and virtuous. Patriotism means – the love and devotion to one's country.

Ladies and gentlemen, I am not saying that it is wrong to have a patriotic affection for your country home. I do!

But a conflict occurs when patriotic affection becomes skewed into a patriotic obsession!

What's the difference?

Love of Country

I have affection for the land of America where I was born and raised. I have great memories of living in this nation. This is the land that God chose for my birth, for my upbringing, and for a large portion of

my life, America has been good to me.

So, I do have affection for the land of my pilgrimage. I care for her. And now, I grieve for her. I grieve at the thought that she is changing before my eyes into something that is no longer inspirational!

I grieve because I know that the future of my children looks bleak!

I grieve because I know that any future thoughts of America's promise will only be found in the memories...of the past!

And folks, I grieve because I know that it did not have to be this way.

God wanted to continue His blessings on her, but she would not have it! The people chose to reject Him.

Sadly, over the past few years, America's denial of God has gathered momentum.

Instead of turning to Him, the people of America have chosen their pleasures. They turned their backs on Him and banished Him from their lives, and thus, they banished themselves from the hope of His remedy!

Because folks, the nation of America cannot be saved by fancy speeches about freedom and 1776! The only speeches that will save America must include the words "Repent!" But who wants to hear those words?

It is unfortunate but most people have chosen their own way. And thus, here we are!

**Divine Judgment**

The fall of America will not happen because DHS bought a bunch of scary vehicles!

The fall will happen because Americans backslid and walked away from their freedom.

The Bible is very clear; serving God brings freedom, serving ourselves will bring bondage! - Deuteronomy, Ch. 6:17 *"You shall diligently keep the commandments of the LORD your God, His testimonies, and His statutes which He has commanded you."*

18 *"And you shall do what is right and good in the sight of the LORD, that it may be well with you, and that you may go in and possess the good land of which the LORD swore to your fathers.."*

24 *"And the LORD commanded us to observe all these statutes, to fear the LORD our God, for our good always, that He might preserve us alive, as it is this day."*

My friends, the oppression that is arriving in America cannot be remedied with the "arm of the flesh!"

The remedy is not *Ted Nugent* or the *Patriotic Spirit of Barabbas!*

America's fall cannot be blamed on one man, or the failure of one political party, or even on Obama!

Obama is just the symptom. But the root of the problem goes deep...very deep!

And here is the hard and bold truth; the fall of America is everyone's fault! When America needed to repent...she didn't!

A large portion of the Church in America has dropped the ball. It has become inept and empty of the message and power of the Cross! It has become empty of solutions, and empty of God's promises.

I am not saying that all churches are in this condition but many of them are. The evidence speaks for itself. How many of God's people are awake right now?

How many are asleep?

Reactive Patriotism

I am sharing this insight because this is the true diagnosis. Unfortunately, most people would rather take the earthly route of the flesh with *Reactive Patriotism!*

What is that? *Reactive Patriotism is responding to the problems of the nation in the flesh, through the strength of man.*

On paper this may sound noble but unfortunately it bypasses God and repentance!

And folks, it will not succeed. Not this time around. Why? Because it is no longer 1776!

The events now taking place in America are divine! God is letting

it happen! Which also adds another variable to the equation.

Without the repentance of the nation, no amount of patriotic appeal is going to prosper.

*Why? Because patriots may find themselves fighting against God!*

I know that these words may not be what you want to hear. But they are the truth!

For those wondering what to do? There is a strategy...find God's mercy, forgiveness and strength right now, while you still can.

The only ones that will endure what's coming will be those who find God's mercy on an INDIVIDUAL basis!

Those who want to endure must seek God and ask Him for the discernment to see the truth through the fog.

Because without discerning eyes that are open to the truth, most people will only see the landscape from the ground, from the earth's perspective. But the picture is much bigger than the counsel found in the world.

Correct Perspective

The real canvas reveals that the solution to America's problems will not be fixed with a march, a rally, or with bullets!

My friends, I do not share this message to be unkind. I share it because this is what time it is. This is our situation!

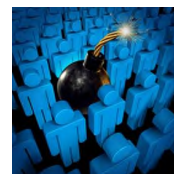

And the unfortunate truth of this matter is that a civil war of words is going to become a civil war of action. When this thing happens, it is going to change everything.

This is what the powers of darkness want. They want a civil war.

Right now, the despondency of American citizens is growing. The US Government is creating continual policies that impose, oppress and bully.

In the natural, this is a recipe for disaster. This is a recipe that is causing anger to incubate in the hearts of many American citizens.

Unfortunately, the temptation will GROW among some citizens to do something drastic! Eventually, at some point, there are going to be some radical patriot types that are going to say, *"We're going for broke."*

When this happens, they are going to pick a fight. They will engage!

Reaction of Violence

The war will begin. At that point, many others will feel the pressure to join!

Folks, this is exactly what *the powers that be* want to happen. They want a civil war. They want to see social unrest because they want to have their season of martial law where everything will change to their benefit.

Unfortunately, the citizens with the wrong priorities will succumb to the temptation to join the rally of madness.

For those of you that are listening, we must all have the right priorities. We must have the priorities to behave as Christians who are as innocent as doves, and as Christians who place the fruit of the Spirit at the highest level.

Please do everything within your influence, within your volition, within your will to resist in taking part in something like this because the end result will be destruction, mayhem and death!

*Regarding the dream of the ambush, eventually some type of event is going to occur where patriots react in violence.*

It may not be exactly like my dream, where a SWAT team serves a Patriot group in a three lane downtown area and gets ambushed. But the event will involve Patriots and SWAT type officers. There will be violence...

...and there will be blood!

My dream was a prophetic warning!

*When the event occurs, there is going to be blowback.* There is going to be a reaction from the government. There will be consequences. Folks, there are always consequences. Those that live by the sword will die by the sword.

A reaction from the government will be the beginning consequence. But it will also snowball into a colossal consequence.

Regarding the group that did the ambush in my dream, I have received a few emails from listeners asking if it is possible that they were not real patriots. In other words, were they fictional? Were they *"actors – provocateurs"* made to appear like Patriots!

Folks, I do not know! In my dream, the label that I had for them was that they were Patriots. Could rogue elements stage such a thing? Yes.

But my warning still stands. To all of those who call themselves remnant believers in Jesus, *do not participate in something like this!*

## Second Dream Comments

My second dream revealed an assembly of Patriots in a declared march. I believe that this dream will occur in the near future. Perhaps there will be marches that occur more than once. The marches could become a nationwide movement that spreads into several cities.

As it happens, there is going to be a large assembly of patriots that are going to protest what the government is doing.

I received a few emails from listeners, asking if the marches were a response to the battle that I saw in the first dream OR if the marches were actually the beginning of the coming civil war. In other words, were the marches *Round One*?

That part, I do not know. I suppose that the marches could be the

beginning of a patriotic resistance.

One thing that I find very interesting is that after I released the original audio warning of this dream on April 26, 2013. I then shared the same warning on the Hagmann and Hagmann show on May 2, 2013.

Washington, D.C. March?

About a week later, I began receiving emails from listeners who told me that there is a person that is organizing a march where patriots will rally in Washington DC with their weapons. The rally will occur this July 4, 2013.

The organizer's name is Adam Kokesh from New Mexico. Alex Jones interviewed him. See below:

Regarding this march, I do not know if this one is related to what God showed me, but I find the rhetoric very disturbing. At 9:00 minutes into the interview, Kokesh makes statements like:

*"...we will stand up to their unjust authority in whatever ways we see fit..."*

At 10:20 he says:

*"...We will use physical force when necessary and when appropriate..."*

At 11:00 he says:

*"...When we march on D.C., liberty will be restored...!"*

Since Alex interviewed Adam Kokesh on May 6, he has now decided that he is going to join in the march on July 4, 2013

In the video above he says that if there are enough cameras, then perhaps violence will not happen. But then Alex says, "Quit being timid and afraid because none of us are getting out of this thing alive!"

Folks, what does that mean? I do not see these developments as wise moves for these people. It also appears that these things could be the start of the movement for more marches, thus fulfilling my prophetic dream.

The march on Washington, DC may appear to be a benign event but there are too many things that could go wrong. It could even be a setup. All it would take for mayhem to happen is *one lone individual* in the crowd doing something stupid with their weapon.

Regarding the ambush that I saw, after it happens, the powers that be are not going to just sit on their hands and remain passive. They are going to react and they are going to hit back very, very hard.

When they do hit back, it may be in a way that will upset the other Patriots around the country.

While all of this is happening on the surface in the physical realm, behind the scenes, in the spiritual realm, there are going to be powers, minions, evil spirits, demons who are going to go forth and influence both sides to become bloodthirsty, to become angry.

They are going to influence both sides to become irrational, to desire war, to desire bloodshed and aggression.

When we look at the Book of Revelation, we can see the powers of darkness working behind the scenes to cause the kings of the Earth to assemble in the Valley of Armageddon. Demon spirits are going to influence this.

In the same way, here in America, there will be evil spirit minions who will influence people to desire a civil war.

The people who will succumb to this desire will be those who have the wrong priorities.

My friends, what is your priority? I must ask these questions. The Lord wants you to know that some priorities can be WRONG! Please consider these words!

My second dream revealed the march to war, civil war!

Brother Against Brother

Folks, this is the bottom line. Satan wants a bloodthirsty civil war. He wants to see Americans against Americans. He wants to see brother fighting against brother. He wants to see Americans fighting one another.

Placing faith in patriotism and in the arm flesh during the end times is placing faith in the spirit of Egypt.

This has also been prophesied in the end times:

*"And I will set the Egyptians against the Egyptians: and they shall fight every one against his brother, and every one against his neighbor; city against city, and kingdom against kingdom."* Isaiah 19:2

When I saw the people marching to war in my second dream, I begged them not to do it. I begged them to turn back.

After I awoke, I wondered why I had so much passion against their march. I am NOT a pacifist, so I found it odd that in my dream that I was against it.

I am also not against war. In fact, the Bible tells us that there is a time for everything, including war.

*"To everything there is a season, A time for every purpose under heaven...A time to love, And a time to hate; A time of war, And a time of peace."* Ecclesiastes 3: 1, 8

War has its place in the timeline of God. Revelation tells us that there was a war in Heaven; the Angels of God verses Satan and his angels.

I am not against war. However, I am against war at the wrong time.

So in wondering why I had such passionate pleas, I have concluded that in my dream my plea was the Spirit of God beseeching the people not to do it. God wanted them to turn back. But, they did not listen.

Folks, based on how I acted as far as having emotions that are out of character with me, I am learning that when I get a prophetic dream, and in delivering God's message, I also experience His way of thinking. In other words, in the dream, I put on the mind of Christ. Thus I experienced emotions that are not my own.

This explains why I pleaded with the patriots not to march to war! In my natural finite mind, I can see how it may appear as a noble and brave commitment. But with the mind of Christ, I see it as a march to the death!

Therefore, I must deliver the message for God! In this coming event, there are going to be ramifications that are going to massive. They are going to change the laws of America, as we know them.

The coming events of civil war are going to cause a state of emergency. It is going to cause martial law. It is going to cause a new direction for America.

Again, in the dream, I was somewhere in the South. Does this mean that when this thing gets going, when the civil war starts, it is going to happen in the South or the Southwest? I do not know. I am just sharing what I saw.

But this is why I am talking about this. Because it appears that we are getting very close to these things.

And I do not want to see any of you that are regular listeners to be a part of the fallen.

However, I am concerned that this is where our nation is headed.

If it happens under Obama's watch, Obama is going to be able to enact martial law. He will be able to suspend the Constitution. The end game for America is going to be America under tyranny and under police state rule.

I know that I have been warning about these things for some time. But now, it appears that God is increasing the frequency of the prophetic glimpses because the events are getting closer. If they are getting closer, we need to make sure that our hearts and our spiritual condition is in the right place, that we have the right motives.

### Third Dream

In the third dream, I was in Houston and I saw the Astrodome and Joel Osteen's church.

I then looked through a pair of binoculars that I had around my neck, first of all, one of the key points of this dream was that God allows His Watchmen, or whoever He happens to be using at the time, to use spiritual tools.

Those spiritual tools belong to God. They were not made by the person. They were not purchased by the person. God just lets His servants use them.

So, in this dream, I was looking through binoculars that I happened to have. These binoculars were a prophetic looking glass. I was able to see a glimpse. Looking through them was scary.

In my dream, I became upset. I became very sorrowful and overwhelmed with grief because of the catastrophe that I was viewing and witnessing.

Folks, I need to say this. Whenever a servant of God sees a glimpse of something that is to come, to see God's judgment is not easy. It creates fear. It creates terror.

## The Terror of the Lord!

To see the power of God in His judgment is to be able to see God in His true form. It shows that God is a powerful, majestic, awesome, overwhelming God who can melt mountains.

The Bible says, *“Therefore, knowing the terror of the LORD, we persuade men...” 2 Corinthians 5:11*

Ladies and gentlemen, I have seen glimpses of some terrible things. Because of that, I need to warn and persuade as many people as I can. So, please get your hearts right. Get your priorities right.

The number one priority is not fighting the New World Order or being in the Tea Party or making great speeches that rally others. It is something else.

## Repentance

The first priority that we should all have is to possess a heart of repentance that takes us to the foot of the cross with a contrite heart, it is experiencing repentance that causes us to look in the mirror and see that we are undone. It should cause us to deal with the issue of our sins and find forgiveness in the blood of Jesus.

Our priority must include repentance that inspires us to cry out to God for rescue from the chains of bondage and the strongholds that weigh us down.

Our priorities must influence us to seek victory from oppression and from defeat.

Some of you have been walking without the victory of God for too long. You have been tolerating sins defeat! But, it is time for you to get tired of it!

Folks, the terror of the LORD is a mighty thing. I want to share with you that God shows the glimpses of His terror because He also has the remedy.

He showed me a glimpse of terror and I am sharing it with you.

But, I am also presenting this; the loving-kindness of God is new every morning. It is available for you. It is available to forgive you and pick you back up. It is available to strengthen and restore you.

It is available to revive you.

## The Train with Two Red Engines

When I saw the third dream, I saw a train with two red engines heading towards me. After I awoke, I wondered to myself what it meant and I prayed. I have talked to some people about it. I've sought counsel.

I have wondered. Why red?

- Red represents war.
- Red represents emergency.
- Red represents the highest level of alarm.
- Red represents Communism.

- Red represents Satan – the red dragon
- And also, red represents bloodshed.

A train with two red engines: I believe that this train represented several of these things, maybe all of these things. Perhaps other things!

Folks, it is traveling very fast and it is coming toward us right now. It is barreling down the track. The train is in the future and it is going to come into our present.

## The Ground Will Shake

As it arrives, it is eventually going to derail. It is going to lose control. It is going to crash. When it lands on the street – the ground, there is going to be a mighty shaking of the earth! The ground of America and the ground where you walk is going to shake.

The ground where we live and where we do our business is going to shake!

The ground under your house is going to shake. The ground of our possessions and the ground of the land is going to shake.

Eventually, we are going to see an eruption of fire. We are going to see the reaction in a catastrophe of frenzied fire, of fire that consumes and burns.

There are many categories and many areas of our daily life that are going to find themselves consumed.

Folks, the future of America is hanging by a thread right now. It is barely hanging on. A thread is not that strong and when it breaks, that train with two engines is going to crash!

Question - is there going to be a red train that is going to crash literally? I don't know; Maybe.

I do believe that part of this dream is it is going to play out in the spiritual realm. It is going to play out behind the scenes. The color red represents the things that I mentioned.

Is it possible that another attack is coming to America and it is going to involve a train? Again, at this point in time, I do not know. I am still seeking for the answer.

But out of curiosity, I researched whether there are any train companies that exist that have red engines. It appears that

Canadian Pacific Railway has red engines.

Does that mean that somehow Canada is going to be involved? Or this rail company?

If we were to look at the train dream literally, one might ask if a Canadian Pacific train with two red engines is going to derail in the USA, possibly in

Texas, and cause a massive explosion? I have wondered about this.

And I have also wondered that if it did occur, would it be declared a terrorist attack? If so, who would they blame?

I have many questions about this dream and I am still seeking God about it. If more insight is revealed, I will share it with all of you.

One thing that I do know is that this event caused me to weep in my sleep. This does not happen very often. But it does tell me that this dream is one to take seriously.

#### Coming Tyranny and Bible Prophecy

As this thing unfolds, tyrannical America will require that laws be passed to disarm the population. As the new laws arrive, there is going to be resistance.

In the natural, I know that this creates a conflict for Christians who are Patriots. It creates a looming question – “What do we do?”

As these events rear their ugly heads, it is going to become apparent for many evangelical Christians that they were not prepared to face these hard choices. Why? They dismissed the concern because they believed that the Pre-tribulation Rapture was going to rescue them and thus, they did not think about it!

Unfortunately, the Rapture has not happened and now these questions and issues need to be addressed because they are about to arrive.

This means that millions of Christians need to get on the fast track to learn about all of these things. Sadly, most will not. Many will be deceived into following the wrong advice or cleric like Ted Nugent. But they will follow the advice to their graves!

Ladies and gentlemen, the end result is that America is going to turn into a tyrant. The New World Order is going to rise out of the ashes to fulfill Bible prophecy, so that Jesus can return.

#### The End Times Will Not be Stopped!

*(Note - I will address the question of civil war verses other choices below.)*

Again, this thing is not going to be stopped! The New World Order will not be stopped. I know that people do not want to hear this, but today's events are Bible prophecy.

I know that for some of you, my statements raise questions in your heart.

*“Nathan, does this mean that we are supposed to just lay down and take it?”*

That is not what I am saying, folks. And for the record, I am not a pacifist!

But here is a question for you, are there only two choices?

- Laying down and taking it!
- Or fighting back with the patriots?

Can there be a third choice, or a fourth, or a fifth option?

- What about fleeing and heading for the mountains?
- Or what about staying one step ahead of them by being guided by the Holy Spirit?

- What about becoming invisible to the enemy. Ps.91 in action.

Brethren, the Bible tells us that in the time of the end, God will be doing some supernatural feats through His people.

“...but the people that do know their God shall be strong, and do exploits.” Daniel 11:32b

What a promise!

The above verse sounds conditional- *The people that DO know their God!* Sounds like homework! Knowing God requires that we seek to know His counsel.

This means that none of us needs to be getting involved in or following advice from someone or something that contains ungodly counsel.

Psalm 1:1 says,

“Blessed is the man who walks not in the counsel of the ungodly...”

If you find yourself gravitating towards rhetoric that is patriotic, radical and violent.

There are questions to ask about it:

- Is it Godly counsel?
- Is it Godly rhetoric?
- Who are the people saying it?
- What are their motives and priorities?
- Does it pass biblical scrutiny?
- Is it wise?
- Is it foolish?
- Is it going to get somebody killed?
- What spirit is behind the words? God or Satan?

I am talking about the civil war. As this thing unfolds, hopefully the Internet will still exist and I will still be on the air and I will be able to bring more talking points and more commentary and more interpretation and more words from the Holy Spirit on what needs to happen after new events come forth.

That is another reason that I am here, to continue to break down world events and to share some words from the Spirit and from God. So, please keep us in your prayers. Also, continue to remember us in your support.

#### Conclusion

Folks, my plea is that you do not participate in folly. And we also need to have the discernment from the Holy Spirit.

Again, they that live by the sword will die by the sword. But I can already hear the rebuttals from patriots who want to say that my words sound "cowardly" and also that they want fight the tyrannical US government.

So please allow me to address a few rebuttals here.

Question: Should Christians take up arms and fight the government?

My Answer: The choice can only be decided by you. But I have question, to the one desiring to take part in the revolution, what are you trying to restore?

Society is still messed up with its anti-God belief system. Today's generation hates God and wants to live for itself.

Does one think that by overthrowing the regime that somehow righteousness will return to America? This nation is in a mess because the hearts of the people are in a mess! This includes patriots, warriors, pacifists, evangelicals, liberals and also the remnant!

Since I released this article, I have received a few hate filled emails from patriots that are angry at my words that ask for calm. I have been accused of being a "coward" and "timid."

Folks, the words of this warning are not to promote "cowardice," or "non-bravery,"... they are to communicate God's warning to everyone. They are to promote wisdom and non-folly. In layman's terms, I am promoting that people not do something stupid!!

This warning is about not taking part in the folly of a patriotic ambush.

Question from a listener:

I received another email from a person that asked, "So Nathan, if SWAT is raping my wife, am I just supposed to take it!"

My Answer: Who said anything about rape? Folks, based on the responses that I am getting from some people, there are some who refuse to think logically with reason.

Again, this article is NOT about self-defense. I am not against self-defense. Defending your family from bandits, pirates and thieves is our duty. This warning is about not taking part in the murder of SWAT officers! In my dream they were ambushed. It was wrong!

But getting back to those who are digesting this information. I notice a developing pattern that those who believe in the Pretribulation rapture seem to want to fight in a civil war. And those who do not believe in it want to look at other options like flee to the mountains.

Why the difference? Apparently, the end time view seems to have influence in the level of patriotism. Now folks, I could be wrong but this is my observation.

I notice that based on end time eschatology, there seems to be a connection on the outlook towards civil war and revolt.

What do I mean by that?

If you are a pretribber, then it is easy to think that the tyranny will

be stopped. Because if the end time Beast was around, then you believe that you would be gone in the Rapture! Therefore the civil war is only against a bad US government and not the Beast of Revelation 13.

But my Pre-trib friend if this is your theory, I have a question. What if the US Government is the beginning of the Beast of Revelation? Do you really think that you can beat it? There are other priorities to worry about, like getting prepared to go underground with your family!

But if you are not a Pre-tribber, then you understand that the remnant will have to endure the tribulation period and the End Time Beast. You also understand that the NWO Beast will not be stopped. So armed revolution is futile. Better to flee like Jesus said!

And this is my point. I believe that we are witnessing the beginning of the Beast. We are also seeing the judgment of God that is allowing tyranny to come in the first place. The judgment of tyranny will not be stopped by a patriot army. Sorry Folks! It won't!

The events are going to come. In fact, they are already arriving. That is one of my concerns because this thing may be happening quicker than most of us are prepared to face.

Ladies and gentlemen, I see the agenda of Hell in motion right now for America.

Please keep in mind that the devil does not always need a false flag event for an evil agenda to pass. He merely needs to possess some people into doing some crazy things; things that will shock the people into an involuntary compliance.

In order for the powers of darkness to maneuver America into the evil season that is coming, their agenda needs to be in motion right now. And all we need to do is look around and see that it is indeed in motion!

In conclusion, we must all be getting ready.

I know that I revealed a lot of things. If you find yourself struggling with the validity of my topic, take the matters to God and ask Him. Ask the Holy Spirit. Let Him bear witness with you that these things are approaching.

Folks, time is running out, so get right with God! .... Get right with Jesus!

Then, get your last minute items. My prayer and my challenge for you is that your priorities will be in the right place, so that when these events happen, you will not succumb to the temptation to react in error.

Because we need to be as innocent as doves my friend... ...as innocent as doves!

God Bless You All, Nathan Leal

## The Stampede of the Elephants - A Prophetic Dream by Nathan Leal in 2013

By Nathan Leal – 2013 (posted November 5, 2014)

A Prophetic Warning from the Wall

"Election 2014 Did Not Save Us! –

The 2014 mid-terms are now history. The results are in. The people of America have spoken. The Republicans had an overwhelming victory. The Democrats took a thumping.

So does this mean that all will be well? Has America been rescued? Is the recovery certain? Some people on talk radio may think so. Others may be thinking that Obama can now be stopped with his undertaking of insanity.

I have already received a few emails from those who are well meaning, who have said that this will turn things around.

But will it make a difference?

I don't think so. Because in spite of the election results, I am left with the same concerns that I had the day before the election. What are they? It is biblically simple. Before election day, I did not see any tent crusades or revival meetings. The TV preachers did not gather the people in a corporate solemn assembly.

Long story short, corporate repentance did not take place in *Wilderness America*. So if it did not take place, how can this recent election be our rescue?

Ladies and gentlemen, I do not believe that it was. I believe that it will play out as the next step in America's demise.

My spirit is telling me that there are troubling days approaching this nation.

### The Elephant Stampede

A little over a year ago, I had a prophetic dream that illustrated a political event that will take place in America's future.

I have often wondered about this vision and have not spoken

about it very much...until just recently.

### This is what I saw.

I was driving on a two lane freeway on the right lane. As I drove, I saw that ahead of me, the road was badly damaged on my lane. It looked like there was a large crater in the road. There were large pieces of concrete piled around a hole in the road. The hole was as wide as a car.

The damage was only in the right lane. As I drove closer, I changed lanes to go around it, so I got in the left lane. As I passed the road damage, I began to increase my speed until I was traveling about 30 MPH.

When I went beyond the crater, I was going to return to the right lane but suddenly, elephants appeared in the right lane next to me.

The elephants were normal sized and they all had red blankets on their backs.

There were many of them. They were walking in a line, holding each others tails, like you would see in a circus. Almost as soon as they appeared, something spooked them and they began running. They remained in the right lane as they ran, but I could hear their voices of fear. Some of them trumpeted as they ran in a stampede. But even in their panic, they remained in a line.

Their speed increased until they were running as fast as my vehicle which was about 30 MPH.

I kept watching them as I traveled next to them but then they all began to take an exit that appeared on the freeway.

As I passed them and looked back, I could see that there were many of them, about thirty to fifty, running on the exit ramp. There could have been more, but I could not count all of them. They were still in line as they ran.

### The dream was over.

The Elephants are the Republicans

I struggled with this dream for awhile because some of the images seem to be obvious.

The elephants with the red blankets represent the Republican Party. I was traveling in the "right lane," meaning the "*Conservative / Right Wing / Road*."

But from there, the meaning became interesting and challenging.

**1. A crater in the right lane** - What caused the crater? What destructive event is going to occur within the Republican Party? What could it be?

Will it be self-inflicted by their own policies?

Will it be because of a failed strategy? If so, what strategy?

...trying to repeal ObamaCare?

...trying to impeach Obama?

...voting on a new war?

### 2. The elephants appeared, walked in an orderly fashion...

We just had an election where new freshman senators and congressional representatives will appear. They will operate in an orderly fashion...at first...

**3. The elephants got spooked and all started running in a panic!...** I am expecting something to take place where the Republicans will find themselves, "spooked" by what they see. This will result in many of them panicking and running for the exits.

But what will it be that "spooks" them? Will it be something that

Obama says or does? Is it possible that Obama could scare the Senate or the House with future Executive Orders or unilateral policies of madness?

Ladies and gentlemen, I am very concerned that Obama is going to continue his demolition of the country. One thing to remember is he is not acting alone. He is merely, "the wrecking ball!" There are others pulling his strings. He has his instructions by unseen "handlers" of the Order.

The New World Order is not just a "good idea," as Papa Bush once said, it is a plan that is being fueled by Satan himself.

And speaking of Bush, the *NWO Party* does not only involve Democrats. It has had a lot of help from the Republicans. Let us not forget that 9-11 occurred during Bush Junior's watch.

As a result of the September 11 attacks, the Bush Cabal gifted America with many tyrannical trinkets –

...The Patriot Act was passed by *Georgie Boy* and Christians at that time overwhelmingly supported it. I remember Jay Sekulow of the 700 Club endorsing it.

### **The Project for a New American Century**

...The Republican Neo-Cons also created the think tank "Project for a New American Century." or PNAC, pronounced; (pee-nack).

This group wrote a political report known as "Rebuilding America's Defenses" which is the manifesto for a one hundred year war in the Middle East. This body of work has been the template for the USA's foreign policy over the past 15 years.

That paper contains an admission that the USA invents bio-weapons. From page 60:

*"...And advanced forms of biological warfare that can "target" specific genotypes may transform biological warfare from the realm of terror to a politically useful tool."*

Inventing race specific bio-weapons is the brain child of the neo-con wing of America, i.e. Dick Cheney and company. The PNAC document was written in the late 1990's and today we are witnessing the release of one of their wicked viles. The Ebola outbreak is not a coincidence. It is part of a devious script.

But back to the elephants...

Why were they running? What future event will the Republicans seek to escape? Is it possible that their congressional plans will go awry? Will Obama succeed in cutting his leash and become *a pit bull at large*? Thus, causing them to flee?

I was speaking to a friend and he suggested, "What if the elephants also represent Republican Conservatives? Meaning regular citizens? What if the panic includes regular conservative folks who feel the need to exit ....THE COUNTRY!"

Is this possible? If it is, then I must propose that this dream might also apply to everyone who considers themselves an *Old Fashioned Conservative American*.

### **Who Will Flee?**

At some point in the future, political events are going to cause absolute mayhem and panic as they begin to take place. The panic will erupt into chaos and then into destruction.

Friends, I do not believe that America has been rescued. Unfortunately, I think that the election will give many people a false sense of hope and security. It will also work to lull Christians back to sleep.

One of the worse things that it will do is give Obama someone to blame. Like Hitler who blamed his opposition, Obama will milk this for all its worth. This could work in Hillary's favor in the 2016 elections.

That is, if there is an election in 2016!

For the most part, Americans are uneducated and have short memories. When Congressional stalemates begin happening in the next two years, the general public may turn on the Republicans. I can also see Obama writing some very dangerous Executive Orders that will bring further pain.

We are not finished watching Obama destroy this country. The next few months are going to be tense.

The election did not eradicate ebola, or the approaching collapse of the Dollar, or ISIS! ...

...Will the winning Republicans bring an end to TSA molestations?

...Will the new freshman demand disclosure on why the regime has purchased so many bullets?

...Will they stop the California drought?

...Will they reverse the poisoning of Fukushima's Pacific Ocean?

...Will they bring back the factories to America?

..Will they tell us once and for all who the strange man is who abides in the White House?

...Will they reverse same gender marriage? Abortion?

...Will they stop common-core education?

...illegal immigrants? I could go in...and I think that you get the point. Folks, we have not been rescued!

According to what I see approaching, the only thing that can turn off the spigot of judgment is nationwide repentance, not a bunch of freshman politicians!

Therefore....sadly, the next phase will come. And the next stage of destruction may be closer than we think or anticipate.

So my friends, please continue your vigilance. Get your spiritual house in order. Also while its possible, purchase supplies, food, preps, precious metals, etc.

If you are struggling in spiritual matters and need to repent but you do not know how, I have many sermons on my website that address our relationship with God. Try them out.

May the Lord lead you and guide you.

In His Service, Nathan Leal

## Prophetic Warnings of Things to Come – Tsunamis & Heavenly Signs

By Nathan Leal - November 1, 2013

(Note – Portions of this article are taken from “News from the Wall 17 – Part 4”)

Welcome to Part 2 of the series.

In the last session, we covered a few elements of America’s present demise, including her frail diagnosis and her fading health.

Ladies and gentlemen, a swarm of trouble is drawing near. One of the objectives of this ministry is to alert as many people as possible and to prepare for the outcome.

Many changes are upon us. A few people can sense it, most of them can’t. This is another disturbing component of the present spectacle. Most of the citizens do not seem to notice that the hull of the USS America has been ripped open by satanic claws from the underworld.

The ship is taking in water.

...she is sinking!

Will she be rescued? Will anyone come to her aid?

How much time does she have?

The country is under a spell right now. To the discerning one, it is apparent. For the few that are awake, witnessing the hypnotic enchantment of America’s coma is frustrating to watch!

So many people don’t seem to “get it!” I find this trend amazing, but it was foretold. The Bible tells us that in the latter days, Babylon would be populated by people with this ailment.

*“Everyone is dull-hearted, without knowledge;...” Jeremiah 51:17*

And here is something even more frightening. Jeremiah tells us that it is God who sends the slumber as a part of His judgment upon the people.

*“...I will make them drunk,  
That they may rejoice,  
And sleep a perpetual sleep  
And not awake,” says the LORD.  
“I will bring them down*

*Like lambs to the slaughter,  
Like rams with male goats.” Jeremiah 51:39, 40*

According to the passage above, having ignorance is not bliss. Those who are blind to the divine events surrounding them will experience the stupor because they are being judged!

So thank God for those of you that have the eyes to see!

Understanding the present season is vital for the child of God, because it will be the key to survival during the coming storm. I know that for some of you, it can be challenging to digest this information because in the natural, it may appear scary.

But folks, things have not even begun to get scary!

### Shock!

When the next phase of the judgment arrives, many unprepared citizens will experience a collective gasp of shock and awe!

Those who have an understanding of the arriving events will be able to process them with sanity. Those without knowledge may find themselves being carried away by an undertow of insanity

and mental trauma.

Folks, at this moment in time, the USA is experiencing God’s judgment. A divine storm is brewing over the land and this judgment is consisting of several chapters and episodes.

When the next portion of judgment arrives, all of us will need to be able to find stability in God while we are in the midst of the chaos. It is for this reason that I do this ministry; to warn, inform, and challenge God’s people that these things are coming.

### God's Warnings

In these end times, God is sending forth His warnings to those who will listen. He desires that His remnant church understands the times! He wants them to know that great events are approaching.

To accomplish this, He is using several methods to communicate with His people. Some of the methods involve the use of spiritual gifts including prophetic dreams and visions. These things are being experienced by a number of people in this late hour. Perhaps, you are one of them?

As a Watchman of God, I have experienced a number of prophetic glimpses which have revealed some of the things that are coming to America.

Today, I am going to share several that I have not spoken about in the past.

(Note – These visions and dreams have been shared on [News from the Wall #17 – Part 4](#), and on a recent [Hagmann & Hagmann program](#).)

The purpose of this report is not to argue the validity of God’s prophetic gifts because these things are real. This report is to inform and warn those who have *the eyes to see* and *the ears to hear*.

As I have stated in the past, when God gives me a prophetic glimpse, dream or vision, I do not always immediately share it. The reason is because I must find the right timing. Timing matters. The task to share a prophetic warning is not to be taken lightly. It must be carried out with integrity, honesty and a sincere heart.

Folks, I fear God. We all should. Therefore, it is necessary that I wait upon Him to arrive at the correct timing before sharing. This is the purpose of this expose'. Today, I am going to disclose several new prophetic warnings.

### Prophetic or Pizza?

At the onset, I need to mention that not all dreams that I have are prophetic. In fact, very few of my dreams have a spiritual application.

Some dreams that I have are like everyone else's. They are what I call *pizza dreams*. They are meaningless. They are my human brain functioning in its normal capacity as I sleep. I do not believe that all dreams that I have are spiritual *Western Union Transmissions from God*.

Also, I need to mention that when I do receive a - "God Dream." To me, it is obvious. Over the years, I have learned to differentiate between those that are spiritual from those that are not.

Those of you that have experienced - "God Dreams," know what I am talking about.

1. Spiritual prophetic dreams are very vivid.
2. They are very powerful in their impact.
3. They have vivid color with surround sound.
4. They bear witness with your inner spirit.
5. You do not forget them!
6. They are confirmed when you pray about them.
7. Others with discernment will also bear witness.
8. Many times they contain knowledge and information of things that were not known beforehand.
9. Sometimes they are correctional and include guidance. Also, at times they can also include chastisement from the Father.

These are just a few of the ingredients of a prophetic dream. I am sharing this information to communicate that I do not approach the prophetic ministry in a casual fashion.

I take these things very serious. Also, I need to add that prophetic dreams and visions must NEVER conflict with the Bible. They can never take precedence over the authority of the Scriptures. They must be confirmed by the principles of Scripture.

As you may have noticed in # 9 above, at times I have received dreams from God that are personal in nature, meant for just me. In those types of dreams, God revealed that I was making a wrong decision or going in the wrong direction in personal matters.

While these types of dreams have been correctional in nature, I

thank God that He has taken the time to steer me, correct me, or even chastise me. This shows that I am His child and He is my Father.

*"Thy rod and Thy staff...they comfort me." Psalms 23:4*

And folks, this is the way that it should be. Those of us who are His children will be guided by Him. I say these things to help those who may wonder at my motives and also to answer any questions about this spiritual gift. Again folks, to be clear, prophetic dreams and visions are not a regular occurrence with me. I cannot force them.

### Dreams Begin

So let's get started; in the remainder of this report I am going to share several new prophetic dreams and visions of things that are approaching.

The prophetic visions and glimpses fall under several categories.

1. Earth changes – tsunamis and storms.
2. Signs in the heavens – meteors or comets.

I am going to begin with the category of *earth changes*.

Over the past several years, I have had approximately five different tsunami dreams. Some I have talked about and some I have not. When I pondered them, I have wondered if the tsunami dreams had symbolic meaning. I wondered if they were limited to just a spiritual meaning. I also wondered if they were literal and because I have not had a clear understanding of them, I have left them on the shelf waiting for clearance.

But now the time has come to share them. After you hear these things, please take this information to prayer. I consider these to be warnings from God of events that are approaching.

#### Tsunami Dream #1

One of the first ones that I had was about four to five years ago. In this dream, I was in Galveston, Texas. I was driving a van along the seawall.

When I looked towards the sea, I saw that a high wave was approaching the shore. As it advanced, I feared that it was going to come up over the seawall. I wanted to seek high ground. Unfortunately, I was surrounded by level ground. I looked ahead and saw that there was a bridge about a half a mile in front of me. The bridge went higher in elevation. I was determined to reach it.

But, before I did, the first wave hit. Its arrival spilled over the seawall. Immediately, the road was covered with water two feet deep. I kept driving.

Again, I looked towards the sea and saw a second wave approaching. It was much higher than the first one. It arrived quickly. When it hit, the water over the road was then about five to six feet deep.

My van continued to move through the high water without stalling.

As I continued towards the bridge, I looked at some of the buildings that were along the seawall highway. I saw a lumberyard. Many bundles of lumber were floating in water which had risen to about six feet deep. Next to the lumberyard was a refinery. It was also underwater.

I saw a third wave approaching. It was much larger than the others. It was about 15 to 20 feet high.

It arrived and poured over the seawall and the road. My van was overwhelmed under the wall of water. But amazingly, I was able to continue driving, even though I was completely submerged.

I finally reached the bridge and as it rose in elevation, I was able to drive out of the water. The bridge maintained its height and I was able to escape from Galveston and then go into Houston. When I arrived, I was notified that a storm and tsunami was approaching and was going to strike the entire area.

The dream was over.

After I awoke, I pondered it and I prayed about it. I wondered if the tsunami waves were part of a future hurricane that was going to hit Galveston. But when comparing tsunami waves to hurricane waves, the two are not the same.

In the dream, the tsunami waves arrived in increments of increasing height. In a hurricane, the floodwaters do not arrive in the same way. Hurricanes flood a coast land through "storm surge." A storm surge arrives as a consistent tide that rises gradually, not as incremental tidal waves.

After I had the dream, I was not sure what it meant, so I filed it away.

### **Tsunami Dream #2**

A few months later, I had another similar dream where I was again on a beach. But this time, I am not sure of the location. The beach had a seawall similar to the one in Galveston, Texas. It was about 20 feet high and was located about 300 yards from the shoreline. The beach had a large area for overnight camping. I was with my family. We were there to camp. We set up a tent and soon it was time to sleep. I decided to sit on the seawall and stay awake. I do not know why, but I did. After several hours of watching the nighttime surf, I saw that the shoreline had defied its boundary.

A wave approached and began overtaking all of the sandy area of the beach. It was not a very large wave, about six inches high, but it arrived quickly. It did not stop at the shoreline. It flowed over the sand and approached our campsite which was about 200 yards away from the shore.

I watched all of this happen from the seawall and became alarmed. I ran down to where our tent was to awaken my family. I arrived there about the same time that the water arrived. My family woke up soaking wet. We tried to grab some of the equipment but it was too late because there was about six inches of water all around the tent.

As quickly as we could, we all ran towards the seawall, which was about 100 yards away. We safely arrived and climbed to the top just in time to see the next tsunami wave approaching. It was about five or six feet high and it had enough force behind it to overtake all of the beach area and pound against the seawall.

We feared that another wave was coming and ran to our vehicle. I trembled with fear as I started the car. We needed to get out of there! As I looked towards the ocean, I could see another wave rising in the feint light of the nighttime sky.

It was a large tsunami wave that was approximately 20 to 50 feet high. I watched it rise higher as it approached. I trembled in horror because I knew that we would not be able to outrun it.

The dream was over.

### **The Meaning?**

I woke up trembling and was relieved to know that it was just a dream. That was my second tsunami dream. They were both very real. I can still remember the vivid details. They both involved a seawall. The first one was in Galveston, Texas, the second location, I am not sure.

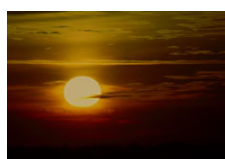

Over the past few years, I have not known what to make of these two dreams. Thus, I have not really spoken about them. But as I have pondered them, I have wondered if they were symbolic, representing God's judgment which is arriving in a continual manner or something else.

When I initially had them, I prayed about them but I did not receive clarity. By the way, this does happen at times. God is on His own schedule, not ours. Sometimes the clarity does not come as quick as we would like. This is why we must continue to seek Him when we desire answers.

But regarding these two tsunami dreams, I have wondered if each approaching wave meant that the judgment will become progressively violent as it continues. I thought this because the first wave brought the floodwaters inland about six inches; a mild beginning. But then, the second wave was five to six feet high. The third one was 25 to 50 feet high. The increases were huge! This why I haven't spoken about them. I did not wish to talk about them out of turn or incorrectly. But as I now examine them, it is apparent that they signify several things, including the arriving judgment.

Unfortunately, I am now concerned that in addition to representing the present judgment, they are also a warning that there may be a literal tsunami event of this kind in the future! But first, I must explain something.

### **God's Secret of Two Dreams!**

Ladies and gentlemen, I am about to share a secret about our God. In the Scriptures, we are told that God speaks to us in dreams. In the Book of Job, we are told that one of the signatures that reveal that a dream is from God is when we receive it more than once.

*“For God speaketh once, yea twice, yet man perceiveth it not. In a dream, in a vision of the night, when deep sleep falleth upon men, in slumberings upon the bed; Then he openeth the ears of men, and sealeth their instruction,” Job 33:14-16*

According to this passage, we are told that at times, when God speaks to men, they do not get it! Most people are too hard-headed to understand and perceive!

So to send the message a little stronger, God then will speak to us in a dream or a vision in the night. And to show us that it is a “God Dream”, He sends it to us twice!

“For God speaketh once, yea twice...

Why? Because He loves us and wants to communicate “instruction” to us.

*“...Then he openeth the ears of men, and sealeth their instruction,”*

This exchange occurs for those that *“have the ears to hear!”* God will open the ears of those who are primed to listen. Having open ears is the goal that all of God’s people should strive towards. I am thankful that when we do not always perceive what God is saying to us, He sends the message again.

After I had the two tsunami dreams, I spent time asking God for an answer to the dreams meaning. Time passed with no reply. But then after several years, God began to show me more! This goes to show that God answers on His schedule, not ours.

*(Note Edit - In my recent program News from the Wall 17 part 4, I mentioned that my next dream happened approximately a year ago, in January or February of 2013 but upon examination of my journal, this next dream occurred last September of 2012. So it was a little over a year ago*

### **Tsunami Dream #3 - Sports Authority**

In answer to my prayers, God gave me another tsunami dream. But in this one, I was in New York City. I was in a car and I was driving through the crowded streets of Manhattan.

In the dream, I knew that a tsunami was coming. I knew it would bring a flood. I was feeling very rushed. As I drove around, I was looking for a store called **“The Sports Authority.”** This store is part of a nationwide chain that sells camping gear and sporting goods.

I continued to navigate through Manhattan but I did not know where the store was located. I just knew that I needed to find it. I remember that I was looking for the Sports Authority that was red. I was not sure if it existed but I was trying to find it.

I also remember that red was an important color that was associated with this store.

Since, I didn’t know where it was, I was randomly driving through the streets of Manhattan. As you can imagine, the town is very busy; it is not easy to maneuver and navigate.

Suddenly, a flooding wave arrived. Instantly, the water on the

Manhattan street was two feet deep but my car did not stall. I continued to drive looking for the Sports Authority.

The dream was over.

### **What did it mean?**

After I woke up and thought about it, I went online to find out what **The Sports Authority** buildings look like. I searched online to find if there was a Sports Authority store located in New York. It turns out that there are several.

I also wondered what significance **red** had to do with this store. Looking back, I have noticed that many times when I have had prophetic dreams, the color red seems to be a significant color in the dream; whether they are buildings, houses, vehicles or trains.

I have wondered about this. I have made it a matter of prayer, as I sought insight; I went to the first place to find answers – the Word of God!

According to what I found in the Bible, the *color red* represents several things. As I shared in the past when we discussed my derailed train vision; red has a lot of meaning.

### **The Color Red Signifies Judgment!**

*“For in the hand of the LORD there is a cup and the wine is red. It is fully mixed and He pours it out. Surely its dregs shall all the wicked of the earth drain and drink down.,” Psalms 75:8*

This verse gives us a glimpse of the cup of iniquity. The Cup of Iniquity represents the divine cup that contains the sins of a nation. The cup of iniquity has red liquid in it. And it is because of this “red” liquid that God judges a nation. This means that “red” is associated with the Judgment of God!

### **The Color Red Signifies Evil!**

Red also represents evil. In Revelation Chapter 13, the dragon that was *red* gave authority to the Beast. The dragon represents Satan, but is Satan actually red? No. But the imagery of the end times has very important symbolic terminologies. Every word in the Bible is in there for a reason and the description of Satan as the red dragon has many layers of truth.

In the context of the Book of Revelation and end time prophecy, during the Great Tribulation, God is going to allow Satan to be used as one of the tools of His divine judgment. The color to describe Satan in this particular instance is red. Thus, the color red represents the judgment of God.

### **The Color Red Signifies War!**

During the tribulation period, some of the symbolic imagery of Scripture makes note of several colors.

Revelation Chapter 6 reveals the Four Horsemen of the Apocalypse. These horsemen are represented by different colors; a white horse, a black horse, a red horse, and a pale horse, which is actually green as noted from the original Greek word,

"chloros."

When we look at the Four Horsemen of the Apocalypse, the red horse represents the sword. This red horse in Revelation is going to be responsible for worldwide mayhem and death through war. We can read about this in Revelation 6:3.

*"When he opened the second seal, I heard the second living creature saying, 'Come, and see. And another horse, fiery red, went out. And it was granted to the one who sat on it to take peace from the earth, that people should kill one another. It was given to him a great sword.'"*

During the tribulation period, there is going to be much grief and sorrow. The fallen will consist of billions of people!

### **The Color Red Signifies the Color of the Beast!**

Revelation tells us that the end time Beast is red.

*"So he carried me away in the spirit into the wilderness: and I saw a woman sit upon a scarlet coloured beast, full of names of blasphemy, having seven heads and ten horns." Revelation 17:3*

According to the verse above, we are told that the color of the end time New World Order will be red. Why? Because it will contain the spirit of great darkness which will vex the inhabitants of earth.

### **The Color Red Signifies The Woman - Mystery Babylon!**

Revelation tells us that the end time Beast is red, i.e. scarlet.

*"And the woman was arrayed in purple and scarlet colour, and decked with gold and precious stones and pearls, having a golden cup in her hand full of abominations and filthiness of her fornication:..." Revelation 17:3*

The passage above tells us that Mystery Babylon is arrayed in "red." How appropriate this is for America. The nation that produces so many abominations!

*As a side note, Revelation also gives us a hint to the identity of the Woman - Mystery Babylon in Rev. 18:6*

*"And saying, Alas, alas, that great city, that was clothed in fine linen, and purple, and scarlet, and decked with gold, and precious stones, and pearls" Revelation 17:3*

Translation of the colors:

1. **Fine linen** – White

2. **Purple** - from the Greek word: *porphyrous* meaning a deep bluish purple. This color was obtained from very expensive dyes which were obtained from several species of mollusks found in the Mediterranean. The color range of this ancient purple was reddish purple to a deep blue depending on the amount of dye that was used in the process. The US flag is not a regular blue, but a very deep blue with a hint of purple.

3. **Scarlet** - Red

In other words, the colors of Mystery Babylon, are "red, white, & blue," which are the same colors of "Old Glory," the American flag.

I do not wish to digress from the main theme of this message, but I find these things very interesting when decoding the identity of Mystery Babylon.

### **The Color Red Signifies the Blood of Jesus!**

When Jesus shed His blood and died on the cross, there were many fulfillments of biblical types and shadows. Here are a few:

1. Jesus was the Passover Lamb who shed His blood.
2. At the time of the Exodus, Moses was instructed to tell the children of Israel to place blood on the threshold of their doorposts so that the Angel of Death would pass over them.
3. When the Children of Israel escaped Pharaoh, they had to first pass through the "Red Sea." This was a symbolic foreshadow for us, that to escape the world, we must first cross our Red Sea, and leave Egypt behind us.

Our salvation was made possible only because of the shed blood of Jesus; and the deliverance that comes from God is also represented by the color "red"; and we must all cross the Red Sea by faith.

So while red represents judgment, it also represents salvation and deliverance.

### **Red Sports Authority – What did it mean?**

But back to the last dream, when I had it, I was looking for *The Sports Authority*, which was associated with the color red. Why?

In addition to the imagery found in Scripture, "red" also represents many other things. Here are some of the other meanings:

1. Communism
2. Severe Alert
3. Bloodshed
4. Emergency
5. Warning & Danger

This is just a brief listing of additional meanings. The color "red" in the dream also symbolized some of these things. My conclusion is that there is a multi-layered message in this dream.

### **Time to Get Ready!**

The Sports Authority Store represented getting prepared before the judgment arrived. In the dream, I was focused on finding this store because I needed to obtain my provision. As I drove around Manhattan, I knew the time was very

short.

But before I had a chance to find the store, the waters of the tsunami arrived! The first arriving wave was only two feet high and I could sense that another wave was approaching. However, the dream ended before I had a chance to see to extent of the next wave.

In the dream I was trying to get ready but I failed. And folks, this is a part of the message that I must share with all of you. All of us need to make sure that we are ready! Unfortunately, most people are not prepared for what is coming. They have not taken the time to locate their spiritual provision; the Blood of Jesus!

Many people have their priorities wrong! There are some preppers who are focusing entirely on natural things.

Everyone reading these words needs to be focused on obtaining their spiritual preparations first and then their practical preparations. I need to stress that I am not saying that practical preparations are not important, they are. But only after finding spiritual preparations.

So how about you, my friend, have you done this? Are you prepared and ready? Or will the floodwaters arrive while you are shopping for your stuff?

...A lot to think about, to be sure.

Now as a quick recap, so far I have shared three tsunami dreams.

1. Galveston, Texas – wave height - 15 to 20 feet
2. An unknown beach with a seawall - wave height - 20 to 50 feet.
3. Manhattan, NY - wave height - two feet. Another wave approached with unknown height.

After I had the third dream, I asked God about it but I did not receive an answer. So I filed it away with the others.

#### **Tsunami Dream #4 - Much Worse**

A few months ago, I had another tsunami dream. This one contained more dread. In this dream, I was in the dining room of a condominium that was located on a beach. There were sliding doors next to the table where I was sitting. Beyond the sliding door was a sandy beach

and then the shoreline.

As I sat at the table, I looked over to the shore and I saw that a wave about two feet high was approaching; it quickly traveled over the sand and arrived at the condo. Before I had a chance to say anything, the wave hit the sliding door, which was closed. The arriving water was about two feet deep outside of the sliding door. But it did not recede.

As I looked through the sliding door, I saw another wave approaching. It was about six to eight feet high and like the one before it, the wave crashed into the sliding door. It also did not recede. The water was almost to the top of the sliding door. The glass resembled looking into an aquarium filled with water – the sliding door did not leak.

I stared at the display of water pressing against the glass when something else caught my attention. Above the water line, I could see the horizon. The site brought shock and panic. Another wave was approaching. It was huge!

I watched it rise in the distance until it appeared to be about fifty feet high.

I thought to myself, “I need to get out of here!” My heart was beating hard with anxiety. Unfortunately, I knew that it was too late to leave the building because outside of the condo, the water was already six to eight feet deep. There was no way that I could drive away.

The condo had two floors. I thought to myself, “I’d better get to the second floor!”

But before I had a chance to run up the stairs, the large wave hit. The entire building shook, but it did not leak. Not yet at least! When I arrived at the second floor, I looked out the window. The condominium was totally underwater.

Panic overwhelmed me! I did not know how to get out! I was trembling. I was terrified. The fear of being trapped woke me up! I realized that it was only a dream. It took a few minutes for my trembling to subside. I then started thinking about it.

As I lay there, I prayed and asked God, “Lord, what are You saying to me? What is the message? Is this a continuation of the judgment dreams? Or, is this thing literal?” Because this dream appeared real! It felt real!

Like the others, I did not know what to make of it, so I filed it away.

#### **Tsunami Dream #5 - Bigger Still!**

Several weeks ago, I had another one, for the fifth time!

It was similar to the last one. I was once again in a condominium in a similar location. It could have been the same condo. The only difference was that I had my furniture set up in the condo, so I guess I was staying there. I find this odd because I have no

desire to live in a condo on the beach!

But there I was, when like the previous dream, the same thing happened. I was looking through the glass of a sliding door as the first wave approached; it was about a foot high, but this time the sliding door was unable to keep the water out.

Water poured into the condominium and very quickly there was about a foot of water in the first floor.

I looked through the sliding door and I saw a huge wave approaching. It was very large, fifty feet or higher! I knew what it was going to do! I started running up the stairs and like the previous dream, when the large wave arrived; the condo was entirely under water. I was terrified and I woke up.

#### **Five Tsunami Dreams! Why?**

This makes five tsunami dreams that I have had over the past several years. Initially, I thought they were symbolic in their meaning. But now, I am troubled that they contain much more than a symbolic message! I am concerned that they are a warning of a literal event that is approaching in the future.

**I would like to visit this possibility for a moment.**

The first dream occurred in Galveston, Texas. The wave levels were 15 to 20 feet high.

Dream number three occurred in New York City. The observed wave was two feet high.

Three of the dreams, numbers 2, 4 & 5 did not reveal where I was located. I could have been anywhere in the United States.

So here's the question - *Is a tsunami event in the future for the United States?*

If so, what could cause such a thing? We know that tsunamis are caused by earthquakes, as we witnessed a few years ago in Japan.

Another question - *Was the Galveston tsunami dream related to the New York City tsunami dream? Is this a hint that it is the same event?*

And if so, *is it possible that a tsunami event could effect this much US coastline?*

If we look at a map of America and isolate the areas between Galveston and New York City as potential affected zones, what does this mean for the in-between areas, like the Gulf States or the Eastern Seaboard?

Based on the map, in order for a tsunami to affect Galveston as well as New York City, the earthquake would have to occur beyond the eastern side of Florida. This means that it would have to occur in the Caribbean area or the Atlantic Ocean.

I don't know. But as a watchman, I felt that I needed to share this information with you.

As I stated, the last two dreams did not reveal where I was located. I could have been anywhere in the United States. But the area had substantial damage from very high tidal waves, over 50 feet high!

This has me wondering if the last two are related to the first dreams. If so, could they have occurred in the areas between Galveston and New York?

Folks, please know that I do not enjoy talking about these things because some of you live in those areas. But as a watchman I must. So please take these matters to God. If a major tsunami event is in the future for America, I believe that God would send us warnings in advance.

### **What would be the Cause? More Questions**

The big question that I have is what would be the cause of such an incredible tsunami? If an earthquake were to occur somewhere in the Atlantic or the Caribbean, how powerful would it have to be for the tsunami to affect such a large geographical area? Also, could an earthquake be powerful enough to affect the plates that are located in the Gulf of Mexico?

What about the New Madrid Zone? Or the Eastern Tennessee Seismic Zone? Or some of the other fault lines located in the Carolinas or Virginia, or even some of the ones in New York?

These are the questions that I ask. I'm bringing them up because my train derailment lines do go through the New Madrid Zone, as we have talked about on previous programs. They also go through the Eastern Tennessee Earthquake Zone.

If these prophetic dreams were literal and a tsunami is going to strike those areas, is there a possibility that some other event could cause a tsunami besides an earthquake?

### **A Different Dream – A Meteor**

This brings me to another prophetic dream that I had about a year ago. In this dream, I was standing outside at night. I'm not sure of the exact location but I have a feeling that it was Idaho.

I was looking up when I saw a meteor travel across the dark sky. The meteor was very large, bright, and it was green. I saw it travel from one end of the horizon to the other. The meteor was huge. It appeared to be as big as the moon as it went across the sky.

I remember thinking it odd that the meteor was green instead of orange. It left a long trail of light that slowly faded.

The dream was over.

I have not spoken about this one, I have kept to myself. But now I am sharing it. And because of today's topic of tsunamis, I have been wondering if it is possible that in our future, a meteor or asteroid - *Near Earth Object* will play a role in the future events of our planet.

One reason that I bring this up is that over the past few months, there has been an abundance of reported meteor sightings. This is happening across the United States, and in particular, the Midwest.

It makes me wonder if there is something going on in the heavens! I know that Comet-ISON is out there and very soon it is going to slingshot around the sun and then it's going to approach in our direction. There are many people wondering if ISON is going to affect us. I am wondering the same thing. At minimum, I wonder if ISON is going to be a sign in the heavens.

I also wonder if ISON has an entourage. Are there other space rocks and meteors that are traveling along ISON's trajectory? If so, could some of the debris affect the earth?

I am reminded of the meteor that struck Russia a year ago. It was very dramatic. The sonic boom was intense and actually inflicted damage to buildings. People were also injured.

That is substantial! Meteors do not usually cause injuries to the scale that we saw in Russia.

Right now, we are in an envelope of time where the heavens are declaring that something is going on. I believe that the heavens are saying, "*We are in the end times, so buckle your seat belts!*"

My friends, today in this late hour, God's people must seek to be able to hear what the Holy Spirit is saying to them. We must have the eyes to see any signs that God is sending in the Heavens. We must be able to overcome the blindness of the Pharisees who could not discern the signs of the times!

Eventually the tribulation period is going to be taking place on planet Earth. One the prophesied cosmic events will be when Wormwood, the flaming mountain, falls from the heavens and lands in the sea. Wormwood will be an asteroid - space rock!

With this in mind, I am watching the heavens for the possible signs of its approach.

Am I looking too soon? Is the tribulation near or far? I'm always watching my friends.

I believe that the hour is late and we all need to be watching what God is saying to His people.

Here in America, God saying many things. As watchman on the wall, I am bringing the report of the present season that we may all become ready.

To those that have the eyes to see and the ears to hear...

God Bless you and may God have mercy on all of us,

Nathan Leal

## Prophetic Warnings of Things to Come – The Coming Invasion by China and Russia

By Nathan Leal - November 13, 2013

In this session, we are going to talk about the approaching invasion of the United States by China and Russia. I know that at first glance, this proposal may seem preposterous. The USA has not been physically invaded by opposing troops since its early beginnings, many years ago.

But ladies and gentlemen, this is going to happen in America's future and I share these things to alert and challenge everyone who has *the ears to hear* so that they can prepare themselves.

Folks, it is coming! An incursion is in store for **Mainland USA**. It will result in the occupation of foreign troops on US soil.

Most Americans cannot fathom that such a thing could ever take place, but Jerusalem also thought the same thing before they were invaded by Babylon in 587 B.C.

*"The kings of the earth, and all inhabitants of the world, would not have believed that the adversary and the enemy could enter the gates of Jerusalem."* Lamentations 4:12

I have seen these things prophetically and as a watchman of God, I must warn as many people as possible that this chapter is in the later pages for America. As you read this warning, please take these matters to God for insight on what you must do to prepare.

For those that are paying attention, it is obvious that the USA is in the midst of great turmoil. Right now, the country is in a downward spiral. The regime is immersed in perpetual scandal.

This is occurring in more ways than we can count!

1. ObamaCare is turning out to be the bureaucratic blunder of the new millennium. At its very core, it makes no sense. It is laced with lies, inconsistencies, and fraud. It also appears that it will play a role as one of the incendiary devices that will ignite America into revolt and chaos.

2. A suicide debt-bomb is strapped to Uncle Sam. But most

Americans are clueless and do not seem to care. Little do they know that debt bombs create a wide swath of destruction when they detonate!

3. The world is discovering that the USA has an insatiable thirst for voyeurism and enjoys spying on people throughout the planet. Uncle Barak's - NSA has **big eyes and ears** to **see and hear** your every move.

For those who may be opposed to "**Operation Peeping-Tom**," do not complain. These measures are intended to keep America secure.

By the way, do you get *warm fuzzies* at the thought of predator drones flying over your house while you sleep?

### Losing Patience

The other nations of the world are losing patience with America's Orwellian antics. This is falling in line with Bible prophecy. The Book of Revelation tells us that in the end, *The New World Order* - *Beast* will "hate" the woman - *Mystery Babylon*, and will eventually destroy her and burn her with fire;

*"And the ten horns which you saw on the beast, these will hate the harlot, make her desolate and naked, eat her flesh and burn her with fire."* Revelation 17:16

This will be the subsequent fate of the United States of America - **fire and destruction!**

Presently, Obama's strategies are resulting in irritating many nations who were once our friends. This is not a slow trend. It is on a fast-track and it is gaining momentum.

Just recently, Saudi Arabia began severing diplomatic ties with America because of Obama's policies that gravitate toward terrorist enemies.

Obama is aligning with terrorist groups; The Muslim Brotherhood, Al Qaida, Al-Nusra, and others.

The White House is being infiltrated with members of the Muslim Brotherhood -

Obama has been secretly lifting Iranian sanctions, thus alienating Israel as an American ally.

I am not saying these things to just “bash” Obama. I am sharing this information because they are evidence that Obama is willfully destroying the

last vestiges of diplomacy that respect our Western Allies.

### The Truth is the Truth!

This report is not about politics. It is about the truth! The evidence speaks for itself. And the truth is going to affect all of us in the coming future!

Ladies and gentlemen, I am not saying this as a Democrat or a Republican, I am saying this as a God fearing American Citizen; ***the Obama Administration is***

***taking the USA into an area that borders on insanity!***

There will be ramifications for these things! They are not occurring in a vacuum and once they are complete, they will be difficult to undo!

Conclusion – America is being led into an abyss and her future is in jeopardy! Why is Obama doing this? How many saw it coming? If you are awake, most likely, you did!

I warned about this five years ago, when Obama was given the first election.

I remember receiving hate mail back then that accused me of vocalizing sour grapes. But folks, these are not just sour grapes! The madness of the present regime will result in the “Grapes of Wrath” for America!

...Grapes of wrath, folks!

...Grapes of divine judgment!

The Bible reveals to us that when God judges a nation, He allows the nation to be attacked by their enemies. This is called the “sword” judgment.

*“If you are willing and obedient, You shall eat the good of the land; But if you refuse and rebel, You shall be devoured by the sword”; For the mouth of the LORD has spoken.” Isaiah 1:20*

I could spend a lot of time giving a biblical explanation of the sword judgment, but I have many programs that have touched on this topic.

### Raiders from Far Away Lands!

My friends, the bottom line is this; the future of America is going to experience carnage from raiders of another land. The invaders will not have mercy: neither will they respect the Constitution of America.

They will give allegiance to a strange god from a faraway place. And they will be influenced by evil spirits of violence, deception,

and corruption.

How can these things be? The reasons are many....

...70 million aborted babies!

... A plague of sexual deviancy!

... A backslidden nation...

... The people of God with memory loss...they forgot their God!

The reasons are many!

...The remedy is ignored... still they would not repent!

...The steps are in motion...

...The tally awaits...

...The enemies are sharpening their swords!

It is apparent that Obamas has chosen his allies – the scimitar wielding terrorists! And because of these actions, America is going to be invaded by her enemies as a part of the judgment from God.

Sadly, it does not appear that these things will be stopped. I have addressed this in the past. Therefore as those who are awake, my suggestion is that we prepare for the approaching consequences.

As I begin and share this warning, I want to make it clear that I do not have a specific date of arrival. However, based on the deterioration of America’s foreign policy, the wheels are in motion for their eventuality.

As a watchman of God, from time to time, God shows me things in prophetic night visions. I explain the details of this spiritual gift here.

Over the past few years, God has allowed me to see several prophetic glimpses of invasion and war that will take place in the United States of America.

Ladies and gentlemen, I saw America invaded by foreign troops and I will now share these prophetic visions.

### Invasion Dream #1

This dream occurred several months ago, on August 10, 2013. It was very disturbing. In this dream, God showed me one of the battles that is coming to the United States.

When the dream began, I was in Colorado Springs, Colorado. It was evening. I was at the foot of Cheyenne Mountain which is located in the western part of the city.

An air war was taking place above me. It involved US Air Force jets which were flying back and forth in the evening sky. Their elevation was not very high, perhaps a few thousand feet. I could see their markings as they flew by.

I remember noticing that a third of them were red, a third of them were white, and a third of them were blue. So, they their colors were red, white, and blue. In the evening sky, that had a partial glow to them.

The air battle was against what appeared to be Russian MIG's. I could not tell if they had Chinese or Russians pilots, but it was a very engaging battle. Our Air Force jets seemed to be able to maneuver faster than the MIG's but the MIG's appeared to have more strength.

As the battle took place, some of the Air Force jets flew towards the east into the horizon and dropped bombs in the distance. From my vantage point, this would have been towards the plains of Eastern Colorado or even towards Kansas.

I found it odd that our Air Force was dropping bombs on American soil. I guess, that meant that there were invading forces in the distance of the east. I could not see the enemy troops on the ground. I just saw the explosions in the far distance. I assumed that they were from either China or Russia.

As I was watching the air war continue, I saw an enemy missile approaching from the east. It was traveling very fast.

I was expecting it to be shot down but it was not. It continued towards Colorado Springs, where I was standing and approached the top of Cheyenne Mountain.

#### - NORAD

Colorado Springs is the location of a fortified nuclear bunker called **NORAD** – which stands for the ***North American Aerospace Defense Command***.

This is the North American missile shield complex that is located in a bunker in Cheyenne Mountain, Colorado.

Cheyenne Mountain is located on the western edge of Colorado Springs, near Fort Carson. For those who may remember, **NORAD** was featured in the 1980s movie *War Games* with Matthew Broderick.

In the movie, Broderick's character accidentally hacked into NORAD's computer to play video games. This resulted in the NORAD computer almost starting World War 3. **Here are a few details about NORAD.**

As the dream continued, I saw the incoming missile approach this installation on Cheyenne Mountain. It did not hit the side of the mountain but it flew over the top and exploded over the peak. I saw the bright flash of the detonation. From where I was, could not see a mushroom cloud, so I am not sure if it was a nuclear missile. It appeared to be some sort of bunker buster intended to take out the missile shield of America. Whether it was successful, I don't know.

A point of interest, since the NORAD facility is so heavily fortified, it would be difficult for a bunker buster to damage it. Perhaps in this dream, Cheyenne Mountain represented America's defenses which were under duress and attack.

#### - A Widespread Battle

While I was watching the air battle, I got on my cell phone and called a friend who lives in Northern Idaho.

He answered.

I said, "Hey, are you seeing this? Can you see what I see?"

He said, "Yes, I can see the air battles taking place from here in Idaho. I'm watching it also."

This revealed to me that air battles and war were taking place from Colorado all the way to Northern Idaho.

This meant that the United States was under a large scale invasion because if war was taking place from Colorado, which is a fortified inner part of the US, and also in Idaho which is considered the inland Northwest, this would mean that the coastal areas of the USA were also under attack or had already fallen to invading forces!

I was disturbed by this. In the dream I felt adrenaline, panic, fear, and sadness that this thing was taking place. The United States was being invaded.

Suddenly, the scene changed. I was no longer watching a war. It appeared that the dream fast forwarded into the aftermath of the war.

#### - Chinese Propaganda Campaign

I found myself inside of a public building. I don't know where the building was located. It's possible that it could have been in Idaho where I live, or it could have been in Colorado. I'm not sure, but I was in some type of public building. It appeared to be either a school or a community center.

I was in the hallway area that was fairly wide and able to handle a lot of traffic just like a school hallway would.

This event was a gathering of the public. It resembled what you would see on an election day where there are helpers and volunteers who sit at a table and hand out the buttons that say "I voted." This was a similar scenario.

There were four to five folding tables set up in the hallway. Each table had three to four elderly volunteers who were handing out brochures. The brochures were a part of a PR campaign to explain to all of the US citizens why Chinese soldiers were now in the United States.

The information was meant to put everybody at ease that the Chinese soldiers were here to be our friends and to help us. It explained that the soldiers meant us no harm and were in the US to do good things!

I looked down and read one of the brochures. After a moment, I looked back up. When I did, I saw several Chinese soldiers standing along the wall behind the tables in the hallway.

They were standing at attention. They were dressed in black tactical gear. They were carrying weapons. But they did not speak. They were just standing at attention...motionless!

I found myself getting angry and I raised my voice at the site of the soldiers.

I asked the elderly volunteers who were sitting behind the

table, *"What do you mean they're here to help? These soldiers are here because of the war!"*

The words were deliberate.

*"...They are here because of the war!"*

In other words, they were here to occupy us. They were not here for peaceful means. The elderly volunteers tried to convince me that the Chinese troops were only here for humanitarian purposes. I did not believe any of their words. In my heart, I knew that the intentions of the Chinese soldiers were to conquer and occupy.

The dream was over.

### The Meaning

Ladies and gentlemen, this prophetic dream was a glimpse of what is coming to America. Eventually, the United States is going to be invaded by China and find itself in a *Red Dawn* scenario.

This is the warning; at some point in the future, America is going to experience an invasion by Chinese forces.

After they are here, they are going to be able to convince the general population that their intentions are noble and humane!

I know that this does not seem possible, but after their arrival, they are going to be able to execute a successful PR campaign that will win over the senior population of America.

How can this be? At this moment, I can only speculate but perhaps they will do this by making promises of benefits for the elderly. Perhaps, it will be a promise of "Health Care" and / or "Retirement Benefits."

According to my prophetic glimpse, the senior population believed it. They believed it enough to promote the presence of the Chinese.

But I didn't believe it. I found myself angry with the proposal. One thing that I have noted is that the emotional response that I experience during a prophetic dream is usually the response based on true discernment.

I was angry with the lack of vigilance from the elderly because I sensed that they were accepting a lie. And worst, they had willingly enlisted themselves to promote their future imprisonment under Chinese occupation.

To me, this thought is disturbing and makes me sad. I do not want this future for my children. But unfortunately, this future is in store for America.

Can it be stopped? Yes.

Will it be stopped? I know that I say this a lot, but no, I don't think so.

America's momentum towards this judgment has traction, speed and a considerable amount of current that is driving it towards this end.

So, when is an event like that going to take place? I don't know, but because of the Chinese occupation that resulted in the previous dream, I must now share another night vision that I had about a year and a half ago.

### Invasion Dream #2

In this prophetic dream, I was in Dallas, Texas visiting a Bible College. At this point in time, I will leave the college unnamed. Perhaps I will mention its name in the future.

I was visiting the college to attend one of their chapel services. The sanctuary was full. It held about 1,500 hundred students. I entered the sanctuary from the very back of the building and when I walked into the chapel area, there were Chinese soldiers standing shoulder to shoulder along the back wall of the chapel. There were approximately 50 to 100 of them.

All of them were carrying automatic weapons and were dressed in black tactical military gear. Their outfits were the similar to what the soldiers were wearing in the previous dream.

As I entered the chapel through a side door by the back wall, I saw all of the soldiers. They were lined up along the back wall. They all stared forward and had no emotion.

To find a seat I needed to walk past them. My seven year old daughter was with me and walked in front of me. Walking in front of my daughter was an elderly lady about 75 to 80 years old. She walked very slowly.

### - A Crushed Foot!

As she passed the long line of soldiers, one of the soldiers lifted his knee into the air and brought his heavy boot down on the ladies shoe.

It came down hard and crushed her foot. As he did it, He said nothing. He also had no expression.

She fell into the back of the seats in severe pain. As this happened, I became upset and was going to check on her but at the same time, another soldier shoved my daughter and push her into me.

Between these two things, I became angry at their bullying. I got into the soldiers face and started yelling, *"Why did you do that? She's just a little girl?"*

I stepped back and continued, but I began to address all of them.

I said, *"What are you doing here? You have no business in our country."*

I continued my words to them but they did not respond. They had no emotion and were almost robotic.

After I yelled at them for a few moments, I turned toward all the people who were sitting in the audience.

I began to address them in a loud voice, "People! Can't you see what's going on? Doesn't this bother anyone? The Chinese soldiers are here!"

Then I said the same thing that I said in the previous dream, *"They are here, because of the war!"*

I had much passion as I spoke. One of the teachers of the college walked over to me and tried to calm me down. He attempted to dismiss the presence of the soldiers. He told me that the Chinese Soldiers meant no harm and were here to help us.

### - Blindness and Apathy

I could not believe what I was hearing.

I said, “*Are you serious?*”

I knew that what the teacher was saying was not true because I witnessed the aggression of the soldiers with my own eyes. They crushed the foot of the elderly lady and they shoved my little girl for no reason.

The teacher’s false words made me angry.

I answered him, “How can you be so blind?”

I then began trying to get the attention of the students to warn them, but most of them did not even look at me!

Those that did only glanced for a brief moment but then went back to what they were doing; *talking to one another, texting one another.*

The students acted like zombies without a care in the world. In this Bible College, no one seemed concerned that Chinese soldiers were with them.

Then the dream was over.

### The Meaning – Why Were Soldiers in a Bible College?

After I had this dream, I kept it to myself for a while.

When I first had it, I did not understand why Chinese soldiers were in a Bible College.

I was puzzled that they were able to convince the college administration that it was okay for them to be there.

What did it mean? I asked God. I prayed about it.

This is what I’m able to conclude thus far. As we watch the present downfall of America, we can also see that there is a spiritual stupor that has taken over the country.

As I have shared in the past, spiritual slumber and blindness always works in concert with God’s judgment over a people. Those that are blind cannot discern the signs of the times. This is why so many of them reject the warning

message. It is because they cannot see.

If you happen to be reading this alert and find that you are struggling with the authenticity of this warning, please inventory your spiritual condition. This warning is for those that have the eyes to see.

I apologize that these words are blunt, but folks, the hour for America is very late. The aggressors are sharpening their swords.

Those who can see ... will see!

Those who cannot see will accept the coming occupation. The

invasion event is going to take place with a citizenry that is plagued with spiritual slumber, blindness, and apathy.

Folks, the plague of blindness is underway and is already reaching pandemic levels. And how true this is, when we observe how the administration has already been able to lead the country into desolation without a viable challenge!

### - Trojan Horse Obama

In five years, Obama has managed to enter America as a Trojan horse and dismantle the country. Sadly, half of the population is happy about it and many of them have no clue that it’s going on. And the other half? Many of them are snoozing away, too drowsy to notice their impending doom.

But I am noticing it! This is why I am releasing this alert...  
...*To him that has the ears to hear!*

In my prophetic dreams, I saw the elderly population under a spell, as well as members of the church.

A Bible College represents the leadership of the church as well as the future leadership of the church. In my dream, none of them cared.

### - How can this be?

Ladies and gentlemen, in this late hour a powerful spirit of deception is hovering over Nation America with devouring success. It is lobotomizing the minds of many people and it is happening before our very eyes, even right now.

This is one of my continuing challenges. Please do not allow yourself to be overtaken with apathy and complacency.

Apathy is a very strong power that will not easily release its grip, once it has taken hold!

### Why the Occupation?

In the span of a little over a year, I have had two prophetic dreams that revealed Chinese troops occupying America. It leaves me with questions about the scenario that would bring this about.

1. What would cause such a thing to happen?
2. How could a fortified country like America fall to invasion? The USA is a superpower. So would an invasion occur by conventional means or by something unconventional that involved deception?
3. Will the Chinese be initially invited to come in to help us?
4. Was the air battle that I saw the result of a surprise invasion?

5. Will the Chinese initially come in under the guise of peace? In other words, will they enter America under the façade of UN humanitarian workers?

6. If so, would the Chinese troops enter America to help us, feed us, or rescue us?

7. Will America experience a future event where we will ask the Chinese for help to bring order? If so, what would the event be?

- An EMP? Grid down?
- A natural catastrophe?
- A massive tsunami?
- An earthquake?
- A terrorist attack?
- Civil unrest, Mayhem, Civil war?
- A pandemic or plague?
- An earth change event?

Is it possible that the Chinese would enter the country under one umbrella but then as a Trojan horse, reveal their true intent?

I know that I am asking a lot of questions but I am doing so to ponder how this could happen. Presently, I do not have all of the details about “how.” My prophetic dreams allow me to see *bits* and *pieces* but not the whole thing.

I’ve been holding on to these visions for a while but now, I have witness that it is time to share this information.

It’s time to sound the alarm!

It’s time to let Americans know that the days of this country are numbered and that eventually, the future is going to be very dire!

### - The Old and the Young

When the Chinese soldier crushed the foot of the elderly women and then shoved my daughter, it revealed something. When I shared this message on the *Hagmann & Hagmann program*, Doug Hagmann commented that this revealed that the Chinese incursion was going to conquer and overcome the young people as well as the old people in America!

And folks, how true this is! When the invasion occurs, it will strike a crushing blow to the feet of the Nation. America will not know what hit her or how it happened!

The invasion will be swift, quick and hobble the Nation of America! It will also have the strength to push over the youth of the nation!

Will there be a resistance? Yes, I will talk about it later in this alert. My friends please be watchful. The changes are in motion!

Today in late 2013, America is already wounded. Uncle Sam is in intensive care. And this has been accomplished without the firing of one bullet.

Sadly, this nation is not ready for what is coming, and most Christians are also not ready for what is coming!

### Invasion Dream #3

But moving on, I don’t believe that we’re going to be limited to Chinese troops. Over five years ago, I had one of my first prophetic dreams about foreign occupation.

The dream took place at a public school. It could have been an elementary school or a middle school. I was in a small city. An announcement had been given that all of the residents of the city had to go to the local school for a citizen registration. The reason for the registration was that there had been some sort of terrorist attack or threat.

When I arrived at the school, there was a long line of people. The whole town was there. It was mandatory. I got into the line.

It was not pleasant. On both sides of the line were soldiers. They were wearing grayish blue outfits. The outfits were not black like the Chinese uniforms.

I heard the soldiers speaking Russian. So I assumed that they were Russian.

The soldiers were poking and prodding the people to keep the line straight. They were not kind. As the line moved, I eventually got to the front of it, I heard other soldiers speaking. But they were speaking German. There were not many of them.

There were more Russian soldiers than Germans. I did not know why there were foreign troops. None of the citizens spoke out about it.

There was an atmosphere of fear and intimidation.

The dream was over.

### A Nation Divided

According to several of these prophetic dreams, it appears that at some point in the future, portions of the USA will come under Chinese occupation and other parts of the country will be occupied by the Russians.

In my dream, I heard German soldiers speaking to one another, but there were not many of them. Perhaps, the Germans were helping the Russians as consultants.

In conclusion, I firmly believe that America will experience occupation by foreign troops in her future. Again, I do not have a date. But these things are going to take place as a part of God’s judgment on America.

My friends, this is the part of the warning that must be emphasized, God is sovereign. He is in charge. He could stop this from happening if He chose to. Unfortunately at this point in time, this thing is going to play out to its bitter end.

Although America is wounded and bleeding, she continues to march away from God. America has forgotten her heritage. She has forgotten her Maker. I have shared these things many times on my programs.

### - To the Patriots

For those of you who are patriots, I know that these are not the words that you want to hear. Please know that I do not enjoy sharing them!

They bring me no joy. Over the years, I have lamented that these things were so! I have experience heartache and sorrow that my home will see these things. I have carried the burden that my children will have to live in this dark future but this is what God has shown me.

Some of you may wonder if there will be a resistance to the coming invasion. Will free citizens fight against this incursion?

My answer...Yes! There will be an opposition to this. Some people will fight!

...some will fight valiantly!  
...and some will perish with bravery!

The American spirit that desires freedom will not go down easily when this event arrives.

### **How Long?**

I have often wondered how long this judgment will last. I know that God is a merciful God. All He wants to see is the heart of America turn back to Him.

At this point, it has not happened. Based on what I read in the Scriptures, when God judges a land, it usually takes a season of darkness and pain to wake up the people to repentance.

Could a foreign occupation be the driving force that turns the

heart of America back to God? My friends, I hope so.

I would hope that the coming events would recharge God's people into a great revival that includes repentance and reenlistment into God's Kingdom.

Unfortunately, when America returns to God, the landscape will be much different than what it is today.

The future revived church may possibly be an underground Church.

Up to this point, God has called me to sound the alarm that tragedy is coming to America. He has not shown me how the tale is going to end.

I am hopeful that it will end with America limping back to her God.

It is all about our hearts my friends. Let us turn to Him now so that we can be sheltered under His wing when these things arrive in the future.

May you seek Him and find Him as you search for Him with all of your hearts.

God Bless you and may God have mercy on all of us,

Nathan Leal

## **The Coming Crash & Collapse of America**

**By Nathan Leal – October 13, 2014**

My friends, the unraveling is upon us and the days of dread are approaching. I am sending out this alert as a warning to those who have the ears to hear.

On October 11, 2014, I had a prophetic glimpse of things that are coming to America. These things are not easy to talk about but as a watchman of God, I need to share them with everybody. After you read this, please seek God for counsel and wisdom so that you will know what to do to prepare yourself and your family.

### **The Dream Begins –**

I was standing in the downtown area of a very large city in America. I do not know what city it was. I was looking towards the north at the skyline before me.

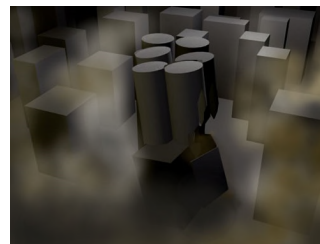

Suddenly, I saw a white passenger airliner flying sideways. It had no markings. It was approaching from the east and went west with its left-wing pointing towards the ground.

It was in a steep dive. It disappeared behind a building that was about a half a mile in front of me. I then saw a huge fireball followed by a loud explosion.

blown out of many of them. Some of them were leaning. Some of the buildings had half of their structure missing.

I ran towards the crash. Instantly, I was inside a very tall building and looked outside of the window to the street below. Many of the buildings within a half-mile radius had extensive damage. The windows were

One of the buildings that stood out was very odd looking. It was about 20 to 30 stories tall and looked like it was made out of grain silos. The silo building had sustained much damage. It had huge holes in the sides. Much of it was leaning.

There was no grain inside of it. It had been emptied.

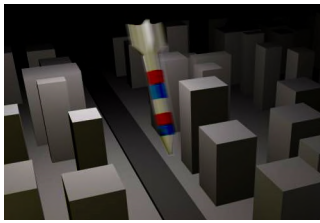

I kept staring at this odd building and wondered about it. It had a large sign on it but I could not make out what it said. There was smoke and dust everywhere.

The damage was incredible. I could not see any fragments of the plane on the ground, nor did I see a crater on the street. I did not know how a plane crash could have done this.

I then found myself on the street below.

It was one of the main downtown streets going in one direction several lanes wide.

I suddenly saw a large rocket fall straight down from the sky. The rocket was red, white and blue.

It came out of the sky, with its nose pointing downward. It was about 50 feet in length. When it hit the ground, it broke into many pieces. But there were no flames.

In the mayhem, I could hear people running around screaming in panic.

As I looked at the street where the rocket crashed, I heard screams that something else was falling from the sky. I looked up and saw the falling object. I got out of the way. It came out of the sky and landed on the street with a thud!

This one was also very odd.

It was a giant electric sign. It was round like a giant pocket watch. It was between 20 and 30 feet wide. It was about 10 feet thick and it was painted green. As it hit the street, I saw the words "Standard Oil" on the face of it. The sides of the sign had green handles made out of re-bar.

I did not understand why a giant sign fell out of the sky. But when it hit the ground, there was a very loud sound of crashing metal which shook the ground.

The people in the buildings began to panic because they were thinking that something else was going to come out of the sky and crush their buildings. As a result, all of them ran into the streets not knowing where to hide. They were in the thousands...and they were screaming and crying!

In the mayhem I wondered what was coming next. I also wondered if I was safe inside of the building where I was.

### The dream was over.

When I awoke, I shared the dream with family and friends. I have also been seeking God about it.

Ladies and gentlemen, based on what I have uncovered thus far, I believe that this prophetic dream is a dire warning of things that are coming to the United States of America!

When these things arrive, they are going to be met with horror and panic. My prayer is that these words will help to stir people to prepare their hearts now!

### Interpretation

This dream has several layers so I want to break it down. *Note – regarding prophetic dreams from God. At times they are symbolic as well as literal, therefore I will do my best to identify the two parts. I believe that this dream is loaded with symbolism to warn*

*of literal events.*

### The White Plane

The white plane that I saw at the beginning represents several things. It was unmarked! It was also white. Why is that?

I believe that the color white was its mask to deceive the masses.

The UN has white planes.

Many of the sighted and documented chemtrail planes are "white!"

Revelation 6:2 tells us that the endtime deceiver rides on a "white horse."

*"And I saw, and behold a white horse: and he that sat on him had a bow; and a crown was given unto him: and he went forth conquering, and to conquer."*

The plane in this dream was white. Its color signifies that its payload is a deception of good when in reality, it will bring forth death!

Will it be loaded with gifts from *Bill the Reaper*?

My friends, the payload is going to bring forth death! And sadly, most people have no clue!

As I watched the plane, it was in a quarter turn with its **left wing pointing down**. The left wing of the US is presently guiding Nation America into chaos and destruction with bizarre policies of insanity.

These policies make no sense to the educated and wise observer. But they are blazing forward with little opposition from *Snooze-Ville USA*.

My friends, please let these words sink in! American cities are facing an attack right now! As this thing progresses, it threatens to infect every corner of America.

Now I must qualify and stress that these attacks will continue to take place if America does not turn her heart back to God.

Will America turn? Sadly not yet. What will it take? You ready for the truth folks? In order for America to turn back to God, it's going to take the stench of decomposing carcasses laying in the streets of the USA!

In the aftermath there will be tears! Therefore the attacks are mounting and preparing to arrive! They are going to be terrorist related.

Therefore, I believe that in the coming future, planes will be used to bring a destructive payload to the US. These payloads will consist of various things that will cause damage.

But the question is what kinds of things?

Please make note that there are a few missing planes in the logs of the past. Will the missing Malaysia planes be used?

I do not know. The plane that I saw had no markings. So it is possible. I believe that the payload could consist of several of the things mentioned including an explosion caused by a nefarious suitcase that

could be delivered on a plane.

Based on the damage that was inflicted on the downtown buildings, what I saw was not a regular explosion from a crashing plane. The damage appeared to be greater than a regular explosion because the blast radius was at least half a mile and many of the buildings were destroyed. This concerns me because only a very powerful bomb on the plane could do such a thing. Also make note that the plane was approaching from the EAST.

ISIS is from the east.

Therefore, the first warning of this dream is that one or more terrorist attacks are coming to America. But I do not think that they will be limited to a suitcase on a plane. The attack will arrive through "travel."

It will come into America by people and planes traveling into the USA. They will also enter through the open borders of the South.

Again, the plane represents several nefarious episodes that will bring much harm to our country.

The damage will be extensive!

Which brings me to the destroyed grain silo. As I looked at the Grain Silo Building, I noticed that it had a large SIGN on it. In the dream I could not read the sign and I do not think that God wanted me to read it but instead to SEE it!

The destroyed Silo was the sign! And it had a very important message.

A grain silo represent food and the ability to get food. It also represents the price and scarcity of food.

This destroyed building was the first thing that I noticed meaning famine is coming to the USA. It will not be a conventional famine but a famine caused by the payload of the crashing plane. This means that food will become scarce and hard to get. The silo was empty. The food was gone!

Ladies and gentlemen, I want this warning be very clear.

In the coming future, there is going to be a time where Americans will not be able to obtain food! What could cause this?

It could be a variety of things – Tainted Foodstuff, Martial Law, Transportation Lockdown, Quarantine zones that limit travel, Lack of man power, widespread sickness, Out of control prices, etc.

I do not know that exact reason but the bottom line is that there is going to be a judgment of famine in America.

When this happens will you be ready? How long could you survive with the things in your pantry?

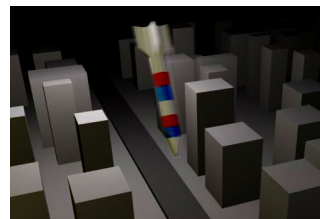

The time to get ready for this was last month, last week....even YESTERDAY my friends!

Please do not take these words lightly. The end result of these events is going to be absolute mayhem! I saw the people panicking, screaming and crying.

Then the next part of the vision occurred...

### The Rockets' Red Glare

After the plane crashed, a red, white and blue rocket fell out of the sky.

It came down nose first and shattered on the street. There was no explosion, just a lot of pieces. This rocket represented the United States of America. And to be more precise, it represented the pride, power and glory of the USA. But in

this dream the rocket ship of America hit the ground and broken into many pieces.

This means that after the arrival of the planes payload, America is going to find herself broken of her pride and power. America's pride and power spans many areas including: the military, the economy, and her status in the world.

My fellow Americans, these things are going to come crashing down for homeland America. When it occurs, there will be great panic and weeping.

I saw many people running around screaming, not knowing what to do. This is going to play out from coast-to-coast. In big cities as well as little cities, there will be great panic that will ensue. Panic will be one of the elements that causes the nation to stampede into delirium.

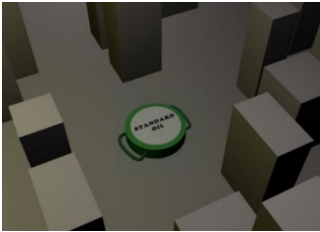

When panic arrives, the loss of self-control will overtake many people into doing crazy and bizarre things.

Fear and desperation will become a frenzied tiger that causes many cities to collapse into utter darkness...and death!

### Standard Oil – The Petro-Dollar

As I was watching the chaos, the dream ended with a giant sign hitting the ground. This sign has great symbolism. It was painted green and it had the words Standard Oil on it.

To begin, it is very telling that this dream included two “literal” signs. I mentioned one earlier that was on the grain silo but then the dream ended with the appearance of another sign.

God often will use signs to communicate with us and this dream had two of them. Therefore I must stress that this sign is also VERY important!

In the dream, I saw a giant sign fall out of the sky. It had the words “Standard Oil” on it.

Standard Oil was one of the first corporate conglomerates in the early 20th century. It was owned by John D. Rockefeller and was a monopoly that controlled the oil market of the United States. During its existence, it was located in two cities, Cleveland, Ohio and New York City.

*Side note – is this a hint of the possible locations of coming events? I do not know.*

But *Standard Oil* eventually broke into the many oil companies that we have today. But this did not stop Rockefeller, he continued ownership of these companies through dummy corporations.

After World War II, the US Dollar became the world’s reserve currency. This standard was established to create a petrodollar represented by greenbacks.

In other words, the US dollar became the money standard that would be used to buy and sell petroleum throughout the world. This arrangement is the main reason that America has prospered over the last few decades.

But ladies and gentlemen, this arrangement is coming to an end!

In fact it is already in motion, the nations of the world are making new arrangements to bypass the dollar and strip it of its reserve currency status.

That is what this dream represented. The petrodollar represented by “Standard Oil” is going to come crashing into the ground. I would not be surprised to see the oil markets become very erratic in the coming weeks.

Comment – watch the Oil Markets folks! This will be a SIGN that these things are upon us!

According to what I saw in my dream this is a multiple tiered event.

**One** – The plane was in a quarter turn with its left wing pointing down. The left wing of the US is presently guiding Nation America into chaos and destruction with bizarre policies of insanity. The final acts of destruction will include a terrorist attack to deliver a payload.

**Two** – Shortly after the attack, America is going to experience a crash. A crash of her world power status! This was what the falling rocket represented.

Folks. Please make note of this! America will no longer have the respect that she is used to having. Most Americans cannot

imagine a world where America is not the top dog. But those days are coming to an end. This cannot be taken lightly, because without her power, the rest of the world will turn their backs on America.

The result of this will have a negative impact in many categories for the country.

American life will become dreadful. Many people will suffer in ways unrecorded in America’s past. The nation will become crippled and the standard of living will decline into second and third world conditions.

The US Constitution will suffer a burial at sea by an undertow of desperation, panic and political upheaval

The crash will strip America of her first world economic status and begin the plunge where she will fall into the abyss of DESOLATION!

**Three** – In an almost simultaneous fashion, we will see the status of the US dollar as the world’s reserve currency and petrodollar come to a halt. This will result into nationwide panic and then global panic! The panic will be to such an extent that people will be in utter delirium and not know what to do!

I do not have a date this event but I need to warn that is approaching. Based on current events that are developing daily, the time to prepare for this warning has a limited window.

Those who do not seek God for counsel and instruction will find themselves destroyed by the stampede of the chaos.

For those wondering what they need to be doing, your survival plan must include your spiritual health. Where are you with God right now? Are you where you want to be? Are you satisfied with your spiritual location?

My friends, your eternal soul is not a casino so please do not gamble with it! There are many people in the “awake” crowd who say they are preppers but still have not address all of their spiritual liabilities.

When I say spiritual liabilities, I’m talking about spiritual issues that have not been dealt with. To everyone who is reading this, you know what your issues are!

Where are you?

Paul tells us that we should examine ourselves to see if we are of the faith. It is easy for a person to say that they have faith but if they have not dealt with unresolved failure and sin, are they really a Prepper or Prepared?

Folks, time is running out and I want to see all if you on the other side. So please make sure that you are getting your house in order. This includes encouraging your family and strengthening them in the things of God.

If some of you find yourself struggling with repentance, I have produced a series of messages and sermons that address these things with encouragement and hope.

The sermons are a part of my “For such a time as this.” series. If you have not heard them I want to encourage you to listen to them. They are there to help those that are struggling and discouraged.

In closing, I want to encourage all of you to continue in your vigilance to do God's will and to be ready for these things that are approaching. I am going to be releasing a new message that talks about this in great detail. It is News from the Wall #20. It will be out soon.

Again, folks please do not delay your survival plan. If you have

been planning to get a backup store of food...DO IT NOW!!!

Do not delay. Whether it is store bought, freeze dried, etc. Rearrange your priorities and do this. A Famine is coming!

Please share this alert with everyone that you know.

In His Service, Nathan Leal

## **"America's Dark Invasion - Sealed by Obama!" The Phoenix has Invaded the White House**

**By Nathan Leal - February 26, 2015**

Several years ago, the Lord showed me a prophetic glimpse of an invasion of darkness that was coming to America.

In the vision, I saw sinister storm clouds gather over the land in front of me. After they formed, the clouds began to drip a thick black sludge that had the viscosity of a heavy oil.

Across the horizon as far as I could see, the drips resembled black tassels coming out of the clouds that slowly made their way to the ground.

As each drip touched the ground, there was an explosion as they touched the earth.

The sound was deafening and caused the ground to

shake under me. The explosions were many and seemed to be never ending.

As each drip detonated, a large cloud of dust rose up and became agitated into a spinning whirlwind.

The whirlwinds became black tornadoes twisting along the ground.

Eventually, there were hundreds of these tornadoes violently churning the landscape.

I trembled at the sight and was overwhelmed. I

feared that I would be consumed by the tornadoes and sought shelter.

After I awakened, I sought God about the vision. After several prayer sessions, the Lord revealed that the tornadoes represented an invasion of darkness that was going to come over America and plow the land under. The darkness would be a spiritual tsunami of evil that would overtake America and change the country into something unrecognizable from her past.

The evil would result in a season the moral decay and defeat for America. This meant that wickedness would arrive within the

borders of this country and overcome the boundaries from coast to coast.

As God showed me these things, I lamented and asked Him for the remedy.

God was clear, "The Nation had exceeded the point of reversal, meaning the remedy will not be found because as a Nation, America had rejected Him."

I asked for more details. The Lord said that from that point on, the only hope for people is to find God's mercy on an individual basis. This means that everyone reading this must find salvation and forgiveness for themselves and seek it for their family members.

This vision occurred several years ago and since then, I have sought to understand what the darkness will *consist of* and what it will mean for this nation. Ladies and gentlemen, the findings are not pleasant to hear but for those who are awake, it is necessary to know how to prepare.

In summary, please continue your efforts to be spiritually vigilant because those who slack, will be overwhelmed by the ominous forces of darkness that are already beginning to take this nation hostage.

I do not mean for this article to create fear but, as a Watchman of God, I must share what I find while I am at my post.

### **Obama's Dark Prophecy**

As many of you know, Obama's role in the White House is to sabotage America's future and take her into the path of destruction. Some people may argue that he has good intentions for the country but reality reveals a different

picture.

The information that I am about to share may challenge some people but the evidence speaks for itself; based on what I have found, the decision has been made by people in very high places to destroy America and bring darkness and they illustrated the decision as a dark prophecy!

The Obama Administration revealed the dark prophecy to the world several years ago. It has been hidden in plain sight and is located in the Oval Office of the White House.

Before I begin explaining, I need to qualify by saying that I do not know if Obama did these things on purpose or if it he did it subconsciously, under spiritual inspiration.

Nevertheless, the results are ominous for America.

### ***What Is It?***

When a new President moves into the White House, they have the privilege of redecorating the Oval Office. They replace the drapes, the furniture and the custom rug. The budget for redecoration is \$100,000. Since the rug is custom made, it usually takes about a year before the redecoration is complete. Obama's redecoration took place in Mid-August of 2010 while he was on vacation.

The rug has famous quotes sewn into the outer perimeter. The quotes are as follows:

- *"The Only Thing We Have to Fear is Fear Itself"*
- *"The Arc of the Moral Universe is Long, But it Bends Towards Justice"*
- *"Government of the People, By the People, For the People"*

- *"No Problem of Human Destiny is Beyond Human Beings"*
- *"The Welfare of Each of Us is Dependent Fundamentally Upon the Welfare of All of Us" - President Theodore Roosevelt*

But aside from the quotes, when Obama designed his Oval Office rug, he revealed a Dark Prophecy for America.

Here is the rug. Take a good look at it.

Do you see it?

Most likely, some of you may not, so let's break it down. And let's compare it to George W. Bush's rug.

Do you notice a difference? Here they are side by side.

For another comparison, below is Bill Clinton's rug...

As you can see, all three rugs have the Presidential Seal of the United States.

According to the requirements established by Eisenhower in 1960, the seal's design should have a blue background consistent with the navy blue of the US flag:

*"The Color and Flag of the President of the United States shall consist of a dark line blue rectangular background of sizes and proportions to conform to military and naval custom."*

Also according to the requirements, the stars are to be WHITE!

*"The whole surrounded by white stars arranged in the form of an annulet with one point of each star outward on the imaginary radiating center lines, the number of stars conforming to the number of stars in the union of the Flag of the United States..."*

Obama's rug disregarded the blue background, and changed the colors of the stars to an almost black color!

Why did he do this? Because it is a *Dark Prophecy* of America's future. And Obama's rug communicates that DARKNESS is the future for America.

I find this very disturbing. But it gets worse. If you take a look at Obama's Eagle. It is not an ordinary eagle.

Here is side by side comparison of the Obama and Bush eagles.

Notice that Bush's bird looks like an eagle as the standard requires.

...but Obama's eagle looks skinny.

Why is this?

It is because Obama's rug does not have an eagle, it is a different bird..

Here it is zoomed in...

Do you see it folks? Obama has a Phoenix on his Presidential Seal!

The Phoenix represents the expectation of chaos and fire!

Here is a [gif animation](#) that details the phoenix.

.- <http://www.watchmancry.com/images/rug/trace-of-phoenix.gif>

Obama had his rug installed in Mid-August of 2010.

Several weeks later something interesting happened. While Obama was speaking, his Presidential Seal fell off of the podium. This was not an accident. It was God telling all of us that he had defiled the Presidential Seal on his Oval

office rug.

Ladies and Gentlemen, these things reveal that Obama's assignment is to bring the darkness of chaos and fire to America. The plan is well underway and will not be stopped.

The Phoenix represents destruction. The 2012 Olympics told us that it was coming and now here it is, banging on the door.

Many horrible life changing events are approaching America.

...War,  
...a false flag,  
...ISIS is at the gate sharpening their scimitars.  
...the collapse of the Dollar!  
...and more things too lengthy to mention.

As they walk through the West Gate of America will you be ready for them?

God help us, and may He have mercy on those who have the ears to hear.

In His service, Nathan Leal

## Prophetic Alert – I Saw an Aircraft Carrier Sink

**Nathan Leal - December 12, 2015**

(NOTE – I have posted a few reader comments at the bottom of this page.)

I am sending out this prophetic alert because God's people need to pray. If you have followed this ministry for any length of time, you may know that it has a history of prophetic glimpses that have been shared over the years. Some have come to pass, some are in motion, and some are still in the delay of God's mercy.

A few nights ago, I had another prophetic dream. It happened on December 5, 2015. I shared it that day with Doug Hagmann because I wanted to find insight on the meaning. After several days of holding onto it, I now feel prompted to share it with the brethren. Please take it under prayerful consideration. If anyone has insight on this information please let me know.

### The Dream Begins

I was in the sky looking down and saw three aircraft carriers next

to one another. I heard the words, "inland." It could have been in a shipyard, but I am not certain.

As I watched the ships from above, one of them began to rotate counter-clockwise towards the left. The ground under the turning ship was very shallow. It scraped the earth under it while it rotated. I am not certain where the ship was located. It might have been at a port. *(The ship could have been in a dry dock getting repaired, serviced, or it could have even been a brand new ship.)*

After it rotated, the carrier left the port traveling south to southwest. When it reached "deeper water" *(I heard the words – deeper water,)* it began to sink.

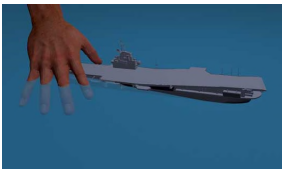

It did not sink entirely, but it tilted which caused the end of the ship to begin submerging causing part of its platform to go underwater.

I thought to myself, “Oh no, the platform is going under.” The submerging was enough to cause some of the aircraft on the flight deck to be covered with water.

It remained tilted and partially submerged and in the dream I wanted to rescue it, so I grabbed it and held onto it. (*How I was able to do this, I do not know, perhaps holding it afloat represented prayer.*)

My efforts were becoming difficult. I was barely able to hold on and I needed help. I became upset, because I feared for the sailors on the ship. As I struggled to hold onto the ship, a giant hand came out of

the sky and intervened.

It wrapped around the end of the ship and held onto it. It was the hand of God.

Before I could see if the ship was saved, the dream ended.

What does this mean? I am still trying to understand the vision. But this is what I have thus far.

To understand it, I have dissected it. There are several parts to this dream.

At the beginning, I saw three carriers together. Does the Navy often do this? Do they dock carriers next to each other? In the dream there were three.

Next – One of the carriers began rotating counter clockwise. Does this represent a “rotation” of a location for an aircraft carrier in the future? Aircraft carriers do rotate in their assignments. Again, the rotation was counter clockwise.

As it rotated, I heard the word, “inland.” I do not know what it meant. Was this to signify the location of the event?

The carrier began traveling south to southwest. It then went into deep water. I heard the words “deeper water.” Does this mean that the event will occur when it leaves a channel or a strait and then enters the ocean?

It did not take long before it started to sink. But instead of sinking straight down, it tilted slowly. I did not see an explosion.

As far as the cause, I don’t know if it was non-aggressive like mechanical or structural failure. Or a navigation mishap like hitting something underwater that damaged it. If so, perhaps this was why I saw the ship scraping the ground as it rotated.

I also do not know if the cause was something aggressive or nefarious like sabotage or being hit with a missile.

Whatever the reason, I prayed that it would not sink and then God’s hand showed up.

Conclusion – If this event transpires as I have shared, and the ship is saved, it will be because God’s people acted with prayer to find His mercy. This means that the result is being weighed in the balance. It could go either way.

As I contemplated this vision, I wondered if America can still find mercy from God. And of course the answer is yes! His Word says so.

*“It is of the Lord’s mercies that we are not consumed, because His compassions fail not. They are new every morning: great is thy faithfulness.” Lamentations 3:22 ,23*

My friends, God still has mercy that He wants to show for America. But thus far, as a whole, America is turning its back on Him.

Was this vision literal, symbolic or both? At minimum, it is symbolic.

### The Symbolic Meaning

The symbolic meaning is profound. The vision is a warning that in the coming future, America’s power is going to sink. If nothing changes, when she enters the deeper waters of judgment, **she will sink!**

And without the hand of God’s mercy, all hope will be lost for our beloved country and MANY people will drown in the waters of chaos and misery.

Has the SS America left her port? Presently, she is spinning counter clockwise to the left. As she spins, she is scraping the Earth, or the “*ways of the world*” by abandoning the only One who can save her, our Lord Jesus Christ.

### A Warning?

If this vision is also literal, it means that in the future an aircraft carrier will encounter problems to the point that it will start to sink. **And when it takes place, I do not know if it will be saved!**

Depending on how the event is spun, there is a chance that it would start World War 3. When we look back at history, this already happened when the USS Maine sank in Havana Harbor in Cuba in 1898. This event started the Spanish American War.

If an aircraft carrier had an unfortunate mishap that was non-nefarious, would the United States spin the story and blame it on another country? And use it as a catalyst for war?

Is the vision a warning that a false flag involving an aircraft carrier is on the horizon? At this moment in time, I don’t know but I am prompted to make this vision public.

At minimum, we all need to be praying that God will show us His mercy in the coming days. Folks, we need to be asking for it NOW, before disaster strikes. This means that we need to continue seeking Him and make sure that we are getting our houses in order. Don’t delay my friend. Also please pray for our country and our enlisted men and women that they may be covered under God’s protection. I know that some of you have loved ones in the armed forces so may God be with them.

In His Service, Nathan Leal

Here are a few email comments that some of you have sent in.

Thanks for sharing.

---

Nathan,

Just came across this article thought it may somehow apply to your dream... very interesting indeed!: US Navy's newest ship breaks down 20 days after commissioning, towed to emergency repair, <https://www.rt.com/usa/325710-littoral-ship-milwaukee-breakdown/>

God bless,

J.

---

Hi Nathan,

I was in the US Navy for 10 years and spent many days at sea as well as forward deployed in Sardinia Italy for 2 years.

Let me see if I can help you a little with your vision from God.

You broke it down well from a sailors view and will start from the beginning so here we go.

Carriers are docked on the deeper piers, usually together.

**In Port:** In the event of ships rotation the US Navy at times brings carriers and the associated ships in port to "rotate out" if they have been at sea for some time, then these group of ships called a "battle group" swap out and deploy. While in port the often get work performed on them in the ship yard where civilian specialty workers perform maintenance on pumps and steam turbines and associated equipment. I was not never deployed on a carrier but on several smaller ships say 1000 men.

A aircraft carrier has 5000 men, a floating city if you will imagine. They are some of the largest ships in the world and do draft deep in the ocean and cannot even enter some shallow ports due to the draft.

It sounds like you are speaking to San Diego because that base has several Aircraft Carriers home ported there. San Diego is a deeper water port which allows carriers to fairly easily enter.

They could still hit bottom!

**Carrier port entering evolution:** I have watched this evolution several times and have had to experience it on the 1000 man ship I was on and here is what happens:

As the ship gets within 50 miles of the port we "set the watch" as "restricted maneuvering." The top speed of the ship at that time is about 18 knots, usually it requires certain water tight doors also to be closed and not opened and if opened, re-closed.

This setting of water tight doors settings "compartmentalizes" the ship to keep it from sinking if it runs aground. This way the whole ship will not flood if that happens. **Water tight doors will only allow certain spaces to flood in case of a catastrophic event.**

The carrier will call the "Port Authorities" and request tug boat assistance to bring the carrier in to port side docking. The carrier will usually have a several hour wait prior to entering port side docking, and will drop anchor while waiting. The tug boats will notify the captain of their approach.

The tugboats will throw lines to the ship, and will be tied off.

Winches will take out the slack and allow the tug boats to maneuver the ship due to their power and ability to change speed quickly.

Often they will spin the ship around and place it where certain doors on the side of the ship face the port.

Then the ship will be slowly pushed by the tug boats, (who are now in control) and some use of the ships rudder and power to the location the carrier is to be docked.

Then the ship will tie off and set up the gang way for individuals to exit the ship, hook up shore power and potable water.

### **Dream beginning:**

The watch is set, "restricted maneuvering" all watch stations are manned and everyone is ready to go to sea. Sailors know this well and are well trained to perform the task at hand.

The tug boats are in control and call the shots to the bridge where the captain and executive officer are now located.

Many times the ship has to be rotated around to position the nose (bow) of the ship in the direction of the exit of the port.

**Scraping bottom is all bad, bad, bad! This probably damaged the ship: weight is 102,000 long tons!!!! This ships nose or bow is approximately 70 ft. above the water!!!!**

### **Back to the dream:**

As the ship is released it now is under control of the captain on the bridge. This is a nuclear powered ship and is very powerful.

At 50 miles out the normal watch is set. It sounds like the ship just set normal watch standing ("deeper water")

as this catastrophic event occurred. Water tight doors are opened and a more relaxed watch is set.

### **Here is what would probably occur:**

A "General Quarters" would have been sounded!

Battle stations manned and every one would be running around rapidly manning up their areas and closing water tight doors. But it sounds like it is too late!!!!!!

The firefighting teams manned!

Realizing that this is not a normal drill things get tense very quickly!!

Flooding and fire are the worst nightmares!

The sailors probably saved the ship by closing water tight doors and stopping some if not all the flooding by the grace and mercy of GOD!

Dewatering is now at hand using as may installed and portable pumps as possible.

If there is a big rip (steel hull failure) in the hull there are no dewatering pumps that can deal with this problem. Now it would have been all about control flooding and subsequent fires!

People die in this kind of thing and are trapped inside water tight compartments which are now flooded.

If the bow is now under water then the ships screws are pushed out of the water and maneuvering the ship is impossible!

The nuclear reactors being shut down? Power is out except for emergency generators? Are emergency generators under water?

EEEEKK! Could be many dead.....HUNDREDS..... 5000 man crew.

Radio calls go out! Help is on the way? Yes....

Hope this helps Nathan!

C.

---

Nathan,

Having served in the Navy a few thoughts came to mind while reading your dream.

You described seeing three aircraft carriers together. This almost never happens in the US Navy (at least not when I served) because this is a high risk formation, meaning that there are simply too many assets to chance losing all at once. However, there is one exception – a “Super Battle Carrier Group” formation and the only way this would happen is if the Navy was anticipating major warfare and they had to assemble and position vast amounts of resources in a hurry.

Three carriers together would signify WWII or the equivalent in my opinion. This battle formation would very likely be accompanied by several battleships, destroyers, frigates and probably several SSBN nuclear attack submarines as well as high altitude reconnaissance aircraft constantly circling above monitoring for any possible threats..

In short, three carriers together is a very big deal!!!

Thank you for all of your hard work and dedication Nathan,

E

---

Dear Brother Nathan and Family,

Could it be that God’s hand on the half sunken American aircraft carrier shows us where America is now? I have often wondered with all the prophecies against America if there is any use in praying, but I guess God has not yet said as He did once to Jeremiah, “do not pray for this people”. Surely we can at least beg God as Abraham did for Sodom and Gomorrah to save it for the sake of the righteous who still live in it. Or maybe, since you saw three carriers first it represents a third of America. Isn’t there some precedent in the book of Revelation for judgement to come upon “thirds”? (Revelation 8:7-12; 9:15) Anyway surely the verse is still in effect that if we humble ourselves and pray and seek God’s face and turn from our wicked ways that God will hear from heaven and forgive our sins and heal our land.

Sincerely, LE

---

East – usually stands for WORLD

South usually signifies those who are in knowledge of government and or,

ANTI – GOD OR THOSE WHO HOLD LIBERAL ANTI – GOVERNMENT IDEAS also speaks of the land area near or around EYGPT

Direction LEFT – also means dryness

The ship on left turns counter-clock wise to south southeast then it sinks

Could it have something to do with DONALD TRUMP statement out Muslims they are from Egypt area/ PALESTINE area

His campaign sinking because statement goes against America’s Government of freedom of religion

Just a thought best wishes. kq

---

Dear Nathan;

This is in reference to your aircraft carrier dream. I do remember reading Christian prophecies, dreams, visions years ago about US aircraft carriers getting nuked in the Persian Gulf or similar Mediterranean/Middle Eastern locations. (By the way, Mediterranean, I believe means in the middle of the land-Mediterranean-terrain, land). These were from years ago back during the first Gulf War.

They also included troop formations getting nuked and our guys abandoning the Middle-East in retreat like the choppers fleeing Saigon at the end of the Vietnam War. It was supposed to be in a new war in the Middle-East, but the warning was that this time we lose big time.

It’s difficult to know when somebody else’s prophecy, dream, vision is from God or their own vain imagination. Tract records are a good guideline...Unfortunately it’s been like a decade or so, so I don’t remember WHO. It might be worth pointing out that under Obeyme’s watch, America HAS INDEED retreated from the Middle-East, snatching defeat from the jaws of victory. ISIS/ISIL/IS has taken over and was basically GIVEN the hardware that was left behind.

So, at least THAT part of it seems to have come to pass. Putin has also warned Nukes may be used in that region, sooooooooo...

Also, as you know, the Chinese and Russians, and IRANIANS, and North Koreans have all been working on technologies to specifically destroy Aircraft Carriers, since they are both centers of American power and the mobile projection thereof, AND also sitting ducks, and thus VERY HIGH PRIORITY targets. They have torpedoes that can go faster than the speed of sound, so there is NO defense, as well as supersonic missiles that can be fired in overwhelming barrages...

You may be able to take SOME out, but not all if fired in mass...and it only takes ONE of those suckers with tactical nukes. As far as our troop formations getting nuked. We don’t have large numbers there presently, but who knows? Also, there is the prophecy of Damascus becoming a ruinous heap, never again to be inhabited.

Anyway, this is all just what I remember regarding the subject.  
God bless always in His service.  
JF

---

Yesterday I felt Holy Spirit say there was going to be a massive false flag in December. I asked Jesus to confirm it with the words 'false flag'...you mention that this may refer to a false flag. I am praying (from South Africa)

LB

---

I think the carrier is either our nation going under, or the economy going under.....which will cause the first.

I believe God will pull us out after we go through a lot.

MC

---

I do have some ideas about a possible interpretation of parts of your dream – for your consideration..... (over the years God has spoken to me many, many times through dreams – that sometimes were literal – like for 9/11 -but most often are symbolic.....)

Typically, aircraft carriers are representative of protection/safety – partly for defensive tactics, partly for offensive strikes. So this speaks to me of the protection, the defenses, the safety of the country. The fact that they were inland to me meant that they were not yet in open water – not yet needed or deployed. The fact that one of them started to rotate in the wrong direction (counterclockwise) says to me that one part – a third, a portion – perhaps of US defensive systems are going to start going in the wrong direction – counter to what makes sense and is natural. Then the fact that it was heading south.... – again, when something goes south, it usually means it is heading for trouble and going in the wrong direction. (2x confirmation of going in the WRONG direction). When it reached deep water – as in 'they got in deeper' (more involved) then it got into trouble. When it started to sink, it was confirmation that it wasn't supposed to be there – it DID get in trouble, and started to go under.

When the hand of God intervened, it says to me that God will rescue and keep the worst from happening and will prevent the total sinking and loss that could have been caused from this mistake.

I would be praying for the US Defense systems to be all aligned, acting on wisdom and with restraint, NOT leaving and heading out into open waters before God's RIGHT timing, ONLY when it is the RIGHT time to act, that they would all be of one accord, go together, going in the RIGHT direction, that God would prevent any unwise council that would lead for premature movement or for going in the wrong direction. I think this speaks of something significant happening in the world, perhaps soon, that may call for the US to act in some way...

I see this filled with idioms that God, in my dreams, often speaks through.

Blessings. HH

---

I think the ship is America and that God is holding back judgement for a time.....

W.

---

Hi, Nathan. My nephew just left the Navy after being stationed on the USS Abraham Lincoln, which is now in dry dock for replacement of its nuclear fuel rods in Newport News, VA. He tells me that frequently several of the carriers are all parked together at the naval shipyards in Norfolk, VA. At one point, there were as many as five of them all parked along the same docks in Norfolk. The most recent Google Maps sat photo shows two of them parked there, although I'm sure it's a dated photo. Here is a link where you can find the location of all 11 at an given time based on publicly available info...

<http://www.gonavy.jp/CVLocation.html>. God Bless.

---

Jeremiah 49:23 tells us, "Concerning Damascus. Hamath is confounded, and Arpad: for they have heard evil tidings: they are fainthearted; there is sorrow on the Sea: it cannot be quiet." The ship belongs to Israel and God saves it after they destroy Damascus.

E.S.

---

Nathan, this is a dream that is for the "Land". You heard "In. land" and so it is a message for those In the land. 3 ships were seen, representing the choices as to what kind of ship of state we would have. America chose to steer hard Left in the selection of those at the helm. The result is that the ship of state has turned Counter-Clock-Wise. Clock being Time, we are therefore in a Time when those at the helm have turned our nation Counter to Wisdom. For the carrier to scrape bottom like that represents a weakening to the base or foundations and original intents by the Founders. This great turn Left records a scar to the land, "Because of this the land mourns Hos 4:3" and the soil (or wealth and sustenance) of the land is eroded. The result of this great disruption to the land as we continue navigating this way, is we find ourselves in "deep water" — greater and greater trouble. We are going "south" and a bit "west". Going south is yet another way for saying things are going wrong and also away from God as He is described poetically in scripture as dwelling in the north. Going west also, the direction of the sunset means time-wise we are edging toward the sunset of this age. The ship beginning to go under says it again — a nation in decline. Even the pictures you included in telling the dream show the carrier sinking at the left side of view saying again that the left is sinking the ship. The part of the ship and aircraft being covered with water represents our power projection and influence among the nations of the world (ocean) is diminishing. Declines are happening in many ways which you can enumerate better than I: economically (to go underwater financially or in the market is to be ruined), morally (the world or sin flooding in), militarily, government and order etc. Ships often sink when the integrity of the hull, or the walls and boundaries against the sea are broken and we can readily see this at our borders and our lack of control of the flooding in of many nations.

You holding up the ship represents all those who are aware and fervently praying for America. As a result the Lord has by His hand kept us from being totally sunk.

I'm reminded of when Elisha told the king to take his bow in his

hands, open the east window and shoot, 2 Kings 13. Elisha put his hands on the king's hands when he shot. This pictorially represents the Spirit helping us in a dark time as we send our prayer arrow toward the east or the place of the sun (Son's) rising. Elisha then told the king (we are also "kings and priests") to strike the ground.

The king only struck 3 times for which Elisha angrily told him he would overcome his problems and enemies only to the extent of strikes; he should have struck 5 or 6 times –this speaking of persistence in knocking at the door in fervent prayer for our nation as you have alluded: "If this event transpires as I have shared, and the ship is saved, it will be because God's people acted with prayer to find His mercy. This means that the result is being weighed in the balance. It could go either way".

Blessings,  
J.

---

Hi Nathan,

I just read your explanation of this vision. What came to my mind, almost immediately, were parts of two famous Civil War era poems. Longfellow's Wreck of the Hesperus, and Whitman's Oh Captain, My Captain. I don't know if you are familiar with them, but I thought they could apply to your vision.

I wonder if the "3" carriers represent Unity, our three branches of government; legislative, executive and judicial. They are all "grounded, aground, Earthly". One moves out, breaks off, out of sync, "counter" clockwise, to attempt its mission in deep water, under its "own" power. The fact that the carrier moved "counter" clockwise, "to the left" makes me think it is the first, number 1 carrier, counting from left to right. I would say it is the legislative branch. The flooding appears to be where the power source and propulsion are located. Perhaps, "leaks, sabotage, 'the cares of this life'" has caused it to begin to sink, unable to "right" itself. It's at that point in time, **because of the cry to God, by the "surviving" crew**, that He intervenes to keep it from TOTALLY going under (much like Israel's history.)

The legislative branch is what oversees and drives our government:

The branch of the federal and state government empowered to make the laws that are then enforced by the executive branch and interpreted by the judicial branch. The legislative branch consists of Congress and the fifty state legislatures. At both state and federal levels, legislatures are made up of popularly elected representatives, who propose laws that are sensitive to the needs and interests of their local constituents. After a law is proposed as a bill, it is sent to appropriate committees for several stages of discussion, research, and modification. It is then debated in both legislative houses — except in Nebraska, which has a single house legislature — and put to a vote. If the law is passed, it is still subject to further modification and final vote by both houses. Under the system of checks and balances, the president can refuse to sign the bill into law (through the veto power). The legislature can then vote to override the veto. Other checks and balances include legislative powers to impeach public officials (see impeachment), confirm appointments to the executive and judicial branches, and vote on appropriations.

"Congress" literally means "walk together", Amos 3.3. There's 3 again. With the Lord of Life, out of our "branches" of Government and the people of our Land that make up the Congress, they wither and die. The power is the people who dictate our Government. The people have the power to change tyranny and evil leadership. But, if the majority condones and fuels wickedness, then so goes the Government and Nation.

Our form of Government, moving in its own power and wisdom, is beginning to sink already. The harder it pushes, the more it will sink. The Time, Day, Hour, of its complete inability to move forward, is coming rapidly. In smaller boats if you have water inside the hull, it can self-bail if you can keep it going forward. This won't work if there is too much water in it. Then the boat swamps. Once the motor{s} are submerged, you are pretty much done, unless there is a MIRACLE!!

God, out of His Mercy, is giving all those with ears to hear and eyes to see, a heads up of what is coming, both in judgment and redemption. Praise God!

A Brother in Christ,

D M

---

Dear Brother Nathan,

As R\*\* and I were just praying about your dream the Lord showed me this: The dream is literally prophetic. It is someone trying to sabotage a U.S. Naval warship. We are guessing the ship is either in Houston, Corpus Christi or coming out of San Diego, but I suspect the fact that it was going south by southwest means Houston or Corpus. We are rebuking the saboteurs and praying God's divine protection over the entire U.S. Navy as a sunken U.S. warship ship would make us appear weak in the eyes of our enemies and set us up for attack.

I am going to share a thought with you that I ask that you not repeat that we suggested this. We suspect that it could be our own government setting up for a false flag in order to drag the U.S. into war as the country does not have the stomach for more war now... Please do not be dismayed Nathan if people say this did not happen so Nathan is not a prophet. It is set by our enemies to happen I saw it in the Spirit and R. and I are praying for our safety and protection so if it does not occur we will praise the Holy Name of God Almighty that He saved us!!!

God bless you Brother Nathan and Sister Donna for your perseverance in the good fight! Please know that R> and I love your ministry and stand with you.

S J

---

Hi Nathan, I just read your article about the dream you had and you won't believe this but you are the second person to mention this in less than 2 weeks. If you listen to Steve Quayle on the George Noory show: <https://www.youtube.com/watch?v=AxpCJSotjbw> you will hear the same thing mentioned by another person. I just wanted to share this with you. God

Bless, R.

---

Hi Nathan,

You are probably deluged with mail on your dream, so I apologize for writing so much.

A few days ago, I listened to (Hagmans'?) interview on scalar energy and water. Looked up the Philadelphia experiment (cloaking ship).

I was led to wiki page on "the American shooting season" –how the year before the experiment, 609 US ships on east coast were destroyed by German subs.

I felt that God was leading me to see how quickly war on our soil could have happened — and essentially did. But citizens don't seem to know about it.

**Three:** I ran across an article showing strategy change– military realizing they were so much stronger when vehicles grouped. Also triad is a physics concept of strength.

While the ships seemed very literal, they could represent our (country's or groups') general effort that protects and oversees the borders of our territory — at all levels. Sea, land, air, cyber, mindsets, alliances.

**Spinning** seems to disorient, like a clutter of information comes in like a wave and tosses people's convictions. These days, it has been hard to know what information to trust. If not keeping an even keel, based on what we know to be true, we lose our traction, stability, sometimes leverage.

**Deeper water** in that case, was safer. But it took the ship further away from what it was protecting. Conceptually (with alliances and concerns), or more literally spreading its radius of responsibility.

**Inland** — Did you sense pointing inland, or controlled by inland stations?" (Role of protecting land, of course.)

Anyone can buy US property, and many now use shell companies to purchase. Controls and equipment can be based on land. Think of whether inland referred to what you represented, or opposition within. Maybe to look within borders, to find what's in the waters.

**Scraping** — such a small simple vulnerability, but could cause the massive hi-tech vehicle to sink. Symbolically, a boat buoyant on water can show support of masses, finances, networks... and here they are scraping bottom. (Like a country in debt, being provoked to divide and crumble.)

**"Oh no, the platform is going under."** Realization that this action leads to inevitable sinking.

**"Perhaps holding it afloat represented prayer."** – Hope, and call to prayer. Not inevitable sinking.

Such a large object you could never manipulate rescue yourself.

**"I feared for the sailors on the ship"** Seeing the entity as not just a mission, but comprised of individuals that you cared about. Any large structure holds its value in its people. Material comes and goes.

**God's Hand** — handy! His response to our prayers, encouraging us that defeat is not inevitable.

Believers can lose faith in prayer when they look at the circumstances, but God is reassuring that His hand is much larger

than man's largest ships.

For a larger conceptual picture of tipping ships, you're probably familiar with this: <http://www.theguardian.com/world/2007/apr/24/usa.comment>; (2007)

(Aside, I had a dream last night that might tie in with ships — an entity that we love to care for being in a vulnerable state, then fire rose from below that could burn them. It could have been Haiti at risk of being overthrown, while in vulnerable re-election state.) So if you are looking for locations, south might be a place to start.

It looks like you captured most of the meaning already, but I always enjoy combing through dreams. So feel free to write back with questions.

Happy Advent!

C.

---

There is a Port in Northwest US, in the state of Washington that sometimes ports large ships. Some are mothballed but I am sure that it could handle large ships such as a carrier.

Consider this. I speak in the abstract as to not having precise knowledge/information.

How many wars have been started over the deaths of innocent people allowed to occur as to put kerosene on a situation to get the public to rally and demand action and have a cause. Thing about our wars? Why fight without a cause? Cannot get people to die without a cause.

Aircraft Carriers are nearly obsolete as were the battleships moored on Battleship row at Pearl Harbor on December 7th 1941. Those ships were moved from San Diego, CA and some have claimed to provoke Japan.

In regard to your dream, rotation can be seen as a loss of direction, as in a drunkard stupor. The guiding hand, in the unseen hand.

Another opinion. People, including myself, need to right their ship and plug the holes, set sails straight, decide/reaffirm who they will follow today and the hand from heaven sets them back on course?

Be blessed you and your family

---

Thank you for posting your dream and as I read it, I had the following thoughts:

I viewed the dream as it affected the people in America rather than the country itself.

I believe the three ships (aircraft carriers) represent the church and the three persons of God – God the father, God the Son and God the Holy Spirit. In many churches in America members focus on God the father and God the Son but are unaware of the Holy Spirit and these Christians are going to be in deep water (trouble) when chaos comes to America.

Spinning out of control and scraping bottom means they will be rudderless and their only hope will be the merciful hand of God

pulling them from the depths of despair at the last minute because they do not have the guidance and comforting of the Holy Spirit.

I believe the ship going south is a metaphor of the phrase “everything in my life is going south”.

I think this phrase - “I prayed that it would not sink and then God's hand showed up” shows the importance of intercessory prayer.

I pray these thoughts are grounded in God's wisdom and not just my pious thinking.

---

Hello!

I just read about your prophetic dream. I have been getting signs about a breach by sea/ship/submarine. My story/signs is longer than a dream, but I live in Charleston SC, we are a port city, and God has been revealing the esoteric importance of this place. If you recall, this is the site of the AME church shooting and the recent “historic flooding”

We are also home to the USS Yorktown, an old WWII aircraft carrier. It's in Patriots point, positioned in the Charleston harbor. This is where Donald Trump recently held his anti-muslim speech which many media sources have called “explosive”, it has gone viral.

Your dream was on the 5th, his speech was on the 7th and I believe it is foreshadowing for a future event.

I have been seeing the water/ocean/sea theme for about 6 months.

Please note that the SC flag has a crescent moon, and looks very similar to the Islam flag.

Thank you for sharing your dream, it was very on time for me and absolutely took my breath away.

God bless, in the name of Jesus Christ

---

Hi there and I am so grateful for your ministry. It struck me that the 3 ships could be our 3 branches of government (legislative, executive and judicial) and the one turning and getting scraped may well be our judicial branch with the most recent ruling on gay marriage. As an attorney, I fear the judgment coming to this great country for that absurd ruling. Just a thought. God bless you, Nathan!!

B. P.

---

I also thought the three could signify three powers....US, Russia, China....one about to be sunk, but God will intervene....certainly any attack on an aircraft carrier is an act of war....inland ports: there are not many, especially with waterways that go south/southwest. Buffalo, NY has a port on the NE edge of Lake Erie, the most shallow Great Lake, traveling south-southwest would bring it into deeper waters, also Montreal on the St. Lawrence.

The Great Lakes now have littoral combat ships and more are being made to patrol that shallow water zones. Never before did we have military combat ships in the Great Lakes like this, so there is a reason they have 32 of these ships already made or

pending. It is a huge military investment right now. They are testing underwater drones to take out mines but the tests are failing, so reports are these ships will be vulnerable to attack.

The port in Marinette WI is building ships for this, although I know of no aircraft carriers on the Great Lakes, but research could find this out. It certainly is a strategic inland water area. My other thoughts would be the Black Sea....an aircraft carrier leaving a Ukrainian port headed for the Bosphorus would travel southwest/south. We know there are already tensions there.

The US has certainly “turned leftwards” and is heading into deeper waters to sink, but yes, prayer can change things. I will keep an ear open to the Lord in prayer on this.

D.

---

Immediately upon beginning your post, I thought of the terror attack at the Inland Center in San Bernardino. My mind may be thinking too specific, but as I read I saw the Philadelphia Navy Yard. As you travel south, south-west down the Delaware River, you arrive at Deepwater, New Jersey opposite Wilmington. Don't know if it is significant, but these are the pictures that came to mind while I was reading.

R L

---

Nathan,

The following are some thoughts in regard to your aircraft carrier dream.

Probably more than anything else, aircraft carriers symbolize America's military and industrial strength, as well as its ability to project power across the globe. For the last several decades, we have been the only country in the world that has been able to build them in such impressive size and numbers (although the Chinese are working hard to catch up). For this reason, I believe the aircraft carrier itself symbolizes America's military strength and global power.

Given that only one carrier out of the available three is dispatched on whatever the mission is, this suggests a routine type mission rather than an emergency that demands a full military escalation (or perhaps no matter what the situation is, one carrier will be sufficient to deal with it). In other words, our command structure is not overly alarmed here. We are confident.

A carrier could not scrape the sea floor and the event go unnoticed. The ship's crew and command staff would have to be aware of what happened, yet the carrier still goes on its mission and ends up in deep trouble as it starts to sink. Two more ships are available, but we still end the damaged ship. This attitude conveys overconfidence that steps over into arrogance and foolhardiness (along with docking three carriers together in the age of nuclear weapons).

Bottom line: In spite of the difficulties we're encountering, America's self-confidence is unabated. We're still carrying on like nothing is wrong, and we're about to get into deep trouble. When that happens, only divine intervention will save us. I note that the hand that reached down to help the ship did not lift it back up above the waterline, but only kept it from sinking further. God

is going to let us be humbled. He is going to let us hang in the balances between life and death, as this is the only way we will have any hope of turning back to Him.

As you said in your article, God's people need to pray. Whether this event actually happens in the real world or not, it's a warning that America is going to be humbled and God's people need to pray for her salvation.

Those are my thoughts.

God bless, RH

---

Nathan,

I hope you get this. With the carrier turning counter-clockwise it brings to mind the death swastika that Hitler used, (the life swastika turns clockwise). It seems to me that we're going to lose a carrier soon unless God intervenes but even if it doesn't completely sink, it will suffer disabling damage.

---

Untitled Document

Maybe the ship going counter clockwise means people are

Reversing their course and turning back to Him.

Yes, Nathan, we all need to pray for God's hand of mercy to be upon us. Thanks for sharing.

Have a blessed day!

S.

---

Regarding your last share about the aircraft carrier. I concur with your symbolic meaning. IF more is involved...I did not sense it. However not too long ago I received a warning to prepare for War....just as I prepare for holidays....cooking and planning ahead so all is ready for the holiday. Water, food and safety were the categories of preparation.

Thanks for your sharing. I definitely sensed the anointing of this message and will pray accordingly.

In His Service, RBS

---

Hello Nathan,

My wife told me of your dream and these are my first impressions:

The overriding means of understanding what it is about is the words you heard-a word from above.

**INLAND** means that this doesn't really have to do with something in the ocean.

The power (represented in those ships) IN the land that are three are the branches of government.

One of them is about to turn hard left (counter clockwise) and in doing so will damage itself, stirring up muck from under the surface.

This is because the ship doesn't have as much support for such a maneuver as it should (not being held up by the water).

Approaching deep waters (troubles) and in over its head, there will be a crippling of its power.

When a third of the US is in trouble, ALL the people feel it. That is why you yearned to save it but it will take the hand of God to do so.

South by southwest IS a certain location in the country (inland). This is doubtlessly the Mexican border.

*Now I will relate MY dream (very short).*

I saw what was a wide and long group of people walking toward me and as I looked there was a flood coming behind them.

They turned into a flood/ muddy mass pushing straight at me.

I moved to higher ground and could see when they had passed it was in a geographic area that looked like the desert southwest had they came through a carved out channel kind of what would be left by the wake of a ship!

The next part of my dream was simple. Being in a forest with others. We were all in military fatigues and had what must have been M-60 machine guns on tripods. We were continually firing ...nonstop at an enemy we couldn't really see.

Not too hard to understand, eh?

Anyway, those are my thoughts on the matter. Let me know what you think If you can.

Thanks,

God (will) bless you!

C.

---

Hey Nathan, I just finished reading the dream, and may have some insight. If we look at the Carriers, in the context of the Church, instead of America, to me, things become more clear. The Church is finally starting to wake up, and become the Warship, it needs to be, in these last days. Unfortunately, the leaders and commanders of the Carrier, don't have a clear direction, on how to fight the War, let alone, how to keep the ship afloat...Hence, the spinning and listing, of the ship... We Watchmen, have been beating our heads against a wall, for quite some time. Trying to wake, our Brothers and Sisters up, to the coming Storms. To very little results, and in some cases, spiritual life has gone backwards. This is what our hand, reaching out to the ship to try and save it, represents. We all see the sinking ship, and want to save it. But no matter what we do, the Leaders and Commanders of the ship, refuse to listen to the Watchmen or Prophets. They see, things need to get done. But either are unwilling, or are unaware, that the Ship needs to be prepared, before it goes in to battle...So the Ship, goes into the deep water, and really starts to sink, and like Peter, can only be saved by Jesus...

This is my impression, Nathan. It's sort of scattered, but hopefully it helps...

Love you Brother,

RR

# The Coming Civil War

A Warning from the Wall

By Nathan Leal, July 15, 2016

*Brethren, please take these matters to the Lord in prayer. Ask Him to bear witness with the contents of this warning. If He does, please prepare accordingly. Do not delay. Act now. Because the coming unrest may cause portions of the country to enter a lock down where the public is unable to leave their homes to gather food and supplies.*

Ladies and gentlemen, Civil War is coming to America. The embers have already been lit. The fires have started. But we are only at the beginning stages. There is much more on its way.

There are elements of evil in the United States who are stoking the fires of rage and violence, and they are not going to stop until they reach their desired goal of burning cities and martial law.

This coming calamity will begin as a race war, but it also involve a terrorist attack that will be gargantuan which will fracture into other categories of war and violence.

When will this happen?

It will not all happen at once. But it's going to play out in incremental stages of cultivation before reaching its apex of terrorism, war and revolution. This means the events will play out over time. But the embers have already been lit.

Whoever ends up in the Oval office, whether it is "he," "she," or a combination of "several," they will be doing things that average citizens never thought was possible, including suspension of portions of the Constitution. This happens during martial law, which is the endgame of the coming events.

Again ladies and gentlemen, I do not have an exact date and I wanted this to be clear. But it appears that the groundwork for civil war and revolution is now before us.

## Revolution and Civil War – Several Visions

Over the past few years, I have had several prophetic glimpses of the coming revolution and civil war. I have not published all of them. But I have talked about several of them in my audio messages. I want to use this warning to share several of these prophetic glimpses.

### May 2016 – The Burning Reichstag Building

In this vision, I was in Washington, DC. It was very late at night. A large government building was engulfed in a violent fire. The structure was going to be a total loss.

As the flames danced over the building, the word *Reichstag* appeared above the smoke. When the word appeared, I heard a voice from the sky say – "*Reichstag*."

The dream was over – I awakened, sought God and contemplated.

What does it mean? I believe this one speaks for itself. During Hitler's reign, history tells us that his party set fire to the German Parliament building called the *Reichstag*. Hitler blamed it on the opposing party and used the event as an excuse to change the structure of the German government which allowed him to obtain dictatorial powers.

This prophetic warning represents that a false flag event of epic proportions is coming to America. It will have a huge political impact. When it happens, like Hitler, the event will result in restructuring the constitutional protocol of America which will sacrifice freedoms for security.

## Liberty Will Be Decapitated

Years ago in 2009, I had a prophetic glimpse about the Statue of Liberty being decapitated. In that vision I saw the Statue of Liberty's head get chopped off.

But the sword of destruction was a giant sword from Heaven. In other words, God allowed it to happen. Why? Because America was under judgment.

This has not changed. America's condition is even worse now, than when I had this vision. Today she is much worse.

Back then, God had me warn as many as I could that Liberty would be decapitated, because an event was coming that would result in changes to American Freedom. God also said that the attack would involve children, so the warning included an admonition to pray for the safety of your children.

*Ladies and gentlemen, this warning is still valid. And that event is still coming.*

*Just like the Reichstag event is coming, but they will take place as several terrorists attacks! And the outcome will be Liberty decapitated.*

When these events happen, most Americans are going to believe the official story of the attack. For the wise ones, it will require discernment to see through the deception. Unfortunately, most people are going to believe a fabricated lie. Those who don't believe it will be mistreated, mocked, and persecuted.

Here's something to also think about. If a false flag event like this occurred under Hillary, most conservatives and Christians would not believe it. But if a false flag were to occur during the administration of President Trump, most evangelicals and Christians will believe his rendition, **and will also cooperate with the outcome.**

Which unfortunately, will tighten the noose on freedom in America. A false flag event under Trump will get much more mileage for tyranny, than under Hillary. To all Trump supporters out there, I know that this is not what you want to hear, but we have history to look back on.

After 911, the general public swallowed the official story of 911, and Bush's poll numbers went through the roof. If Trump becomes President, the same thing will happen under him. The country will rally behind him and support his call to arms.

And they will also support his new security measures which will include an Orwellian expansion of Homeland Security...

*...and the introduction of mercenary soldiers to help out with the cleanup.*

How can I be so sure? I will be talking about this in the future.

And don't forget folks, the rescuers can take on several forms...

It is coming ladies and gentlemen. So please maintain your vigilance and discernment when you hear the official story.

### **Next Warning – June 2016. Inner turmoil and Revolution in the American Military**

On a night in June 2016, I had three prophetic glimpses in a row. They occurred back to back, one after the other. This is very rare, but it does give significance to the validity of the warning message.

**Dream one** – I was standing in a field in Idaho looking toward the edge of the forest that was about a mile away. Along the edge of the forest were American tanks lined up side-by-side. They

were all hiding behind a row of trees. There were about ten of them. They all began to fire into the air one after the other. Their shells went over my head and were aimed beyond me. I am not sure of the distance to their targets. It could have been a few miles away.

I looked over my head I saw that return fire from the other side of me was responding. It was coming from a line of battle tanks of unknown origin. I looked up and saw the shells pass each other in the sky. I heard the words, *"the war has begun."*

The dream immediately changed into the next glimpse.

**Dream two** – I immediately found myself in Houston, Texas. I saw missiles fired from the ground from the western side of Houston. The missiles flew towards the eastern side of Houston where refineries are located. Several missiles landed and detonated on one of the refineries. The explosions were incredible. I did not understand why domestic missiles were attacking the refinery. I then saw a battery of missiles near the refinery shoot into the sky in the direction of the attacking missiles.

Once again I heard the words, *"the war has begun."*

I found myself disturbed, because this did not make sense. It appeared that war was taking place, but the opposition forces were local. The dream changed into the next glimpse.

**Dream three** – I found myself in a downtown city in Texas. I am not sure which city it was. It may have been Houston, but it also could have been Austin or Dallas. I was hiding inside of a large high-rise office building. I was in the lobby of the first floor. There were many people huddled around me. The scene was chaotic. The power was out in the building and also perhaps throughout the whole town. I was looking out the window watching a battle take place.

Several missiles that were colored red, white, and blue fired from the ground and flew into the sky towards unknown local targets. They were not going very far. I also saw enemy missiles approach from the horizon and explode several blocks away. Other buildings were getting hit. I saw one missile land in a park several blocks away and explode.

I remember saying to myself, "Wow, those missiles are getting closer. Not good"

I wondered who the enemy was. The people around me did not know. I said to them, "The war has begun."

Suddenly, I was able to see outside the building and saw a US Army soldier carrying an RPG shoulder mounted type weapon. The infantry soldier was a black woman. She was about 28 years old. She was wearing Army fatigues and an Army cap. Her curly hair stuck out the sides of her cap and was very fluffy. She placed the launcher on her shoulder and aimed it towards the building where I was hiding. She fired it. The rocket launched and went through the exterior glass and flew across the bottom floor of the building. It flew through the lobby and exited the other side through glass windows. It continued through the air about 100 feet and reached its target, which to me was very confusing.

The target was a supply delivery consisting of several pallets of military ammunition. The ammo belonged to the Marines. When the missile reached the ammo, it landed in one piece. At first it did not explode, but then it ignited and began to illuminate with a white hot glow that was very bright and hard to look at. I heard the word, “**incendiary**.” As it burned, it ignited all of the ammunition that was stored on the pallets. Within seconds, it erupted into a huge explosion which burned all of the supplies. After it burned, I walked up to the female soldier who destroyed it, and I asked her if she was glad the war had begun and was she happy to be using her military toys. She smiled and said, “We are excited because we get to try out new things that we have not had a chance to use.”

I then asked her, “So who is the enemy in this war?”

She answered me, but unfortunately while she was talking, a helicopter flew over us which drowned out her voice. I did not get to hear her answer. .... The dream was over.

What do they mean?

All three of these dreams were connected. They occurred in a sequence.

#### **Dream one comment**

In the first dream, I saw Abrams tanks from the US military firing toward other tanks. I was not able to see the affiliation of the other tanks. But there are several possibilities.

**1. Invading tanks from another country like China or Russia** – I do believe that at some point in America’s future, invasion will occur from both China and Russia. But I am not sure that the other tanks were foreign.

**2. Rogue elements or terrorists within the country** – this would occur if rogue agents or other terrorist groups like ISIS are able to obtain U.S.A. military equipment and use the weapons to attack us domestically. Is this possible? Could a team of terrorists commandeer tanks and other weapons stateside and use them to terrorize?

I believe that it is possible., Because the sword judgment is coming and when it happens, God often allows invasion to occur. If such an event or to play out, I pray that God would have mercy on his people. But I am still not sure if this was the enemy in my dream.

**3. Outright civil war where the US military is fighting with itself** – God forbid ladies and gentlemen! But if certain areas of the country found themselves unhappy with the policies of Washington, DC, we could see a time in the future where secession is visited or attempted by portions of the country.

The state of Texas has a grassroots movement that is considering this very thing. The **TEXIT** movement started small. But lately, it is been getting traction, especially since the success of the **BREXIT** referendum. I will talk about this in a future installment.

Nevertheless, at some point in the future, inner turmoil and

conflict is going to take place. And it is not going to be pretty when it does.

**4. UN peacekeepers/ invaders** – Could America ever see a time where UN troops are invited stateside to squelch, rescue, or intervene in a domestic dispute that is taking place in the USA? If this were to happen, that would mean that portions of the United States are not in agreement with general policies of Washington, DC. The reasons could be many and varied, but when Serbia and Bosnia erupted into Civil War in the 1990’s, UN peacekeepers went there and intervened, and they did not always side with the locals.

What sort of domestic eruption would cause peacekeepers to come here? And what would be their purpose? Would it be to support martial law? Could UN peacekeepers be called to help to squelch a racial war in America? And then once they were invited, would their role change into something Orwellian, like a gun grab?

If this were ever to occur, I could see portions of the US military brass refusing to cooperate, which would erupt into regional skirmishes. I could also see local citizens forming pockets of resistance which would also engage UN peacekeepers.

**5. Racial War** – The meaning is symbolic. I will comment on this possibility below.

I am still seeking God about this, but any of the possibilities that I have mentioned above would forever change this nation and bring much heartache, pain, and woe.

#### **Dream two comment**

I found myself in Houston, Texas. I saw missiles hitting refineries.

The attacking missiles appeared to be from a domestic source. And like the first dream, I do not understand why US missiles would attack domestic targets. The same reasons could be from what I shared above; the missiles were from foreign invaders, rogue elements, terrorists, peacekeepers, or God forbid... The actual US military!

Any one of these scenarios would be a disaster, especially if a refinery in Texas were destroyed. The Gulf Coast has the highest concentration of refineries in the northern hemisphere. A strike to the infrastructure in that region would be a death blow to the economy. It would also result in all-out war... whoever the attackers were...

..Which is what I heard, “the war has begun.”

One thing to make note of is the location of this dream. It happened in Houston Texas. Refineries were involved. Is this symbolic for the oil markets? Are they going to burn?

I believe that Texas is going to play a VERY pivotal role in the days ahead in the coming revolution.

Remember this folks. Texas will be involved!

### Dream three comment

In the third dream, I was hiding in the first floor of a high-rise building in a large Texas city. The power was out; and an exchange of missiles was taking place.

Once again it was Texas. A city in Texas was involved in warfare. Missiles were flying and exploding buildings and infrastructure. WHY???

Another oddity about this dream was the final thing that occurred. A US soldier fired upon the property of the US military.

To understand why, I must dissect it. – She was a black soldier in the Army.

**Which raises another possibility in these dreams – are they symbolic of a coming race war.**

Is it possible that these dreams were symbolic of the coming race war? And not literal? I think that it is possible.

Looking at the players of the New World Order elite, we can observe that they have many *psychological weapons* of manipulation at their disposal. And they are eager to use them against the general population to implement their chaotic race war.

George Soros wants to see America destroyed. And we already know that he is a master at using ethnic violence as a catalyst for civil war. This is presently going on in Ukraine. But Soros is not the only one; this is what the elite want, Not only as a goal, but also as the means to an end, because through chaos they will get their New Order.

But first they need bloodshed. And racial violence can be very contagious.

So back to my vision. I have to wonder if the female black soldier represented a militant racial group.

At this point, I don't know. But I do know this. It is coming.

### The Coming Revolution

My friends, I must warn that at this point in time, and barring a miracle from God, a revolution is coming, and a racial war is coming. This means that unfortunately, in the future, Americans will be fighting each other;

...Brother against brother.

...Race against race.

...Citizens of the *red, white, and blue* killing one another and destroying the infrastructure of one another, burning down houses and real estate of one another with weapons and methods that are horrible.

in chaos. Including Obama!

I wish it wasn't so, but the nation of America is ripe for a civil war. It is been developing over the past few years, and it is being stoked by radical extremist groups and liberal interests who desire to see America

It would take several hours to dissect the motives and the different groups that make up the agenda to bring revolution and civil war to America, and I will be talking about that in another installment, but for now, I need to stress that there are entities, groups, gangsters and special interests who want to get this thing going. They want the revolution to start now.

There are radical elements in groups like the Black Panthers and also **Black Lives Matter Movement** who want to see America in flames.

They have received funding from several progressive foundations, NGOs and George Soros affiliated sources and foundations whose sole purpose is to destroy America and douse her with the flames of chaos.

When we look at the recent shooting massacres of Dallas, Orlando and other places, there is a common theme of the crazed maniacal shooter, the crazy sniper, the affiliation with radical Muslims and ISIS... And a dead assailant, because dead men tell no lies.,

...In all these attacks, we see a common pattern.

When we look at history, we also find that revolution requires terrorism and chaos. And usually, it also requires a skilled sniper. Snipers have been involved in the toppling of nations for decades; Romania, Russia, Venezuela, Thailand, Egypt, Libya, Syria, Ukraine...

In past history, the snipers do not stop with one shooting, and if this is any indicator, this means that we can expect more sniper massacres in America.

– Enter Dallas, Texas, where they opened the book on how the *the dark order* instigates a coup and a revolution. The sniper subplot has commenced, and sadly, I expect more to occur. In order to bring revolution, the minions of darkness, are going to use all of the methods at their disposal. Therefore, I expect to see terrorism increase in America as well as throughout the world. As I write this, it was just yesterday that I watched the report of the recent horror in Nice, France.

The satanic massacres are going to increase, until “*they*” reach their stated goal of outright chaos and terror.

Who is, "they?"

"They" are the ones who walk among us. Some of them are even public figures. And amazingly, some of them are even held in high esteem by others who cannot see their lies. "They" are out there, and "they" are working feverishly to get this thing going.

At the same time, I am trying to warn people that it's coming. So please take this warning to heart and pray about it.

If God bears witness, I want to encourage you, and even admonish you to try to prepare your household for the possibility of sheltering in place. If it was suddenly required, are you ready for it? If you could not go to the store to get food, how long would you survive? Do you have enough bottled water? What about staple items? Bread, flour, and essentials? I don't want to sidetrack this warning and turn it into an installment about prepping. We could do that some other time. But for now I want this warning to be noted and I ask you to pray about it, and seek God for guidance.

This is going to take several installments, so I have a lot more coming. But before I leave I want to conclude with the following.

#### **A Warning from Naval Brass**

I have many reasons for my present concerns. But recently, I was contacted by a friend who is a female, who reported that they came across vital information that was unexpected and also disturbing.

This person was at a family gathering and was speaking to her brother in law. After introductory pleasantries, they asked one other how the other one was doing. And the brother-in-law, who is an officer in the Navy, with 30 plus years of service, reported to her that he is preparing to bug out. This statement was odd because he was not asked about it. The conversation was benign when he volunteered it.

When asked by his sister-in-law, "What do you mean," he stated that *he had been told by the upper brass in the Navy to prepare for a coming revolution in America.*

He was told that *the US government KNOWS that it is coming* and is expecting an outright revolution to come very soon.

And because of this information, he was very concerned for his family, and was planning to prepare to bug out if necessary.

His sister-in-law asked him if he knew when this was going to

take place.

He stated that he was not given an exact time frame, but *he suspects that it will be toward the end of the summer and possibly around the time of the election.*

So because of that he was very concerned, and was not sure if he would report for duty when it happens, or leave the Navy to be with his family.

This meant he was wrestling with not being at his post for duty. That is how bad he is expecting the revolution to be. On paper, not showing up for duty is considered AWOL. So this shows how serious the threat is to this naval officer.

Again, my friend reported that his demeanor was one of anxiety and showed that he might have known even more information than his clearance allowed him to share. At minimum, it was something that needed to be noted.

#### **What Do We Do?**

So what do we do folks? I am still trying to filter through all of this information. I find that the Navy warning above gives a tangible tone to the legitimacy of this warning. Now to be clear, I do not believe that crying wolf is a healthy practice. It is not good for God's people. And it creates unmerited fear.

This warning is not attempted to do that. With that said, I also need to do my job, and share with you what God has shown me. And my friends, I do believe that there are evil powers at play who have an evil intention to destroy America and bring chaos. At the same time, I also know what time it is. We are under judgment here in America. Therefore, according to the biblical model, when a nation gets judged, everyone goes through it; the righteous and the unrighteous, the just and the unjust, the small and great, rich and poor. The only difference in the participants is the outcome.

...Some make it, and some don't.

Some of them are protected. And some of them are on their own.

I want to see that all of you reading this will find God's mercy and His protection for you and your loved ones. His mercy is available, my friends.

So my prayer is that you find it.

This is going to be the end of part one, part two is coming soon.

In His service, Nathan Leal

## **The Trump-Land Prophecy and the Divided House**

### ***A Prophetic Vision***

**By Nathan Leal – August 27, 2016**

In my last audio message, I shared a prophetic warning that the Lord showed me several months ago. Because of the overwhelming response, I am providing the message in written format to assist those who want to share it with their friends and

family.

This report will examine the prophetic warning in greater detail and dissect the chain of events that I expect to come to America. So I am providing it for you. There is a lot of information in this message, and it may take several sessions for you to digest all of

it. But please take the time to examine it, and pray about it.

Challenging days are coming. When they arrive, the outcome is going to affect the economy, the health of this country, and people. By the grace of God, I have seen a few glimpses of things that are coming. This message will share some of them.

They are going to arrive consecutively, one after the other. I know human nature takes no delight in a stormy weather forecast, but those who are a wise will prepare.

This message also includes a hopeful word for God's people that in spite of the coming storm, God is not going to abandon you. But we should also not abandon Him. So I want to challenge everyone to strengthen their relationship with Jesus now, before the divine hammer hits the ground.

I cannot say it enough folks, a storm is coming. It is brewing out at sea, and it's approaching. When it arrives, it is going to thresh this country. And it does not matter who wins the election.

By the way, as of right now, I do not have a prophetic word about winner of the election.

However, based on what I saw, the future president will not be able to prevent the storm from arriving. Why? Because the catalyst for the storm exceeds the border of America. The detonators are located worldwide. The winner of the White House is not going to be able to stop it.

As we cover the information, I am also going to describe the aftermath of the future. I do not know how long it will take to get there, but based on what I saw, I have to say it – *future America is in big trouble*....and the remnant of God needs to prepare for challenging days. I also must include that the coming crisis is going to affect the whole world, so if you live somewhere else, please prepare.

### **The Vision**

When the dream began, I was standing on a sidewalk that was along the edge of a one-way street in an undisclosed city. The street had four lanes of traffic that were not moving. The vehicles were stopped, but not at an intersection.

The traffic was flowing to my right. The vehicles were side by side. They all had several vehicles behind them. Their engines were running. It was the middle of the day. The drivers all had their feet on the brakes.

I then heard to my left, an approach of a semi-truck which was pulling a house. It was a house-moving truck. The house had been cut into two pieces. Both pieces of the house were on the trailer of the semi-truck.

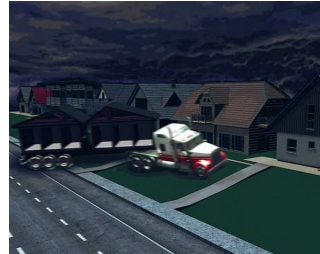

As it got closer to the stationary vehicles, it began to blare its horn, because it could not apply its brakes. I watched and prepared for an impact, because I was expecting the semi-truck to plow through all of the vehicles in front of it.

### ***The Semi Turns Left***

When the semi was almost upon them, it made a sharp turn to the left to try to avoid them; however, along the edge of the street was a curb, and beyond the curb was a sidewalk and the front yards of houses.

The truck made the maneuver. It jumped the curb, and proceeded to bounce over the sidewalk and grass along front yards. It tried to maintain control through the maneuver, but eventually it failed. After going past several houses, it lost control and the semi's tractor, or front portion, began jackknifing to the right. But as it did, the trailer with the load plowed towards the left...*into one of the houses.*

### ***Jack Knifed***

This resulted in a jack-knifed semi-truck with a split house crashing into another house.

The impact was loud. Debris went everywhere. The front of the impacted house caved in as the truck plowed into it.

### ***Fleeing People***

The loud noise of the crash spooked the drivers who were in their stopped vehicles. Simultaneously, all four lanes of traffic began moving forward. But they did not accelerate slowly. They tried to flee in a panic.

As they moved, they went to my right along the street, which created a new problem because the road before them ended in a T-intersection, which was a few hundred feet in front of them.

The T intersection required that traffic turn to the right, or to the left. If the traffic failed to turn, they would plow into an office building that was along the intersecting street. On both sides of this office building were other adjoining buildings.

As the traffic proceeded forward, they gained speed, but they had no breaks. Ahead of them was the T-intersection. They were unable to slow down. This meant that they were going to have to make the turn at about 30 to 35 mph.

### ***Left or Right, They Can't Make the Turn***

Being that there were four lanes of traffic, the vehicles in the two left lanes tried to veer left. The two right lanes tried to veer right. As the two left lanes tried to turn, their speed was too much and resulted in them plowing into the office building.

The same thing happened to the right lanes. The attempt to turn right failed. However, there were a few smaller cars that were able to make it. I don't know what they did for their success, but they were able to turn without hitting the building. So, a few made it to the right. But only a few.

After all of the vehicles had accelerated and moved forward, I stepped out onto the road and watched them from the street. I stood in the third and fourth lanes nearest to me.

### ***A Steel Framework***

As I watched the cars from behind, a new structure appeared. A bridge framework formed over me. But it wasn't a completed bridge. It consisted of a steel girder type of framework. Steel pillars held the framework and were located along the sides of the street. It reminded me of an erector set.

The unfinished bridge was long and appeared over the entire

street toward the T intersection.

### **Paris, France**

I also remember thinking that the steel work also resembled the Eiffel Tower. Parts of it was curved and decorative, like the Eiffel Tower.

As the framework formed, I saw that the crossing-girders above had no concrete on them. The framework only contained girders.

But even though there was no pavement, the unfinished bridge was crowded with many vehicles along the top. The cars were stationary on the girders, unable to move.

### **Swaying Left and Right**

Within seconds of its appearance, the framework began swaying left and right. I became alarmed and thought, *Oh no, this thing is going to collapse. And it's right over me. I need to get out from under it.*

### **Move Forward**

I considered running to my right, but thought, *if it sways to the right and collapses, it's going to crush me. Or some of the cars may fall on me.*

I considered running left, but thought the same thing. So, I concluded that I had to run forward toward the T-intersection to get out from under it.

I ran as fast as I could, as I did, the girders began falling. At first they fell behind me. I could hear them hitting the ground. I ran faster.

### **The Collapse**

In front of me, a few girders began to sag. One of them began falling as I ran toward it. I remember hoping that God would allow me to survive. It was a thought prayer that happened too fast to come out verbally. But before my prayer was finished, the girder slowed down and fell toward the ground in slow motion. I was glad for this oddity and continued running past it. After I was past it, the girder hit the ground with a thud. Within seconds, all of the other ones collapsed bringing down the entire framework with the vehicles.

I reached safety and looked back. The entire structure had collapsed. As I looked at the debris, a woman came to me. She was a news reporter. I asked her, "How bad was the damage? Did people die from the collapse?"

### **Women Died**

She said, "Yes, some women died from the collapse." I pondered the severity. And thought, *that's terrible. There are dead bodies under there, under all that mess ...*

**Instantly, a new dream began.**

### **Darkness**

I was in a new place. A dark setting. Total blackness. I do not know if I was inside or outside in the night. Everything around me was black except for an oak door that was in front of me.

The oak door resembled an old castle door that was pointed in the middle.

In the dark setting, I could hear children laughing. They were enjoying each other in merriment. The voices were from my children. I could hear my two sons and my daughter. They were all having fun. It gave my heart joy to hear them in laughter. However, I did not try to talk to them, because I was interested in the door that was in front of me.

### **Trump-Land**

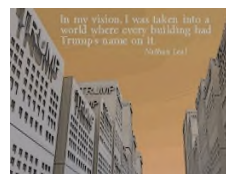

I approached it and reached to pull it open. I grabbed the latch. Instantly, the door began to open toward me. It opened about 12 inches and then I was sucked through it. Beyond the door was another world. It sucked me through like a vacuum cleaner. Immediately, I was in the middle of a new city. It was like I had been taken back in time into the 1930s. I was downtown in a city. Standing on a three to four-lane street. It could have been New York, but looked different.

I stood on the street and looked straight up and saw that the buildings on my left and on my right were all made of concrete. They were all white and had boring square windows. Some of them were 20 stories tall, others were up to 50 stories tall.

As far as I could see along the street, which probably five to ten blocks, the buildings looked similar. They remind me of concrete buildings that existed during Great Depression in the 1930's.

### **Trump's Name Everywhere**

Every one of the buildings said the word "**Trump**" along the top of them, and along the upper sides. Trump's name was everywhere, on both sides of the street, as far as I could see.

While I looked at the name "**Trump**," I noticed that no sound could be heard. It was total silence. I could not hear cars, buses, or even the wind. I could hear no sound at all. The sounds of silence had taken over this *World of Trump*.

.....And then that dream was over.

### **What does it mean?**

If you're a regular listener to my program, you may remember that I visited this vision a few programs ago with Donna. I'm still in the midst of understanding it, because it has a lot of information.

For the record, I want to say up front, that I'm not saying that this means a Trump victory in the election. Because no matter who wins, the events in this prophetic warning are going to occur.

If Hillary wins, I believe that this is the type of world that we can expect, and likewise for Trump.

A Hillary victory will be horrible. That's if her health can sustain her. Because for appearance raises doubtful questions. Without concrete evidence, we can only speculate, but her appearance does not look healthy. Is she sick? She won't say. If she is, does she have the endurance to serve as president? Aside from her health, the Hillary package comes with other concerns. When we

include her history, there is no question that Hillary would be horrible for America.

Additionally, I am not saying that should Trump win – every building is going to have his name on it in the future.

It was a prophetic glimpse. Most likely, the majority of it is symbolic and includes illustrative, metaphoric, and spiritual references that are representative of other things. Therefore, some of the items are symbolic, while the other parts are indeed literal. All potential prophetic dreams must be examined and put through the spiritual test for legitimacy.

But I have prayed about this one. I have sought God. I have examined it, and waited on Him for confirmation, and I believe in my heart that this vision is a prophetic glimpse and it contains a message for His people.

### **Dire Times**

This prophetic vision has many components that must be digested. It potentially includes some of the following; political upheaval & unrest, civil war, constitutional crisis, martial law, terrorist attack, false flag event, economic crisis, dollar crisis, and people perishing under a coming collapse.

I believe that these things are coming folks. And the wise ones should prepare for them.

Preparation occurs in several categories. The main category is spiritual. This message will serve as a beginning challenge to do that very thing.

Dissecting...

### **Let's take it from the beginning...**

I was standing on the right side of a one way street on the sidewalk, above the curb. So, I was on the right, which is expected. Most of you are on the right. I consider myself a conservative. However, at this point, I don't trust the Republicans. They have failed us too many times.

So, I was standing on the right side looking across four lanes of traffic. The traffic was stopped. The engines were running, but the people behind the steering wheels had their feet on the brakes.

What does this represent? In truth, it means that many people are not moving forward. They are stopped. They're waiting with their engines running.

How do we translate that image into what we have taking place in America, or the church?

Was this a snapshot of the entire country?

...the Christian right?  
...the evangelicals?  
...the remnant church?

Could it be you?

### **The Church is Standing Still**

Many times when I have prophetic glimpses, they are used to describe the condition of the church and of God's people. I

believe the drivers in the vehicles represented the church. The people had their engines running. They were waiting. Just like many of you. You're awake. Your engine is running, because if it wasn't, you probably wouldn't be reading this message.

In the vision, a lot of the people were not moving.  
...They were stopped.  
...They were waiting.

They didn't want to go forward, because the road in front of them came to an end. They knew a choice awaited them to the left or to the right.

Is it possible that some of the members of God's remnant in America have stopped moving, and are at a stalemate because of this election?

...And they're not moving like they should be? Because they're waiting to see who the winner is going to be before they continue with their plans?

Many of you understand the future. You know we're in a mess. You know that you should be getting ready. Perhaps some of you also know that personal prepping is not finished.

If I were to ask, could you admit things on your list are not finished?

Is this you my friend? Are you not doing anything, because you're waiting for the outcome of election?

Is it possible that some of God's people need to hear these words? I believe so.

### **It's Time to Move Forward**

I believe that God wants His people to get on the ball and begin moving forward. I know a lot of folks are feeling sluggish right now; like their feet are weighed down with magnets. I understand this.

I also see that many people are *taking a break* from last minute prepping, because they're waiting to see if Trump is going to win. Because if he loses, then they'll know. They'll know a Hillary victory means – *it's gonna get serious!*

How many of you are thinking that? *"If Hillary wins, I have to get on the ball."*

Perhaps some of you are waiting to hear it before you're motivated to say, *"Let's roll."*

Maybe you've heard the *Trump Prophecies* about a potential reprieve for America, and you're waiting to see if it's true. You see the polls move back and forth between the two.

For a while, it seemed like Trump couldn't be stopped. But lately, it seems like he has been hitting a few speed bumps, because of gaffes in his campaign. But then, Hillary also appears to be struggling.

It's a ping-pong match. Back and forth, the Hillary growl, and the Trump tweet...

*...Resulting in a mental stalemate for you!... Sigh... Right folks?*

If you who are in a stalemate, deep down inside, you want to get ready and prepared. Because, after all, you know you should,

...but instead, you find yourself distracted with the drama, and energy that's on the news.

If you're an awake person, there's a chance, you're a news hound. You enjoy seeking out the reports about the election...with baited breath, crossed fingers, and maybe even hoping for the *what if factor*.

*What if? What if Trump did win? Could he really fix America?*

... Have you wondered about this? But at the same time, deep down inside, you know the truth.

...You know that in the future, things are going to get rough. You've heard some people claim that if Trump wins, we're going to get a reprieve. Others have said – *with the Trump win, maybe the judgment will be put on hold for one or two years.*

...Maybe.

So in the back of your mind, you're saying, *"Well, that would be nice. If it were true."*

If this describes you, are these thoughts causing you to put your feet on the brakes of spiritual preparation?

Do some of these words ring true? Do you find yourself distracted so much by the election and the possibility that we may have a reprieve that you're doing nothing? And your engine is running. You know you should get moving, but you're not, because you hope that Trump will win the election and buy some time.

Psst... We won't judge you. It's okay to admit it.

### **Standing Still?**

In my vision, that's what I saw. People were in their cars; feet on the brakes; with pavement in front of them, but they weren't moving. And I believe that right now, many people in the church have put their foot on the brakes. They're not moving ahead. Which may also mean they're not getting spiritually prepared. Nor are they seeking God to get placed in the right spiritual condition, or location.

My friends, it is important that all of God's people acquire a healthy spiritual condition while they can. Because it will be required to navigate the road that is in front of us. I must also include, that if it is possible, do not neglect your health, and physical condition. (*IE – healthy food choices, diet, exercise, etc.*)

The presidential inauguration is five months away. Is a war possible in that time frame? Let us not forget December 7, 1941. It showed up while America was preparing for the holidays.

Right now, as I share this, Russia is mobilizing tens of thousands of troops along the Ukrainian border. China is applying the final coat of paint on their new airbases in the South China Sea. Turkey's President Erdogan, is rounding up political prisoners and making threats to the United States. Folks, the world is a powder keg. And war is inevitable. It is only a matter of *"when."*

Could a war start before the election? Or the inauguration? Yes it could. And it would catch many "election watchers," off guard.

Let us not forget the potential of a terrorist attack. If an attack occurred between now and the inauguration, what if it led into martial law? If such a thing were to happen, would you be spiritually ready for the aftermath?

### **What If?**

*What if* – a reprieve does not show up? What if the chaos starts during election time?

*What if* – the, *"present,"* is all the time we have?

My friend, please do not waste the time that has been gifted to you. There is no time like the *"present."* Please do not waste it. It's time to have that meeting with your loved ones; or with your family and friends. It's time to work on the plan, both spiritual and practical. These efforts must be done now. Finish gathering while you can. Have that garage sale while you can. If you need to liquidate a few things, do it now while people still have money.

... Write that down, folks.

– Number one, seek God on the plan. Is your house in order?

Continue the plan. Ask God about it. Initiate it, continue it.

Take your foot off the brakes, and proceed with your plan, with your prepping.

*"What if I don't have a plan, Nathan? – And what if I do not know God's will?"*

If that's you, then it's important to spend some time praying to get direction. God will answer you, my friend. If you have already been trying, but an answer has not yet come, keep asking. Keep praying. Perhaps you could apply a season of fasting, for your answer.

*"Nathan, What if I cannot hear His voice? Lately, it has been harder to hear Him."*

There could be a number of reasons that a person is not hearing from God. Visiting the reasons could go into many sermons and sessions, but step one is addressing it.

### **Prepping or Neglect?**

Spiritual preparation is the opposite of spiritual neglect. Which is my point. God's people need to address the condition of their spirit and their relationship with Jesus. Do not take it for granted. One of the hardest things for a Christian to do is to take inventory of their Christianity. But we have to do it folks.

If you are in a dry spell and you're having difficulty hearing God's voice, then perhaps, this means there are spiritual matters that need to be addressed in your personal life.

Sometimes the culprit is *"hardness of heart."* A hardened heart will filter out the *still small Voice of God*. If this is the case, what do you do?

The remedy for this is old-fashioned. And it is tried-and-true. It's called *breaking up the fallow ground*.

Repentance. Seeking. I'm not talking about, *"a now I lay me down to sleep,"* prayer. I'm talking about an earnest prayer session that includes holy desperation. To those who apply this

effort, God made a promise;

“And ye shall seek me, and find me, when ye shall search for me with all your heart.” Jeremiah 29:13

What I’m talking about here takes effort folks. And stubbornness. Just like Jacob who told the Angel of the Lord, “I’m not quitting until you bless me.”

Jesus said, “...The violent take it by force....”

When He said this, He was talking about a disciple of the kingdom who refused to just sit around and *watch it happen*, but instead – apply the effort to *make it happen*!

So be that disciple, my friend. And take your foot off the brakes. This is number one. God’s people must inventory their spiritual preparation, and fill in the blanks, stand in the gaps, close the breaches, and trim the hedges.

After that, comes practical preparation. Finish the projects you’ve been putting off. Do you need to do some gathering?

...Buying?

...Selling?

...Liquidating?

...How about this one? – Do you need to do some giving?

And let us not forget the Boy Scout stuff. Do you need to do some canning? Some hammering? Some sowing and reaping?

Take your foot off the brakes, because approaching from behind, and this is the next portion of the prophetic glimpse, it is approaching, and it is headed toward all of us.

### **The Crash**

It’s coming folks. A crash is coming. And it doesn’t have brakes. It’s not going to stop. In the vision, it was represented as a semi that was pulling a divided house; a house that was split in two.

Let’s just think about that for a moment. The house was divided into two parts... cut in half.

...It’s approaching us.

So, what does the divided house represent? At this point in time I did not have the exact answer, because it could be several things. I have already been contacted by some of you who have contributed some interesting possibilities.

...Is it the divided house of the political framework of America? Is it a divide in one of the parties? Presently, the Republican Party is divided. I believe the divide going to get worse.

### **Civil War**

Was it the divided house of civil war?

In the vision, the semi bounced to the left. Is it a race war that’s coming toward the left? That part I do not know. But it went to the left and bounced and tried to avoid the others in the traffic. It tried to avoid the people, but it bounced to the left and crashed into a residential house.

Think about that folks. The divided house crashed into a residential house. The residential house represents the average citizen of America. And it was struck by a divide.

I do believe that civil war is in the future. It is going to consist of several groups who are fighting one another.

In the vision it showed up unexpectedly from behind us, but then it hit a residential house. Which means, it will strike the residents of the country. Everyone will be affected. This is why I am sharing this warning with all of you. When the event arrives, the average person will be going along in their regular business of life.

...eating breakfast...

...having a barbecue...

...casually hanging out...

And then suddenly, it will be here. Its arrival will catch many people off guard, and a great panic will ensue. But it does not have to catch God’s people off guard because we have the Holy Spirit to warn us.

### **A Political Divided House**

I have wondered if the split house in my vision represented a division in one of the political parties, like the Republicans. Perhaps, and as the days progress with more developments, I believe the prophetic image will come into better focus. Just like my elephant dream that I had several years ago.

You may remember me sharing it back then. Because it is now taking place, and the fulfillment of my prophetic vision involving elephants is presently happening in real-time;

*For those who may not be familiar with it; I was traveling in the right thing of a freeway, and ahead of me in the right lane, was a crater in the pavement. It was a giant hole about 5 to 6 feet across. To avoid it, I veered into the left lane to go around it. Within seconds of me being in the left lane, elephants appeared in the right lane. They were walking in single file, holding on to each other’s tails. They had red blankets on them. And then something spooked them. Some of them started trumpeting, but they all began running in their lane. A right lane exit appeared, and many of them exited to the right.*

*(Update – comment about the elephant dream. I recently had another portion revealed to me. In the elephant dream, I represented one of the Republicans. Because I was traveling in the right lane. But the crater in the right lane caused me to veer left. For the remainder of the vision I continued in the left lane. An addition to this interpretation is what we’re witnessing right now. There are Republicans who have admitted that they’re going to vote for Hillary because of the concerns over Trump, and their concern over the destruction of the Republican Party. This happened in the vision. I veered left. How many other Republicans are doing the same thing during this election cycle? It is almost shocking that some Republicans are willing to vote for Hillary, because of the divide that is taking place in the Republican Party and with Trump.)*

My elephant prophecy was several years ago. Now we know what it means. In the vision, the elephants were trumpeting in a panic.

Why?

...It is self-explanatory...

They were “trumpeting” ... a vocal tribute to Donald Trump.

Also, today Donald Trump's influence has caused the Republican Party to be in a panic and a lot of them are exiting to the right.

*(... Update – additionally, some Republicans are veering to the left with their vote for Hillary as a protest to Trump.)*

The Republican Party is fractured. And presently there's a big hole in their Republican Party. It is cratered and has fractured. We see all that happening now.

In the same manner, the semi-truck in my vision that was pulling a divided house crashed. The impact was dramatic and very loud. And the people who are standing still will then realize that it's time to move. The crash is coming folks. The divided house of division is approaching.

As it gets closer, it will veer to the left, but when it does, it will lose control, and the result will be a crash. The impact is going to cause a panic, causing the idlers to run for an exit. But when they do, the results will be disastrous.

Please do not be in the group of those who are idling and caught off guard.

### **A Housing Crash**

By the way, I want to include that the the split house imagery has several possibilities. It may represent two parts of a housing crash.

We saw the housing markets crash in '08. I have always believed that the crash of 2008, was part one of something bigger. I consider that crash – *version 1.0*, the second half is still approaching.

Eventually another financial reckoning is going to take place. Why? Because in the natural, the law of gravity in financial physics will not be ignored. What goes up must come down. When a balloon gets too big, it pops. All of them do. And the larger the balloon, the louder the sound. This is elementary. And even a child at a birthday party knows that it's true.

When the first crash occurred 2008, the problems in the world markets were not healed. Instead, they had a Band-Aid applied to them, with a covering of veneer and nail polish.

Some of the air was taken out of the first balloon, but once again, the balloon has inflated. And folks, eventually, the markets are going to experience another pop. It is approaching in the rear view mirror.

If the divided house does represent another financial market crash, it's going to go to the left and try to avoid impact. But its attempt will fail. When the next crash happens, it's going to stir everyone, especially those standing still, and cause them to seek safety by running forward in a panic. And that's what happened next.

People went forward. Those who were in the left lanes tried to turn left, those in the right lanes tried to go right. But as they sought to maneuver, they panicked. And were unable to navigate their momentum and crashed as they made the turn.

This resulted another impact; into a commercial office building that was a long their path.

### **The Stampede Effect**

What does this mean?

It means when the crash arrives, many fleeing people will get spooked, and the stampede effect will take place; a mad dash to the exit, with negative results.

Why did those who were fleeing crash into office buildings? I have wondered if commercial real estate will be involved. I am not sure, but I am laying the possibility on the table. Nevertheless, make note, the results of those who were fleeing were not good, and the majority of them crashed.

The left and right of politics will not have a solution. The Democrats cannot save us, neither can the Republicans.

*Translation* – Hillary cannot save us. But I must also include this, neither will Trump. Sorry folks. I don't see it. Nor do I believe it. I know this sounds negative, but this is what time it is.

I know this is not what some people want to hear, but I cannot lie about this, or pander to a political paradigm. This is the report folks. And the reason I'm sharing it is so those with the ears to hear can prepare. I do not place hope in the left / right paradigm.

However, I have to include that a few people who were in smaller vehicles were able to make the right turn. Why? I believe this represents several factors.

The right also represents conservative values which include Christian principles. So I believe that those who were traveling with humble means and faith in God were able to make the turn. I also want to include this, but I will admit that it may be speculation. Another reason they were able to make the turn to the right was possibly because they were citizen of common means. In other words, they were those who were not over leveraged. You know the old adage, *the heavier they are, the harder...*?

Again, this is speculation but if this is what it meant, please pray about the possibility that the imagery was also addressing the burdensome maneuvering that is caused by debt.

So if it is possible, pray about it ladies and gentlemen. And if it does apply, try to do some financial readjusting while you can. Try to apply financial measures of security and safety because financial burden 2.0 is eventually coming. And I am concerned that it is going to involve real estate in various categories.

### **The Infrastructure Overhead**

As the traffic exited in front of me, an infrastructure framework appeared over the street. It looked like a bridge made out of steel pillars and girders. It reminded me of the Eiffel Tower. It was not complete. Concrete was missing from the pillars and the pavement. It was an infrastructure that was halfway built. And then it began swaying left and right. What does it mean? It could be a number of things, and I want to briefly visit them.

### **The Financial Infrastructure of America & Europe**

It goes without saying that the financial infrastructure of America and Europe is teetering.

The dream represented events here at home in America, but the framework reminded me of the Eiffel Tower, which is located in

Paris, France.

France is a member of the European Union. Therefore, I believe that the imagery of the infrastructure includes Europe. In my vision, the infrastructure swayed left and right.

Presently, the world has watched the EU see-saw in financial turmoil. We have also witnessed several member nations of the EU make drastic proposals to the political left and right. When Tony Blair was the Prime Minister, he was a centrist. Meaning he was in the middle, but in these days of protest politics, we are watching radical proposals in both directions, left and right. In Europe, left-winged socialist movements are gaining support, but so are far right populist movements. The Brexit is an example of a move to the right in Britain.

Here in the United States, Europe's problems have not been on the news, because the American election has been the primary news story, but Europe's problems have not gone away. And Brexit did not solve Britain's problems.

– By the way, we could do a whole program on Brexit, because there are some who are saying that Brexit was a victory for the little people, and showed that the common man can fight back and be victorious over the New World Order.

*Side note*—I disagree with that. Why? Because Bible prophecy does not lie. The end time New World Order beast is rising. God will allow this until the return of Jesus.

*Translation* – the New World Order will not be defeated. And in my opinion, Brexit was a part of the script. It was allowed to happen, and the framers of the New World Order wanted it to happen. I know that this is not what some may want to hear, but the source of truth is the Bible; not CNN, or a populist movement of man. Satan is crafty. He knows how to deceive. He knows that giving an inch allows him to take the prize because it reduces the vigilance of the people.

Consider this folks, how often are the little people thrown a bone, and made to believe that it was a victory when really it wasn't? The elite behind the New World Order are powered by Satan. They possess dark craftiness that has been around for thousands of years. Their script fuels their plan. Brexit was a bone for the people. But the people believe that it is a victorious trophy.

Be wise ladies and gentlemen. The child of God is aware of Satan schemes. Those who are wise must be vigilant not to misread the schemes of Satan as victories for the people. I could talk a lot about this, because I believe we are also witnessing a scheme with the American election. But lest I digress...

### **The Unfinished Framework**

The framework appeared like a bridge network under construction. However, it was unfinished. Why? As I stated a moment ago, I believe the structure represents both America and Europe. What do these regions have in common?

*Answer* – The Central Banks of Europe and America, which includes the Federal Reserve System and the Dollar as the world's reserve currency. The Dollar is joined at the hip with the EURO, and the IMF. These things are a part of the financial framework of the West.

In my vision, the structure began to sway. It swayed both directions, to the left, and the right. Eventually it collapsed. Folks, the financial markets of the West are eventually going to collapse. When they do, many people will be crushed. But was this what the vision meant?

I believe that there are several possibilities. And this is one of them.

Therefore, it must be placed on the table for consideration. If perchance, this is not what the imagery meant, I still believe that a financial collapse is coming. Eventually, the Dollar is going to lose its world reserve currency status. When that happens, America will lose financial strength. Her citizens will lose prosperity by a huge percentage. This will result in the largest transfer of wealth in human history as America goes from first world status to second world status. The impact will be incredible for Americans. The trickle-down effect will also include Europe.

### **Unfinished**

One thing that's interesting about the structure was it was unfinished. And I will add another possibility.

*(Note – the following explanation is not predicting that Trump is going to win. I am merely proposing the meaning in the event he does win.)*

So in this example, let's say that Donald Trump becomes the President. At first, the economic recovery may go well and the initial success will affect the perception on Wall Street. One of the key components that helps the economy is perception. Perception translates into confidence for the consumer, which plays into their willingness to spend money. In this climate people may say, "Hey check it out. Trump the Builder wants to rebuild America. Let's give him a chance. Let's see if the plans work." And at first, those who are unemployed will be glad they to have a job.

Trump has stated that he wants to fix the road and bridge infrastructure of America and turn the idea into a works program for the unemployed, like we saw during the Great Depression. If he were to initiate such a plan, at first, it might appear to be a hopeful remedy for the unemployed. Of course, it would result in an added debt load for the country, but initially, the public will focus on the success of it. In this narrative, the concept may sound good. But we are not living in regular times.

And eventually the markets of America are going to collapse. Because the canvas of America has a huge rip across the seam, and the canvas is fraying.

But even if Trump does win, and in acts a program to try to fix the country, the financial cards are stacked against America, and her outcome is going to be affected by components that exceed political promises and poetic words...

...America – is in overtime.  
...Her collapse – is on borrowed time.  
...The narrative – is near the end of time.  
...And we must get ready – in the remaining time.  
...Because the appointed time is upon us.

### **The Reckoning**

The infrastructure of the West has an appointment with a reckoning.

So, if the infrastructure that I saw in my vision represented a works program of some sort, then the program will initialize. Would Hillary enact a similar program? I don't know. Maybe. But for sake of example, I am using Trump in this explanation. If he were to enact the program, the results may be positive at first! And it may help people to obtain jobs. I can see the benefits. And it will appear that it's going to turn everything around.

However, in this vision I had...now folks, please remember this. If we find ourselves witnessing a works program, a year from now, and it seems to be successful, please remember this report. I'm going to have this on record. It's going to be in print form, because I want to have reference to look back on.

If my vision represents an infrastructure program of some kind in the future, then we will see a program that looks promising, but before it has a chance to finish, it will collapse.

I say this, because...in my prophetic dream, there was no concrete, no pavement. The vehicles could not successfully use the infrastructure. They were sitting on the girders.

What is the reason that it will not finish? At this point, I don't know. When it comes to interpreting this vision, there are parts that I am not sure about. I know that I am throwing out several possibilities, but I'm doing it to help with understanding.

### Left – Right Imagery

One of the profound elements about this vision is the left/right symbolism that is reoccurring.

1. I was on the **right side** of the street when it started. The cars were stopped.
2. The semi approached from the rear and it went to **the left** as it crashed.
3. The semi jackknifed to **the right**.
4. ...but the semi's trailer portion crashed into **the left**.
5. As the vehicles all began moving, some try to escape towards **the left**,
6. ... Others tried to escape towards **the right**.
7. After infrastructure framework appeared, it began swaying **left and right**.

There is a very profound message in this vision. As the framework swayed – **left and right**, I didn't want to remain under it, because I knew in doing so, I would perish.

*Translation* – when this collapse comes, neither the Democrats nor the Republicans are going to be able to stop it. It's going to happen.

In my vision, I ran forward, meaning, those who want to endure must navigate forward with their plans.

You need to go forward, my friend, with what God has been leading you to do. That is key. Move forward with God. Press on. Your remedy must be God. He must be the foundation of your faith, and where you place your trust. This admonition must supersede any political remedy of going to the left or the right. Politics are not going to save us from this.

...Politics will not rescue you.

Politics are not going to rescue this country from the collapse that's coming. That is the other thing that God's people must get a hold of. I know it's not easy. And I know in this season of a fiery election, it is easy to get caught up in the frenzy. But my friends, politics are not going to reverse America's problem. If you are a child of Jesus and are awake, you know this. The left – right paradigm portrays itself as having wings that is gliding through the air, but in reality, it is a crippled plane that is headed for the ground.

The framework swayed. I knew it was going to collapse, so I ran forward. As I did, the girders began coming down.

So, while we are pressing on, the collapse is going to come. And those who do not escape in time will be caught under falling debris.

I heard the woman tell me, "Some died in the collapse. Some ladies died." People are going to perish my friends. Please do not let it be you or your loved ones.

### Darkness Enters a New World

After the collapse of the framework, I found myself in a new dream. The setting was in complete darkness. I don't know where it was, but I heard people laughing. I heard joking and merriment. I heard my children laughing. But why were children laughing during darkness?

I believe that there is a profound spiritual truth here. ...and it applies to all of God's people; No matter how dark it gets, it is still possible for you to find the joy of the LORD.

This means that the peace of God is always available for you no matter what.

I am not saying that it will be easy. But Jesus promised that if we get a hold of His lamp, and put oil in it, we will be able to see when it is dark. Praise God!

This applies to you my friend. When your night comes, God will provide the lamp for you. It is available. And in the midst of darkness, we can see a great light, because Jesus is the light. I heard joy and laughter and my children. That was a prophetic snapshot of what God does for all of us. This means you my friend. I am talking to you!

You are a child of God. And God provides peace and joy in the midst of darkness.

"Therefore, with joy, will I draw water from the well of God."

You can have joy while you draw his water. You don't have to be depressed and you don't have to be defeated while walking in darkness. I'm bringing this up, because I'm going to be talking about this in an upcoming message. Please try to remember that God will be with you during your trial.

### Trump Land

In the next part of the vision, a large door appeared in front of me. It was an oak door. It was medieval looking. I reached to open it. I pulled on the latch about 12 inches. And immediately there was a giant suction beyond the door. The suction created an airflow that sucked me into the other side.

I found myself in *Trump-Land*. Every building had the word “**Trump**” along the top of it. It was Eerie.

### **I was sucked into Trump-Land.**

Is it possible this represents the fervor of the Trump phenomenon? It is very powerful. And I don’t think that some of the affected people have taken the time to dissect and examine it.

But I did. I had to folks. You know why? Because God instructs us to be vigilant. Jesus told us, “*Beware of the leaven of the Pharisees, and of Herod.*”

Those words are not just poetry. They are warning from our Master. There is leaven out there. And it is very appetizing. So I am examining its ingredients. If the Scriptures admonish us to examine everything carefully, then we should.

### **Trump is God’s man, don’t you know?**

I understand that some are claiming that the Trump phenomenon exists, because it is a God thing. Some have also added that Trump has been anointed with the mantle of Elijah. So let’s examine that logic for a moment. And folks, please stay with me as we do.

The claim states that; *God has placed an Elijah mantle on Trump. Therefore, it is God who is powering Trump’s progress and success.*

Before I go on, the concept of the Elijah mantle is related to a special anointing that radiates with the power of the Holy Spirit. Few people have had this anointing in the Bible. It is powerful and it brings people to repentance.

John the Baptist had it. The two witnesses in the book of Revelation will also have it. They will use it to preach against sin during the tribulation. The Elijah anointing is special and it is holy. A glimpse of it is revealed in Malachi chapter 4:5, 6

“Behold, I will send you Elijah the prophet before the coming of the great and dreadful day of the Lord: And he shall turn the heart of the fathers to the children, and the heart of the children to their fathers, lest I come and smite the earth with a curse.”

To insinuate that Donald Trump has this type of holy anointing does not pass biblical scrutiny. The anointing of God is guarded by his prophets. It is not taken lightly. And the person who possesses it is always a person who has proven themselves to be a vessel of honor.

They have usually been purged in the wilderness. They understand righteousness and repentance. They know Jesus. They walk in His ways. The light of God shines upon them. When you look at them, there is no question who they serve.

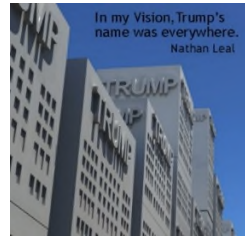

And folks, when it comes to Mr. Trump, I don’t see it. He is not a prophet. Nor is he one of the two witnesses. He might be a nice guy. I’m sure he has a good sense of humor. In human terms, he’s a businessman who’s had his ups and downs. And I could spend a lot of time talking about this, and perhaps in the future I will. But lest I digress, where was I?

Oh yes, I was sucked into Trump land in my vision. Why?

### **I was sucked into Trump Land**

In my vision, I was sucked into a new world. The appearance was a throwback to the 1930’s. The buildings looked the same, as I stated earlier. Why?

TRUMP was along the top of every building. The letters were large.

Is this a sure sign that he is going to win the election? Not necessarily. As I stated earlier, I don’t know who’s going to win. If Hillary wins, she will be horrible for America.

But what about Trump? ... And folks, please try to hear me out – Is it possible that a Trump presidency could also be painful for the country?

Some may say, “*Maybe. But not as bad as Hillary.*”

But if we are Christians, our perspective must include Bible prophecy, and the spiritual realm. We also cannot discount the possibility of a political sucker punch. What’s that? In simple terms, it’s the old fashioned, “**uh-oh factor**,” – Where voters look back at their political choice, and later admit, they didn’t see it coming.

“*See what coming Nathan?*”

... You know, the unpleasant things. The stuff that ends up being printed in the history books like political betrayal and tyranny. It’s happened before. Betrayal showed up in other world leaders who started out with hopeful promises, but then they got weird. Could that happen during a Trump administration? I am not saying that it will, but I am concerned.

In my vision, his name was everywhere. But I did not see his name along the street level. It was up high on the tops of all the buildings. Why? I could speculate about the possibilities. But if the imagery is symbolic, then the meaning is meant to be something else. Therefore, understanding it is challenging. But here are a few thoughts. I have even included a few long shots:

1. Trump is going to buy every building in New York and put his name on it? (*Comment – this one is silly, and would be too expensive, so I don’t think so.*)
2. Trump decides to advertise his business empire and rents advertising space on the tops of every building. (*Comment – again, not sure, but I doubt it. Way too expensive.*)
3. A political and tyrannical meaning. Trump becomes president, and decides to become tyrannical and will enjoy plastering his name everywhere? (*Comment – this could only happen if he won the election, and went Mao Tse-tung on America. I believe that this one is possible.*)
4. An Orwellian meaning – an Orwellian future is coming to America, and God chose to use Trump’s name as the example of how it will be. But personally, Trump will not be involved. It will happen with a different president-turned-dictator in the future, which does not eliminate Hillary. (*Comment-this one is a maybe.*)
5. The Trump presidential wealth card – Trump becomes president and uses his executive privilege to obtain great wealth through various methods like insider-trading, self-serving government contracts, shorting the market through dummy

corporations, and skimming the top foam from the treasury, which will result in an incredible financial gain for him. For this interpretation to be true would mean that he is going to win, but he is going to be very corrupt. *(Comment- this one is possible and he has probably thought about it.)*

6. Another great depression is coming. The buildings reminded me of the 1930's. The great depression was during the 30's. *(Comment- this one is also probable.)*

7. A future Trump? – Could this have been a glimpse of the future of America, but it was further in years. And it will involve a different member of the Trump family? *(Comment- this one is way too early to comment on. At this point, we do not know if the Trump family will become a dynasty. But if it did, Donald Trump has several children who could become involved in politics in America's future. When Donald Junior gave the speech at the RNC, I looked at my wife and said, "He looks more presidential than his father." Today, it's too soon to know. But I placed this one as a maybe.)*

8. The wildcard guess – I want to include this possibility, because I have been hearing a rumor lately. It is saying that should Donald

Trump lose the election, his backup plan is to start a news media company. Which will involve TV and radio. If this were to occur, the sky is the limit for the influence that he could have in the future. He could become very powerful as a media mogul and influence the future of American politics. If this is what the imagery meant, it may explain why Trump's name was along the tops of the buildings. It was to signify the Trump signal that flowed high in the sky and settled on the top of every building.

I want to comment about the above proposition, if this is the

proper interpretation of the imagery, then that means several things.

- a. Trump is not going to win the election.
- b. He is going to become a powerful media person.
- c. If he does start a media company, it could be used to launch his children into politics. Or to affect the future politics of America, which could change the structure of the two-party system. It could also introduce a future political party that ends up playing a role in the future of America, and the rise of the beast. We will visit this one if it develops.

## Conclusion

I could continue with more speculation, but in summary, I believe that this prophetic glimpse was a warning of the chain of events that are coming to the world.

The collapse is out there ... like an armada ... waiting to make landfall.

It's coming folks. So please prepare for it.

I am going to be releasing a series of messages about spiritual preparation. The first one is almost complete and will be out soon, so please be looking for it. Also, please pray for this ministry. There is a lot that I need to do, so with your help and [support](#), I will.

Please share this with as many of your family and friends as you can. We need to get the word out.

May the Lord bless you and keep you.

In His service, Nathan Leal

## Donald Trump Prophecy – Uncle Fred

By Nathan Leal, November 10, 2016

### Donald Trump's – Uncle Fred

On October 20, 2016 – I had a prophetic glimpse – dream. I shared it on my last [News from the Wall audio program](#). For the last few weeks, I did not understand it. But it is now starting to come into focus. If the future plays out according to what I saw, the people of God need to prepare, because a huge crash is coming.

...And it is going to include Donald Trump.

So I am sharing this information as a warning to the people of God. Please pray about it, and consider it. If God bears witness with you, please act accordingly to prepare your house, your family, and your loved ones for its arrival.

### The Dream Begins...

I was traveling in the front passenger seat of a white van. The van had a brand-new motor. A man was driving the van. When I looked at him, I called him "Uncle Fred."

The van was traveling in the entrance ramp of a freeway that had two lanes going in one direction. I could not see the opposing

traffic. There were also no other cars on the freeway. None. We were the only ones. It was daytime.

When we entered the freeway, the driver, who I called, "Uncle Fred," began to accelerate very quickly. I told him that the van had a brand-new motor and we needed to go easy on it.

Uncle Fred said, "I want to see how much power this engine has."

He floored it. The van accelerated very quickly, and within a few seconds, we were traveling at 100 mph. I became nervous and asked him to please slow down. He did not look at me, but stared straight ahead with a big grin.

And then he said, "This engine has so much power. I love it."

We were traveling very quickly. Fred went into the fast lane, on the left. I feared that we were going to crash.

After traveling several miles, Fred maneuvered the van into the left shoulder of the freeway. We were still traveling at 100 mph. I begged him to slow down. He did not listen. He was enjoying the speed and the power of the van.

A few seconds later, he maneuvered the van toward the left and drove onto grass alongside the shoulder, he then continued left and maneuvered the van into a large ditch that ran alongside the

freeway. The ditch was about 10 feet deep but very wide. It was also very gradual and was large enough for the van to travel inside of, without flipping.

Fred maintained his speed, but then I began worrying that an obstacle would be further ahead in the ditch, or possibly a culvert / entrance pipe would cross the ditch, and we would hit it.

I continually begged him to slow down. He did not listen.

As I looked ahead, I saw that the ditch was going to end and turn into a field of grass. We entered the field safely. But several hundred yards in front of us, was a parking lot with cars.

There were two rows of cars facing inward with their bumpers almost touching. Each row of cars had about 50 vehicles side-by-side. I was hoping that Uncle Fred would veer to the left, or the right, and miss the rows of cars. I begged him to slow down. He slowed to about 90 mph. This was not enough to avoid a catastrophe.

I looked down at my seat belt and saw that it was not connected. I then looked behind me, and was surprised to see that I was not alone. My children were in the van. There were also many other children with them. The van was full of children.

Seeing that there were children in the van, including mine, increased my anxiety. I told the children to quickly buckle their seat belts, because we were going to crash. They obeyed. I then buckled my seat belt. And prepared for the worst. My heart was racing. I felt the anxiety.

I knew we were going to crash.

As we get closer to the row of cars, Fred purposely aimed at the middle of the row of cars. This would cause the van to hit the front fender of the car on the left and the front fender of car on the right.

Thus, our impact was going to strike the front of both vehicles, and like a bowling ball, the van was going to plow through the middle of both rows of cars.

**The dream was over. —**

Seconds before impact, I woke up. I was trembling. My heart was racing, because I wondered if the crash in the dream was fatal.

### **The Interpretation**

Over the past few weeks, I have pondered and prayed about the meaning of the dream. Several days ago, the Holy Spirit released me to share the dream because He said that the event WAS GOING TO HAPPEN! I do not understand all of it yet. But I do know, I have to share it.

So I talked about it in my last audio program. When I did, the election had not yet taken place. But I elaborated that the elements of the dream represented the coming presidential administration.

I say this, because many parts of the dream speak for themselves.

The white van – represents the presidency. The white van had a new engine. I was concerned that because it was new, we had to go easy on it, because a new engine must always be broken in.

Otherwise, it can malfunction. But Uncle Fred wanted to experience its power. So he accelerated very quickly.

Who was Uncle Fred? I have wondered about this, and at this point in time, (*which is subject to change,*)

...I believe Uncle Fred represents Donald Trump because Donald has several, “Fred’s” in his family.

1. His grandfather was Friedrich (Drumpf) Trump. (Below)

2. His late father was Fred Trump. (Below)

3. His late brother was also named Fred Trump, who died at age 43 from alcohol abuse. (Below)

But this raises a question. Why did the dream feature Uncle Fred driving the vehicle, instead of Donald Trump? There could be a number of reasons. And I would like to propose a few possibilities.

In the dream, the man was called, “Uncle Fred.” I believe that the “Fred Factor,” may be one of the unspoken explanations of Donald Trump’s unique personality, which to many people is an enigma, and to some, an oddity.

Many people have wondered about it, and studied it. And while some have concluded that he is bold and brave, others have concluded that he is brash.

...and to those who offer an honest critique or appraisal, the summary, is at times, not positive. Because his critics wonder, why he is – the way he is. And in consideration of the, “Fred Factor,” that I saw in my dream. I have a few questions.

1. Was Donald Trump’s personality formed by chance? Or is it complex?

2. Was he negatively imprinted as a child by his father? Or his brother's death?

3. Is the little boy inside of Donald Trump still trying to prove himself to his father, Fred Trump?

I think that it is possible. I believe that Donald Trump's drive for success and achievement may be powered by an insecurity that rests on "unresolved" issues between him and his father, and also the early demise of his brother Fred. Therefore, the memories of several Trumps who are called "Fred" still haunt Donald today.

When Trump gave his acceptance speech early Wednesday morning, on November 9, 2016, he thanked his late father Fred, and his late brother Fred. Of course, both mentions could have been totally normal "tributes," that had no sub-meaning. However, on the other hand, the mentions of the names may speak volumes, and confirm the, "*Fred factor*," that I am proposing.

In my opinion, I am theorizing that the, "*Fred factor*," may have huge merit to explain Donald Trump's psyche. And if it the theory is true, it means that, Donald Trump may still be trying to please his father, and show his big brother that he has what it takes.

It may also mean that there are influential voices of his father and brother, whispering to Donald, which causes him to strive for power and achievement. Unfortunately, since both Fred's have died, Donald Trump's desire for recognition from them, will never be satisfied. Thus, Donald's personal and business achievements will never satisfy his soul.

...And without the healing of God, Donald Trump will forever be in captivity to the memories of his dearly departed father and brother who are named Fred.

In my dream, Uncle Fred was driving the vehicle. But it was really Donald Trump.

(Note – I understand that some Trump Surrogates may struggle with what I am about to say, but I must.)

Donald wants power. He wants to feel the power. And now that he won the election, he is going to take the white van (the White House) for a spin, and see what it can do. As it accelerates, he will steer the administration toward the left, and eventually into the far left, the ditch. The thing about a ditch is ... once in it ... it is difficult to get out of.

I hope that with the Donald Trump presidency, this does not happen. But if this interpretation is correct, this may be what will happen.

### The Children

In the dream, there were children in the van with me. This represents the people of God, God's children, the evangelicals.

Now folks, I know that there is a lot of excitement with many of you who voted for Trump, but I need to share this. Please take it to prayer. And please consider it.

First, Donald Trump would not have won the White House without the evangelicals, or God's children. So the ride that is coming involves God's people.

Again, God's people got in the Trump van... or the Trump

bandwagon.

And many of them did it with good intent. They believe that Trump will do a number of things that the church desires; stopping the Clintons, stopping abortion, appointing conservative Supreme Court justices, protecting the Second Amendment, bringing back jobs, and several other things. I do not fault anyone for this. These are noble reasons.

So God bless the evangelicals.

However, the evangelicals' support of Trump also means that the evangelicals are *in the vehicle with Trump*. And if Trump crashes the vehicle, there will be collateral damage to the evangelicals who are in the vehicle. I know that a number of you may struggle with these words. But my friends, they are true.

– If Donald Trump is successful and rises, the evangelicals will celebrate with him.

– But what if Donald Trump is not successful? What if he forgets his campaign promises? What if he deviates? What if he forgets the Christians?

What will happen to the well-meaning evangelicals?

Dearly beloved, this is why I am sharing this dream, and this warning. I am very concerned, that the future is going to include a huge crash. And it is going to involve God's people. And those who are not prepared for the coming crash are going to suffer harm.

In the dream, I warned the children to fasten their seat belts. So I would like to take the time to officially warn God's people ... brethren please fasten your seat belts, because there is an impact ahead.

### The Crash

As Uncle Fred drove along the grass, I saw the parking lot in front of us. There were two rows of cars facing inward bumper-to-bumper, like you would see in a grocery store parking lot. I was hoping that Fred would maneuver to the left or the right to go around the cars. But he didn't.

He had a grin on his face and purposely aimed for the middle of both rows. What does this mean?

### The left and the right – Democrat and Republican

The left and the right are the political parties of America. Based on what Uncle Fred did in the dream, the white van was *purposely aimed* at both the left and the right vehicles.

*Translation – (this portion of the interpretation is a work in progress) –*

...this means that Donald Trump's White House (the Executive Branch) will use its power to plow through both parties, both the left and the right sides of the aisle, (i.e. also both in the Congress and the Senate.)

In layman's terms, Donald Trump is going to use the executive privilege of the White House to roll over the Congress and the Senate. This may occur through executive orders, signing statements, mandates, verbal orders, or unilateral decisions.

This may also mean that Trump is going to hit the ground running. The vehicle was traveling 100 mph, so I wonder if this may translate to the first 100 days of his presidency. (*This part, I do not know.*)

But I do know that the vehicle veered left. It got in the left lane, then the left shoulder. Then it went into the ditch that was alongside the highway on the left.

If the symbolism in the dream represents the political left, this means that Donald Trump will maneuver himself toward the left, instead of the right like he campaigned.

As Fred traveled on the left, he eventually crashed. It was purposely. He gained enough speed to plow through both row of vehicles like a bowling ball.

This is the part of the dream that is very concerning. Uncle Fred was purposeful. And he had a grin on his face as he did it. What does this mean? Does it mean that Donald Trump is going to exhibit totalitarian behavior in his presidency?

I do not understand why anyone would crash a fast-moving vehicle on purpose. Will Donald Trump do this? And what will the ramifications be? What will the collateral damage be?

One thing I do know is it is going to involve Donald Trump and God's people.

So I want to humbly suggest that if you are a child of God, please begin taking the proper spiritual measures to prepare for what's coming.

In other words, fashion your spiritual seat belts.

My friends, I know that there is a lot of celebration right now. I understand the "sigh of relief," that many Christians are feeling, because America dodged the "Hillary Bullet." But now that she is out of the way, please do not let your vigilance go into a slumber.

Many argued that Trump was the lesser of two evils. And while I could spend a lot of time disagreeing, that is now in the past.

We have the future ahead of us. And we must now begin dealing with Trump; the man, the mystery, the anomaly.

For some – he is the hope.

For others, he is the dread.

For me? Trump is a cauldron of caveats who possesses a mandate, (which I will be talking about in the days ahead.)

And with this I close. Over the past year and a half, I have been rigorously studying Donald Trump. I have gone back 30 years and examined our future president. I have done this because I am a watchman, and also because the Bible tells us to be vigilant.

Jesus warned us, "*to beware of the leaven of the Pharisees and of Herod.*"

Jesus also said, "*We will know them by their fruits.*"

I have practiced this discipline with both Hillary and Donald Trump. I noticed that most of the evangelicals examined the leaven of Hillary, but bypassed the leaven of Trump. But folks, Jesus said it.

I'm just the messenger. And a scale that is *just and righteous* should **never** have our thumb on it. I refused to put my thumb on the scale of Donald Trump. And I was persecuted for it by the majority of the brethren.

But I must be obedient to God. Therefore, both candidates received an examination. Unfortunately, some of the brethren thought that I had an agenda to steer the election toward Hillary. How they got there, I don't know.

Now that the election is over, Hillary is the past. But the Trump presidency is before us. And based on what I have seen in the big picture of the end times, and in prophetic glimpses about Donald Trump, the coming narrative is not going to be what many of the evangelicals are expecting. Great calamity is coming folks. And it will involve Donald Trump.

I am sorry that I have to say it. I am sorry that I must be the bearer of bad news. But I still have to. I know that I am outnumbered. I know that the majority of the watchman are forecasting a vacation for America.

I cannot do that because I've seen too much. I have had 5 to 10 prophetic glimpses about Donald Trump. And those glimpses are not revealing the vacation and good times that others are promoting. They are also not revealing that Donald Trump is safe.

I will be talking more about this in the coming days.

Buckle your seat belts folks.

In His service, Nathan Leal

## **Prophetic Warning – Watch for a False Flag to Take Us to War**

**By Nathan Leal, August 9, 2017**

War is coming folks! It has already been decided. It was decided before Donald Trump became the president.

This article is not a rant against Trump. It is a warning that all of God's people must take to heart.

I've been watching the drama unfold, just like you have. And it appears that we have another Tavistock, New World Order, Neocon warmongering plan underway. In order for the plans for war to be successful, the general public must get on board with it

and support it.

What better way than a false flag?

### **Prophetic Dream of a False Flag Event**

On the night of August 9, 2017 I had a prophetic dream about the coming war. It was short, but it spoke volumes. I was looking outside the window of a house.

I saw a missile come out of the ground and fly into the sky. It was a missile from the United States of America. It accelerated

quickly. I watched it rise into the sky, but then I was shocked. Because above the missile, a large passenger plane was flying in the sky. It was a large jumbo jet. Its elevation was about 2000 feet. The missile struck the plane on the engine.

At the moment of impact, I heard the words, “**False Flag**,” spoken from the sky.

The airliner plummeted to the ground in a ball of fire. I did not see which airline it was, but the engine color was a soft baby blue. The fuselage of the plane was blue and white. The blue was a little darker

than the engines. But the blue color was not real dark.

As the plane plummeted, debris fell to the ground. A large section of it struck an apartment building. The news reported that if anyone found debris they should notify authorities. I looked for debris in backyard of the property where I was. A Mason jar had fallen from the plane and was laying on the ground sideways. I went to check it out. As I was looking at it, the lid came off and three serpents crawled out of the Mason jar.

I stepped back because I knew that the serpents were dangerous. Two of them slithered along the grass and burrowed into the ground. But the third serpent was caught. Not by me but by a man who appeared next to me. He was a military officer. I think he could have been a general in the US military.

The general laid three sticks around the serpent that was coiled on the ground. The three sticks formed a triangle around the snake. The snake could not leave the triangle. It was like the snake was locked into a pyramid that immobilized it. I found it odd that the serpent to be contained in such a weird manner.

The dream was over.

The first part of the dream is very evident. A false flag event is coming. The missile that was fired was from the United States. And it was used to target a plane.

This dream is symbolic. The target of the coming false flag event could be anything. So I am not sure that it will be a plane that is used as fodder when the event occurs. However, a targeted plane could be possible.

The colors of the jet were interesting. The engines were baby blue. But the fuselage was a darker blue with white. I did not see the name of the airline so I’m not sure who it belonged to.

Some of the debris hit an apartment building. The imagery could mean several things. But I wonder if it is also symbolic that when the false flag event happens, it’s going to affect the housing market? I’m not sure.

### The Mason jar

The imagery of the jar was very interesting, because it was a mason jar. In the natural, Mason jars are used to can and store food.

This Mason jar had snakes in it. Three of them. At this point, I have not received all the interpretive clarity for the Mason jars,

but it could mean a number of things.

Below are several possibilities that I’m still seeking clarity to understand. (*Note, at this point in time, I’m still seeking the answers.*)

1. Does the jar symbolize food? Or stored food? If so, does it mean that food is going to become poison? Or the ability to store it will be difficult? But this doesn’t really explain why a food jar would contain snakes.

2. Does the Mason jar represent the Freemasons? If so, the jar fell out of the plane. Why?

3. Three serpents were in the jar. I knew they were very poisonous and dangerous. So I kept my distance. One of my friends suggested that the serpents represent the three branches of government, and one of them was being corralled by a general. But which branch was corralled? Was it the executive branch? Is Trump is being corralled by people in power?

4. The general used three sticks and laid them on the ground in the shape of a triangle to corral the serpent. Does the triangle shape represent the behind-the-scenes influence of the Freemasons? Does the US presidency have Freemasonic handlers?

In my opinion, I believe the answer is yes to questions three and four. The US presidency does have handlers. They are very powerful. John F. Kennedy alluded to this before he was killed.

### Air Force One

I have wondered if the plane was Air Force One, because the airliner in my dream had similar colors.

But I’m not sure if it was a commercial or government plane.

If it was Air Force One, it is very disturbing, because I do not wish harm on the President. As a side note, say a prayer for the President’s safety. If something were to happen to him, chaos would ensue, both

domestic and worldwide, because people would want justice, including most Americans, but especially Trump’s support base.

If this dream does represent Air Force One, you know what that would mean folks!

I don’t even want to say it!

But the aftermath would result in Mike Pence to taking over. And when he did, he would be corralled by the Freemasons and be controlled by the military, meaning the free Masonic warmongering military-industrial complex.

### False Flag

The other notable component of this prophetic dream is that it was a false flag event. So however this thing plays out, be warned that a false flag event is in the works. I do not have a date. I do not know when this would happen. But one possibility is that a missile attack could occur and be blamed on North Korea when in truth the source of the missile was the United States.

So make note ladies and gentlemen. If a future missile is fired and targets America or its allies, there is a possibility that the source of the missile will not be from Kim Jong.

How can they do that? Simple. The next time Kim Jong fires one of his test rockets, the United States could shoot it down, but continue the trajectory path with a domestic rocket from the USA. That rocket could then land on a predetermined target, cause destruction, and then be blamed on North Korea which would take us to war with them.

Does this sound preposterous?

Can you say 9/11?... Operation Northwoods? The Gulf of Tonkin?

### **They Want War**

Who are they?

– They are the neocon vampires who love eternal wars because it makes them rich.

– They are the elite who desire to make planet earth into a global plantation.

– They are the military-industrial complex who maintain endless wars so that their stockholders will be happy.

– They are the globalist bankers who have an end game for a world currency by the year 2018. I don't know if they will achieve it in time, but their deadline is getting pretty close.

They want war folks. When they get it, they are going to want to enlist your children because human sacrifice is a part of their game.

### **Tavistock**

My friends, we are living in volatile days. The elite of the world have decided that war is the next part of the script. But they have to sell this war to you. Tavistock and the RAND Corporation are experts at this. They're using the global media to brainwash all of you that war with Korea is necessary. Because otherwise, Kim Jong is going to kill all of us.

This is all a ruse folks. We've been down this road before. Unfortunately, the general public has short-term memory loss. So most of the population is going to get on board with this war. Watch as the tide turns to galvanize public opinion about it. Because, it's already happening.

I am watching in real time as many Christians are now stating that they support a war with North Korea. But not only a war, but a preemptive nuclear strike on North Korea.

I find it amazing that Christians can be influenced so easily. On Facebook, Christians are shouting for war. And even worse, many pastors and spiritual leaders have picked up the rope and are now towing the line for a preemptive strike on North Korea. Why? Because they have heard the scary rhetoric about Kim Jong. He is the bogeyman. And Americans are being convinced that they have no choice.

...In spite of the million dead Koreans, both North and South...and the thousands of dead Japanese, that will result from America's preemptive strike.

They are working overtime right now. The news is convincing Americans that it is necessary.

Oh the grief that is coming my friends!! There will be many tears.

### **It's Time to Pray**

It's time to pray ladies and gentlemen. And the first order of business is repentance. Everyone reading this needs to be repenting. Take inventory of your life. It's time to clean house my friends. It is time to forsake compromise and apathy. It is time to redeem God's mercy while you still have the chance. Because the night is coming, when it could be too late.

Pray for your family. Pray for your loved ones. Encourage your loved ones to get their hearts right with God. And I'm not just talking about a general prayer. Folks it is time to seek Jesus and the cross.

For those who have wavered, it is time to return to your first love.

Also, pray for discernment and wisdom. Pray that you are not deceived with a false narrative that is taking place right now. Jesus said in the end times many would be deceived. Pray that you are not one of them.

In conclusion my friends, as Christians, our assignment should be repentance and seeking God.

Also, pray for the president. Pray for his safety. And also pray that he operates with wisdom and not deception as America proceeds towards war.

I will be talking further about this matter in an upcoming program. If you have any thoughts or discernment about what some of the symbolism meant please email me and share it

## **Prophetic Dream of an EMP attack on America**

**By Nathan Leal, November, 2018** (posted January 29, 2019)

As watchman, I share warnings from time to time when they appear to be sound and legitimate. Today, I have such a warning. It was provided to me by my sister, who over the years has displayed a gifting of prophetic dreams.

A few months ago, in early November 2018, she was given a prophetic dream of an EMP attack, but she didn't tell many people about it until a few weeks ago, when I was talking to her on the phone and she mentioned it casually. She said, "I had a weird dream," and then shared it.

I held onto it and pondered it. I then sought the Lord about it, so I believe it's time to share it with all of you. I do not know its time frame. Neither does she, but based on developments that are presently taking place in the world, I believe an event like this

could happen at any time. I am not saying this to be sensational, I am saying this because peaceful diplomacy in the global landscape is deteriorating. I will be talking about this in the future.

I am going to share the details of her prophetic dream in a moment and I want to say up front, if an event like this takes place, I do not know which part or how much of America will be affected, but if our enemy's plans are successful, it will affect the entire country, and worse, would also result in a catastrophic loss of life for a large part of the population.

When I heard her dream, I remembered the book, "*One Second After*," and the movie, "*Jericho*." This event could potentially resemble those adaptations. So I want to ask all of you to please take these matters to the Lord in prayer and ask Him about it. See if it bears witness with you. My purpose in sharing this is not to create sensationalism or fear. My purpose is to serve as a warning so that those who see the concern would then seek God to obtain a contingency plan in the event that it occurs.

I notice that a lot of folks in Internet land often read warnings with a sense of excitement, talk about it for a few days, but then go back to normal life, which includes spiritual neglect.

### **Spiritual Neglect**

Everyone does it. They put off spiritual maintenance until the last minute, or until it's too late. Please do not do this folks. There are many of you who are not living how you're supposed to be living. And the truth be told, many preppers are not ready to meet Jesus. In fact, a large amount of preppers are more in love with the world and their bug out property, than the other place...our eternal bug out property, which is Mount Zion, the city of the living God.

Is your Heavenly boarding pass ready, my friend? Do you possess the punch-card for our final exodus? Please remember to always include God in your plans. We are in a different season. We are living in the days of darkness. There is much deception out there and many hearts have grown cold. None of us can afford to neglect our spiritual life, because part of the reason that events like this are coming is to prepare us for His return.

This is the other thing to keep in mind. As the days become treacherous, let us always keep our eyes on Jesus.

So again, please do not read this warning, and then go back to sleep. Please share this with your friends and loved ones. Also, if you might happen to have thoughts about some of the symbolism in this warning, please let me know.

### **The Dream Begins**

*(From here, the narration of the prophetic dream is through the viewpoint of my sister, until the narration ends below.)*

We were on the freeway driving through Austin, Texas heading south on I-35. We were headed downtown. I was with my grown-up daughter and her friend, who was driving. I do not know the name of the girl driving, but I knew she was my daughter's friend and I was in her car.

I was sitting in the backseat on the passenger side. It was a small grey car. We were in the far right lane of Interstate 35. There were several lanes of traffic on this freeway.

I looked out the window to my right toward the exits and saw cars behaving weird. They were rear ending each other. Slowly at first. I looked out the other window to my left at the traffic on the freeway. The traffic was moving at almost a regular pace, but the cars seemed to be coasting.

I again looked to my right to the cars on the frontage road and noticed more cars were bumping into each other in rear end collisions. I looked further down towards the intersection along the frontage road, and cars were smashing into each other at the intersection. I then saw that there were many wrecks taking place. At first the impacts were minor, but as the scene progressed, it turned into a frenzy where many of the cars were smashing into one another in rear end collisions. The impacts became more violent, because some of the cars were cruising at highway speeds and did not appear to have brakes. They collided into the backs of one another. I saw this from the right lane of the freeway.

I then looked up into the sky and saw three aircraft in the air; a helicopter, and two planes. In the distance, the small plane and a helicopter went down. They just dropped out of the sky. I also saw a passenger plane higher in the sky and further away, but it was coming in our direction. It was having problems. I could hear its turbine engines whining.

So I screamed, "Get off the freeway now!" My daughter became alarmed and said, "mom what's wrong?"

I answered, "Just get off the freeway!" I was panicked and insisted that we get off the freeway. I knew we had to exit. An exit ramp was approaching. I screamed, "Take that exit."

It was – "St. John's Exit."

We drove onto the exit ramp. It was at that moment that our car stalled. I felt the engine go silent. My daughter's friend cried out, "The car died."

I told her, "Do not hit your brakes. Just keep coasting down the exit."

She put the car in neutral and coasted along the exit ramp towards the frontage road. I kept screaming, "Do not hit your brakes."

When we got to the frontage road, I saw a gas station in the distance at the intersection. We coasted into the gas station parking lot. The car finally stopped.

As we got out of the car, I looked into the sky. The passenger plane that I had noticed a few moments before was having difficulty and could no longer maintain its lift. I imagine the pilot was trying to glide it but was unable to. It went right over us. It was falling from the sky at an angle.

I noticed that the cone on the front of the plane was black. The rest of the plane was white. For some reason I noticed the black cone.

It crashed nose down onto the freeway with the great explosion. The impact was violent and very loud. It was about half a mile away. At that moment panic erupted. People exiting their cars running in all directions. Nobody knew what was going on. It was chaos.

I saw that behind the gas station was a parking garage. It was made of concrete about three stories high. I was worried about more planes crashing, so we ran towards the concrete parking garage to seek shelter. I was very scared.

At the garage, we lost my daughter's friend. I don't know what happened to her. But we ran into the concrete garage. Others had also sought shelter in the building to hide. I imagine they had similar concerns.

Once inside, I told my daughter to call her friend on her cell phone. Miraculously, the phones worked, but not for very long. Just long enough for my daughter and I to make a call.

My daughter's friend was okay. I needed to call to my brother. He answered in a panic. He said, "Sister, sister, where are you?" I told him where I was. That we took *St. John's exit*, and we were at a parking garage at the corner, behind the gas station along St. John's.

He told me to stay in the building for safety. He also said, "I will get to you."

I asked him if mother was okay? He answered, "Yes she's heading out to a safe place with the other members of the family."

I told him, "Go get the money out of the bank."

He answered, "I know sister, I know."

.... We were cut off and the phone went dead. It no longer worked. I found out later, that he wasn't able to get the money out the bank, because there was no power, so we lost all our money.

We ran further into the garage. We were worried about planes hitting us so we wanted to find safety deep inside its concrete. There were others there. People were crying, screaming, yelling. It was chaos. Some were asking – what was going on?

In the midst of the chaos, pretty much everybody was freaking out. People were asking what's going on? Speaking to no one in particular.

But out of all of the people who were nervous and scared, there was one man there who is not afraid. He appeared very calm and he spoke with assurance. He was wearing a baseball cap, a green jacket, and blue jeans. He was standing by the edge of the garage, looking over the concrete wall to the outside. He turned to us and said, "*It is the apocalypse. The apocalypse has begun.*" He said it very calmly. Then he looked back over the wall to the chaos that was outside the building.

My grown up daughter cried, "What's that, what does it mean? I'm scared."

I tried to comfort her. I told her it was going to be okay, and that her uncle was going to come and find us.

My daughter asked, "How is uncle going to find us?"

I told her he would and it was going to be okay.

A duration of time went by as we were hiding and waiting. I'm not sure how long it was, but then some people from the government showed up.

I don't know who they were, or where they came from. But they consisted of several men and a woman. They were all wearing blue shirts. The lady was the leader. She was middle-aged, her hair was pulled back in a ponytail. She spoke with authority. She was wearing black pants and a blue shirt. She was also wearing a tan jacket. She began issuing orders to the people in the garage. She went over and stepped onto something to make her higher than everybody else. The men who were with her stood by her side and behind her.

She said, "I need everybody's attention. First of all, everybody needs to calm down. We have come here to make you safe. We are here to restore order. We are going to get everything in order. To do that, we need to begin separating everyone into different groups and sections. We will separate according to, (I don't remember what it was)."

When my daughter heard they were going to separate us, she became frightened, but I assured her that they were not going to do that. I was trying to be positive.

That was disturbing enough, but the lady also made it clear that none of us would be allowed to leave. At the time, most of the people did not seem to mind, because they were afraid of other planes crashing on them. They were also worried about the chaos that was taking place out on the street.

The lady continued. She said that they were going to be there until order was restored.

Some of the people asked her what was going on? One of them asked, "Is this the apocalypse?"

She answered, "We don't know what it is. We're working on it. But we are going to stay here until we figure it out."

She then said again, "we don't want any of you leaving. We know that some of you are worried and uncomfortable. So to help you cope, here are three golf carts."

I then saw three golf carts appear. They were old, white with green seats. The amazing thing was they worked. They were not dead. I don't know how that was possible.

The lady told us that we could take turns riding in the golf carts inside of the parking garage. She made it clear that we were to remain inside the building within the premises. So the people began taking turns riding around on them.

The main thing on my mind was hoping that my brother would show up. I did not know how he was going to get there, but he

told me on the phone that he would.

It became my turn to ride around on the golf cart. So my daughter and I got on it and we drove around inside the garage. We went to the edge to try to look over the wall.

The man who initially told us that it was the apocalypse was also there looking over the wall for more things. He was very calm. I thought about leaving the garage in the golf cart, but I didn't, because the man would have seen me leave. I didn't know if he was friendly, and I also didn't know if he would report me, so I stayed inside.

I went to take a peek over the wall and looked towards the road. It was at that moment I saw a change in the scenery.

Out on the highway, soldiers were walking on the road alongside military vehicles and equipment. There was a long row of them. The soldiers were wearing green camouflage and were walking alongside green military vehicles. There were several kinds including green Humvees and military trucks. Soldiers were walking alongside the moving vehicles. Every one of them had a red armband on their upper left arm. There was white writing on the armband. I do know what it said.

The military vehicles all worked. So apparently, they were EMP proof. The soldiers were clearing out some of the stalled cars and moving them. Making room for their moving convoy. The soldiers were telling everybody that help was coming. They also told people to move their vehicles if they could. Some of the cars had been wrecked and a few of the people had been injured.

The soldiers helped some of them, but ambulances never came. Of course, how could they? They had probably been damaged by the EMP.

As I was looking at the soldiers. The man who had initially told me that the apocalypse had begun, stood by me and also looked over the wall. He calmly said, "*That is not the regular military. This is martial law.*"

I wondered about that statement. They looked like soldiers. And they looked to be military. So I wondered why the man said, "*They were not normal military?*"

If they were not military, then who were they? I didn't know.

Soon after, my brother showed up in the garage. I don't know how he got there. But he was very stealthy. When I saw him, he didn't want me to speak out of my excitement, so he shushed me with his fingers to his lips. He said, "I know how to get out of here."

One of the people in the garage saw and overheard my brother talking to me. He came over to us and said, "Can you take us with you?"

My brother answered, "Who's with you? We don't have enough room."

They guy offered us a deal. He said, "You can take this in exchange for telling me how to leave." He offered us the golf cart.

I don't know how he was able to give us a golf cart, but we didn't question it. We said, "Okay."

My brother looked around, and said, "I'll be right back." He left for a moment and quickly returned with a red gas can in his hand. He also had another battery for the golf cart. I don't know where he got those things. The man who was giving us the golf cart lifted the seat of the cart, and said you can put those things under the seat. He was talking about the gas can and the battery. So my brother did. He told the man that there was a secret tunnel and how to get to it. The man said, "thank you."

The three of us, (my brother, daughter and myself) climbed onto the golf cart and drove away. We went to another section of the garage where there was a secret tunnel. We entered it and drove through the dark tunnel for a while. I don't know how long we were in it. But eventually, we came to the end of it. I saw light approaching. Before I knew it, we exited the tunnel, and I was on the other side.

I remember when I came out of the tunnel and saw the sunlight, I was full of joy and smiling. My hair was blowing. My brother grabbed my hand and said, "We made it."

I felt relief that we had made it. We escaped the darkness and found a way out.

*The dream is over — End of her narration —————*

### **What Does It Mean?**

This prophetic glimpse has much detail. The main theme is about an EMP event. The big question that many might be asking is, "does this mean an EMP event is coming?"

My answer would be, "yes, I do believe that an EMP event is eventually going to strike America as well as other places."

I say this because EMP warfare has become a part of the military doctrine of several of America's opponents including; Russia, China, Iran, North Korea and others. I will be talking about this in the days ahead.

At the beginning of the dream, the event arrived unexpectedly when people were going about their regular business and caught them off guard. This is how it's going to happen. It will arrive on a normal day and strike without warning.

My sister was on the freeway.

When the EMP first arrived, it caught everybody by surprise, and some of the first fatalities occurred at the onset. She saw a helicopter go down, along with a small plane. The people in those aircraft perished, and most likely they had no idea what was happening.

Accidents began occurring on the freeway, because the vehicles traveling at highway speeds suddenly stalled, and the drivers no longer had the convenience of their power brakes, or power steering. Multiply the scene by millions of cars. The results will be catastrophic.

## St. John's Exit

When I interviewed my sister, she mentioned that she took St. John's Exit, but didn't think about it.

Prophetic dreams often have symbolism that is hidden in the details.

When I heard her say that she took, *St. John's Exit*, I knew it meant something, because first of all, the Apostle John wrote the book of Revelation. Revelation tells us about "*the apocalypse*."

When she got to the parking garage, a man who was there told her. "The apocalypse had begun."

As the dream progressed, the same man remained by the wall of the garage. He stayed there the whole time and looked at the things that were taking place outside of the garage.

I believe this man was either an angel, or a watchman, and he was there to provide answers, because he also said. "*The soldiers were not normal military, that martial law was going on.*"

How did he know this? I will visit more of this in a moment.

But getting back to St. John's exit. Ladies and gentlemen, in the Bible, *St. John's Exit* is our exit! It is the return of Jesus and our rescue to Mount Zion. *St. John's Exit* is the gathering, it is the harvest.

And to be included in St. John's Exit requires that we are living for Jesus and ready to go at a moment's notice.

My sister took the exit ramp towards St. John's. They coasted towards a gas station that was located at the intersection of the frontage road and St. Johns.

They managed to make it into the gas station parking lot. As they got out of the car, she saw a large passenger plane descend over her and crash onto the freeway. The plane had a black nose cone. Black nose cones were common on aircraft several decades ago. The nose cones of planes contain radar equipment, and apparently, part of the reason that nose cones were painted black back then was to try to minimize interference to the radar equipment that is located under the nose cone.

For the most part, this practice is no longer necessary because the airline industry has come up with different composites that are able to minimize radio interference that might try to affect the radar equipment located in the *radome* which is the dome area under the plane's nose.

But my question is, "why?"

Why did the plane in this dream have a retro-looking black nosecone?

I have wondered about this. I think it may have to do with the purpose of the black nosecone and what it represents. The black nosecone represents the plane's ability to function with radar and radio signals. But in the dream the planes equipment failed. It could not withstand the EMP and it crashed to the ground.

## Chaos

The crashing plane awakened everyone. It was loud. It was scary, and it thrust everyone into mode of panic and chaos. She saw everyone running in terror.

When the EMP event occurs, its arrival will not be casual. In the city, its impact will hit the ground with a thud, as planes fall from the sky. Chaos and confusion will ensue. There will be no going back.

She tried to make a phone call. Initially, she was able to get through. But then the phones failed.

Some might argue that in real life, her cell phone might not have worked; that might be true. An EMP will probably destroy all electronics at the same time. Why did her phone work in the dream? I don't know.

But let's look at the substance of a warning, communicating with loved ones. If some people are able to initially get through to their loved ones, the conversations will not last very long. What does this tell us? It means that when a national emergency like this arrives, many people will not be able to talk to their loved ones. They will be left in the dark. In silence.

They will not be able to communicate with family members or loved ones. I cannot imagine the horror of such a thing.

Nor do I want to.

I would hate to be caught at one location, unable to speak to family members. We have become a society of instant communication. We have Messenger PMs, InstaGram DM's, but what if all of that was gone? What will people do when they are stranded? Alone? The mental anguish will be very difficult.

## Money

She called her brother on the phone. They tried to make a plan. Right before the phones died, she asked him to get the money out of the bank. But it was too late. When the EMP arrives, people will be unable to withdraw their money from the bank. Their assets and net worth will vaporize into thin air. Their nest egg will disappear. If they have no money saved at home, the ability to buy and sell will become difficult for many people, because the EMP will erase their hard-earned paycheck that was sitting at the bank.

Russia and China know this. They call it, "*Cybergeddon, or Blackout War.*" And its purpose is to wipe out the United States from within. It is to take down the grid, and destroy America's financial system.

## Hiding

She made it to the parking garage with her daughter where a strange man greeted them with an announcement, "*the apocalypse had begun.*"

Was it true? Is it true?

Will the approaching tribulation include an EMP event? Or will an EMP event precede the tribulation? I find it interesting that one of the bowls in Revelation that is poured out on the earth mentions darkness. Could this be an EMP event?

“And the fifth angel poured out his vial upon the seat of the beast; and his kingdom was full of darkness; and they gnawed their tongues for pain;” Revelation 16:10

The verse above says that the judgment was upon, “*the seat of the beast.*” Where is that? And then it goes on to say the kingdom of the beast was then, “*full of darkness.*”

I do not mean to digress, but I just wanted to mention this, because I found it interesting.

### Waiting in the Chaos

While she was hiding in the garage with others, a group of people showed up from the government. She described them as all wearing blue polo shirts. The leader had her hair pulled back in a ponytail and was wearing black pants.

I wondered what agency this could be? So I searched and searched online to see if there was an outfit that is worn by government workers who are involved in emergencies and if so, what agency is it?

It didn't take long to find. Apparently, FEMA workers wear blue polo shirts when they're doing their FEMA thing. Make note of images below.

Sometimes the pants are beige.

While I cannot say for sure if this was the agency in her dream, I have a suspicion that it might've been. Therefore, for the sake of simplicity, I will refer to them as the FEMA people.

It's interesting that the FEMA people showed up and immediately took charge, and part of their policy was to keep the people in the dark about what was going on. In the dream, they feigned ignorance, but in reality, if an EMP event occurred, FEMA would know what was going on.

The FEMA lady then told them they were going to separate the people into groups and sections. Why would this be necessary? It isn't. But to get control over people, Big Brother will destroy the people's comfort zone and their confidence.

I can see this happening in the future, because we've already seen in the past.

What does this mean for you, God's child? It means that that we must have God on our side, and become acquainted with His voice. We must become familiar with His guidance that helps us to navigate the day-to-day things while it's peaceful, so that we can be ready for when it's not.

### The Golf Carts

I am not sure what the golf carts meant. I also do not understand how they were functional after the EMP. Scientifically it doesn't make sense. So I wonder if the golf carts represented something else?

The origin of the golf carts was provided by the FEMA people. Does this mean they were distractions to keep the people occupied? Were they psychological trinkets to buy the people's favor?

Or is it possible that an old golf cart could survive an EMP after a few modifications? In the dream, a golf cart battery was kept separate from the cart. If the battery was stored in a Faraday cage, would the cart work after the EMP event? I tried to do a search online to see if anyone else out there has thought about it, but I could not find any info. Because after all, why would anyone have a discussion about whether a golf cart could survive an EMP? So at this point, I don't know. (*If anyone out there has an opinion about this, send me an email.*)

### The Jackets

The man who mentioned the apocalypse was wearing a jacket, so was the FEMA lady. Is this an indicator of the season of the event? It was not a heavy coat, which eliminates the winter. So did the event occur in the spring or the fall? I don't know. But I wanted to mention it.

### Martial Law

The gentleman who mentioned the apocalypse, also said, “*The soldiers on the highway were not military. Martial law has begun.*”

What did this mean? I believe it meant that since the event occurred domestically, within the borders of the United States, its classification was what ***the powers that be***, have always dreamed of, “a national emergency to initiate martial law.”

Which in turn, will activate the National Guard, curfews, a takeover of both public and private assets, free travel, communications, food distribution, and other things.

The soldiers were wearing red armbands on their left upper arm. These armbands are called brassards. According to the [Army manual](#);

“Brassards are worn as identification to designate personnel who are required to perform a special task or to deal with the public.” In the dream, the soldiers were wearing red brassards with white writing on them. To my knowledge, aside from the Red Cross,

red brassards are not worn among the US military. In past history, members of the Royal military police of Great Britain have used red brassards.

But the soldiers in the dream were wearing red arm band brassards on their left arm. Who were they? Were they friendlies?

Were they National Guard Troops with an EMP Assignment?  
Or could they have been soldiers from another country?

I wondered about this. Because in past history going back 100 years, revolutionary soldiers from other countries have used red arm bands and brassards, including; The Communist Red Guard of the Bolshevik Revolution,

the Red Guards of Chairman Mao,

and also Adolph's Fascist Totalitarian Army.

Is this what it meant? Could an EMP crippled the United States and turn it into a communist or fascist plantation?

This is something to definitely think about. We do know that the Bible prophesies a totalitarian world government at the end of time. Would an EMP be the catalyst to thrust us into this time frame?

Lord have mercy on us all.

### The Watchman on the Wall

The man in the dream who seemed to know what was going on possessed an insight that no one else had. Who was he? Was he an angel? Was he one of God's watchmen who was dedicated to his job? In the end times, the Bible prophesies that God would raise up watchmen who would have no rest, as they watch the nation of Israel, and the horizon for coming events.

"I have set watchmen upon thy walls, O Jerusalem, which shall

never hold their peace day nor night: ye that make mention of the LORD, keep not silence," Isaiah 62:6

This is the work of God. God raises up watchmen. I'm not talking about the pretenders, or the wannabes. I am talking about real watchman have been given a spiritual prophetic gift to hear the voice of God and see events through His eyes. They are out there brethren and they have an assignment to sound the alarm and blow the trumpet as they see the day approaching.

### The Exit Through the Tunnel

At the end of the dream, she escaped through a dark tunnel. Light was on the other side. The wind was blowing. The sun was shining.

And she experience joy and happiness to have escaped.

Does this mean that everyone reading this needs to find a tunnel when an EMP happens?

No. I believe it means that everyone of us needs to obtain and possess the faith that God will be there for our protection, direction and provision to see us through.

We must also have the knowledge that in the future, we will all have to travel through the darkness, and endure throughout its duration, so that we can make it to the other side.

Because friends, on the other side of the darkness, is our redemption, our rescue, our hope, our Savior and Lord.

On the other side of the darkness, God is waiting to smile on you, and see you exceeding with great joy.

### Conclusion

Many challenging events are approaching brethren. When they arrive, it's going to be scary. Maybe even frightening. But as God's children, our job is to get full of Him and grow closer to Him.

As I said at the beginning of this warning, some of people who are reading this are not ready to meet Jesus. They have procrastinated with their relationship with God. And they know it.

But neglect never serves anyone. It does not build, or heal.

Please do not neglect your salvation. If you are struggling in your relationship with God. It is time to bring your hurts, burdens and pain to the foot of the cross.

He's waiting my friend. He loves you.

In His service,  
Nathan Leal  
Watchman's Cry
